Forex Trading Money Management System Don Guy,2017-01-17 I'm going to show you how to CRUSH financial markets using a simple Money Management System that reduces your risk while maximizing profits! While this system may focus on FOREX trading and the casino game Roulette, it can be applied to trading ANY financial market, including stocks, commodities, and binary options. I was inspired to develop this system after a horrible night in Las Vegas where I lost \$2000 playing Roulette with a betting system that I thought was unbeatable. I spent the following 12 years reverse engineering everything that went wrong that dreadful night and developed what I discovered into a simple and powerful Money Management system that makes it easy for anyone to CRUSH financial markets like a professional gambler! After developing this system, I returned to Las Vegas and turned \$20 into \$500 in about 1 hour at the roulette table, and that was down from a high of \$750. The \$500 profit that I walked away with was locked in from the profit-locking mechanism, like a gear that spins freely in one direction but quickly locks in the opposite direction. In January 2015, I had this system programmed into an MT4 Forex Trading Robot so I could automate the entire system (signals, trade execution, and money management). After a few weeks of little activity, the market sprang to life and so did my system! My account doubled in about 48 hours and that's when I knew I had developed something very special. But my trading robots are NOT required to use this system. It can be applied manually to virtually ANY trading system in ANY market and even on casino games like Roulette, although you will get much better results in financial markets where you can have far better statistics than a casino game. So come join me and I'll open a whole new dimension of trading and opportunities for BIG PROFITS that you have never noticed before!
