Make It Move It Forex Trading Giovanni Fleury, 2019-12-31 This book is in black and white, you can purchase the one in color here <https://www.amazon.com/dp/B083XVGWBP>. This is an intermediate & advanced trader's handbook to help you with the art of making money in Forex trading. I will show you how to use Reversal Time Patterns (RTP) to find the best entry and exit points. This method can be applied to any market besides currencies such as stock and commodities. I also want to get you to understand the need to have more than one account to trade and the need to move profits immediately. You will learn the importance of Profit Management, moving money out of your trading account as often as possible, Make It Move It! You should learn the basics of Foreign Exchange trading before you read this book if you don't already have experience trading Forex. You should also learn how to use the MT4 or MT5 trading platform and Ensign Windows. The most important parts of my strategy that you will learn are how to make and move profits constantly. That's why I call it the Make It Move It strategy. The strategies I recommend are to help you make money and help you keep most of your profits instead of losing them right back to the market. Most traders like to gamble with the market because it's fun, but if you want to make some real money and keep it then you need a good Trading & Profit Management strategy. This is a very risky market, you can and will lose some or all of your money in your trading account, that's why I am teaching

you to move profits when you make it. I learned that moving profits constantly is the best way to do well in this high-risk market. Because of the high leverage in Forex, you can make 10% or more in one trade. Most people who trade stocks would be happy with 10% per year but Forex traders are a different breed of people with greater expectations. We are always looking for the best strategy or system to make a lot of good trades. Well, I've got something for you: It's the Reversal Time Pattern (RTP) trading system and strategy. This RTP strategy will make you a monster trader. You will spot easy trading opportunities based on time patterns for big profits. Spend more time sleeping and less time trading, be more productive, be a Market Time Master. I will also show you correlated instruments that can give you confirmation about the direction that you want to trade a currency. That way you will not be confused as to why a currency is going in a certain direction at that time. You do not need to use a lot of money to trade Forex. You can start with as little as \$10 or \$100. You can build it up with consistently good trades. I will also show you how to find trades to make 100% or more in one currency with position compounding using your first trades' profits to make other trades while using trailing stops to protect your profits. I talk about leverage of over 50 times your money; Leverage of over 50 times is not available by any broker in the United States of America. You can find leverage of 100:1(one hundred to 1), 200:1 or more outside of the U.S. High leverage allows you to make big trades with small amounts of money. However, you must be careful how you trade because that leverage can also cause you to lose a lot of money if you don't use it properly. You have to be able to time your trades a lot better if you want to make money. So, that's the purpose of this advanced trading handbook and strategy.
