A Time to Stir Paul Cronin,2018-01-09 For seven days in April 1968, students occupied five buildings on the campus of Columbia University to protest a planned gymnasium in a nearby Harlem park, links between the university and the Vietnam War, and what they saw as the university’s unresponsive attitude toward their concerns. Exhilarating to some and deeply troubling to others, the student protests paralyzed the university, grabbed the world’s attention, and inspired other uprisings. Fifty years after the events, A Time to Stir captures the reflections of those who participated in and witnessed the Columbia rebellion. With more than sixty essays from members of the Columbia chapter of Students for a Democratic Society, the Students’ Afro-American Society, faculty, undergraduates who opposed the protests, “outside agitators,” and members of the New York Police Department, A Time to Stir sheds light on the politics, passions, and ideals of the 1960s. Moving beyond accounts from the student movement’s white leadership, this book presents the perspectives of black students, who were grappling with their uneasy integration into a supposedly liberal campus, as well as the views of women, who began to question their second-class status within the protest movement and society at large. A Time to Stir also speaks to the complicated legacy of the uprising. For many, the events at Columbia inspired a lifelong dedication to social causes, while for others they signaled the beginning of the chaos that would soon engulf the left. Taken together, these reflections present a nuanced and moving portrait that reflects the sense of possibility and excess that characterized the 1960s.

Emergency Department Management Richard F. Salluzzo,1997 This text features all aspects of administration and management of emergency medicine departments. The approach is multi-variant to address all factors that impact the issues. It is definitive, yet practical, in the depth of coverage necessary for effective application by emergency physicians.

Managing Online Forums Patrick O'Keefe,2008-04-21 Every day, millions of users log on to their favorite online forums and interact with others to get advice and discuss everything from the latest news and trends to their hobbies, professions, and whatever else strikes their fancy. Administrators have to lead these communities, deal with difficult users, and choose moderators. Legal constraints, spammers, and technical issues can turn the excitement of running an online community into chaos. With the right guidance, however, running forums can be a pleasure. Patrick O’Keefe has spent years developing and managing online communities. Now, he shows readers how to make the right decisions about every aspect of their forums, including: • choosing a name and domain name • picking the right software • deciding on user options like avatars and private messaging • setting guidelines and dealing with violators • ensuring that posts stay on topic • settling online disputes among users • involving users and keeping the site interesting Managing Online Forums is the one book that shows site owners and administrators how to create a safe and entertaining community that users will return to again and again.

Of Empires Vapid and Grand Dean Marden,2012-08-31 Lord of the Flies and The Hunger Games meet Age of Empires and Civilization in this epic saga stretching from ancient times to our own. History may suffer! CHOSEN to partake in a government initiative known only as 'the Program', Cawdor High's graduating students are quick to find their old rivalries and alliances playing out on a scale grander than any one of them could have ever imagined. Given control of fourteen ancient civilisations within an immense virtual world, the hundred teenagers must engage their foes, protect their allies, and safeguard their own interests leveraging all the

powers of human history. In high school, Lex Ryerson had never been outgoing, outspoken or even remotely popular, but as a member of the fledgling Blue faction, he finds himself emerging as a powerful player in a world forged by the capricious nature of the teenage psyche. The Blues rise to early prominence as they and their neighbouring nations find themselves embroiled in political intrigue and worldwide conflict that could spell doom at any moment for one or all. Spears and swords make way for cannons and guns, with warships and nuclear power thrusting the Program down an increasingly hazy path of warfare and politics. In a world birthed by the collective consciousness of a hundred teenaged minds, how many will be able to tread its narrow paths between sweeping glory and utter decimation? For its enablers, the answer will weave a web of empires both vapid and grand. Originally published as *Final Education: A Novel of Empires Both Vapid and Grand* in 2012 by Adophicution Multimedia.

Communicate Like a Leader Dianna Booher, John Britt, Ed Jent, 2017-06-05 Draw Them In, Don't Drive Them Away! People often get promoted to leadership positions without knowing how to communicate an inspiring strategic vision to the people who report to them. So they focus on what they know: tactics, not strategy. As a result, they become stuck in micromanagement mode. Dianna Booher wants to prevent micromanagement before it happens by providing you with the right leadership communication skills. Grounded in extensive research, this book offers practical guidelines to help professionals think, coach, converse, speak, write, meet, and negotiate strategically to deliver results. In thirty-six brief chapters, Booher shows you how to communicate effectively to audiences up and down the organization so you can fulfill your most essential responsibilities as a leader.

Talking about Race Katherine Cramer Walsh, 2008-09-15 It is a perennial question: how should Americans deal with racial and ethnic diversity? More than 400 communities across the country have attempted to answer it by organizing discussions among diverse volunteers in an attempt to improve race relations. In *Talking about Race*, Katherine Cramer Walsh takes an eye-opening look at this strategy to reveal the reasons behind the method and the effects it has in the cities and towns that undertake it. With extensive observations of community dialogues, interviews with the discussants, and sophisticated analysis of national data, Walsh shows that while meeting organizers usually aim to establish common ground, participants tend to leave their discussions with a heightened awareness of differences in perspective and experience. Drawing readers into these intense conversations between ordinary Americans working to deal with diversity and figure out the meaning of citizenship in our society, she challenges many preconceptions about intergroup relations and organized public talk. Finally disputing the conventional wisdom that unity is the only way forward, Walsh prescribes a practical politics of difference that compels us to reassess the place of face-to-face discussion in civic life and the critical role of conflict in deliberative democracy.

Integral Conflict Richard J. McGuigan, Nancy Popp, 2016-04-21 This book explores conflict through the discerning lens of Integral Theory, applying Ken Wilber's AQAL model to a real-life case study, the River Conflict. Coauthor Richard J. McGuigan was a mediator in this ongoing dispute over fishing rights on the Fraser River in British Columbia, a situation where commercial, recreational, and First Nations fishing interests clashed. Voices of the various stakeholders are featured prominently, giving a vivid sense of a seemingly intractable situation. McGuigan and Nancy Popp set the stage for their Integral analysis of the River Conflict, then move expertly through four chapters aimed at understanding the conflict from the four dimensions of human experience: individual, collective, interior, and exterior. The result is a powerful picture of just how integral conflict is. This quadrant-by-quadrant analysis is well-punctuated by sidebar observations, insights, and tips for conflict practitioners or students, giving readers new to Integral Theory additional support in understanding and applying the AQAL model to their work.

Groups in Context Gerald L. Wilson, Michael S. Hanna, 1993 Using an approach that blends theory and applications, the authors of this group communications text continue to emphasize the importance of evaluating group dynamics in their varied contexts. The importance of the ethical responsibilities of a group are emphasized, and the analysis of small group decision-making processes, both as a non-participant and as an active member of the group using the participant-analyst model and more formal instruments, is encouraged. There is also comprehensive coverage of conflict management, showing the sources, functional benefits, and means to control conflict (ch. 10). The use of real life examples of group communication throughout the text helps students easily transfer principles and concepts to their own situations. In the third edition, adopters will find expanded coverage of group culture and group norms, as well as listening as it relates to group success and leadership; up-to-date information on focus groups and conferencing; and expanded advice on conducting library research.
