It is both a compelling business story and a fascinating account of a family's dedication to its history and heritage. All proceeds from book sales go into the Forum Foundation, which supports a variety of worthy causes in our communities year after year.

**The Tourism Education Futures Initiative** Darko Prebežac, Christian

Schott,Pauline Sheldon,2016-04-29 As the world faces many serious challenges informed, courageous and mindful leadership is needed for a better future. The Tourism Education Futures Initiative (TEFI) is the collective effort of a group of innovative, thoughtful and committed scholars and industry leaders seeking to provide vision, knowledge, and a framework for tourism education programs that promote global citizenship and optimism for a better world. This book consolidates some of TEFI's work as it seeks to be the leading, forward-looking network that inspires, informs and supports tourism educators and students to passionately and courageously transform the world for the better. It makes the case for why change is needed, and how tourism educators can respond to that change with strategies and values-based tools. The book contains papers published in special TEFI issues of the Journal of Teaching in Travel & Tourism (JTTT), which question and explore some of the most important theoretical, conceptual and practical issues facing tourism education now and into the future. The book concludes by integrating the special issues' key contributions with a brief conceptualisation of education futures before it outlines TEFI's framework for action over the coming years. Tourism educators worldwide will find that this volume serves two important purposes. On the one hand, it challenges educators to think both critically and proactively about tourism education, while on the other sharing examples of teaching and learning tools that seek to prepare our students for the future and to be global citizens that live lives of consequence. This book is a collection of articles from the Journal of Teaching in Travel and Tourism.

*The Routledge Handbook of Festivals* Judith Mair,2018-09-03 In recent times, festivals

around the world have grown in number due to the increased recognition of their importance for tourism, branding and economic development. Festivals hold multifaceted roles in society and can be staged to bring positive economic impact, for the competitive advantage they lend a destination or to address social objectives. Studies on festivals have appeared in a wide range of disciplines, and consequently, much of the research available is highly fragmented. This handbook brings this knowledge together in one volume, offering a comprehensive evaluation of the most current research, debates and controversies surrounding festivals. It is divided into nine sections that cover a wide range of theories, concepts and contexts, such as sustainability, festival marketing and management, the strategic use of festivals and their future. Featuring a variety of disciplinary, cultural and national perspectives from an international team of authors, this book will be an invaluable resource for students and researchers of event management and will be of interest to scholars in the fields of anthropology, sociology, geography, marketing, management, psychology and economics.

*Case Based Research in Tourism, Travel, Hospitality and Events* Marianna Sigala, Anastasia Yeark, Rajka Presbury, Marcela Fang, Karen A. Smith, 2022-01-05 This book consolidates international, contemporary and topical case study based research in tourism, travel, hospitality and events. Case studies can make learning more attractive and interesting as well as enable students to understand the theory better and develop their analytical and problem-solving skills. Using industry as an open living lab, case study based research infuses scholars into real-world industry challenges and inspires them to theorise and advance our knowledge frontiers. The book includes international case

studies that can help tourism scholars build and advance (new) theories and enrich their educational practices. Case studies are accompanied with a teaching note guiding scholars to integrate case studies into instruction. Dr Kirsten Holmes, Chair, Council for Australasian Tourism and Hospitality Education (CAUTHE) There is a vital need for contemporary and well-structured case studies for use in tourism teaching. By including case studies from Australasia and key destination regions in Asia, Europe, and the Caribbean, the book is helpful for tertiary teachers globally. Professor Xander Lub, President, EuroCHRIE The book inspires educators and students. The cases provide context to students' learning and demonstrate the richness and variation of the industry. The book also clearly demonstrates how research can inform our teaching. Professor Brian King, Chair, THE-ICE Assessment Panel The book includes cases under five themes: experiences, operations, technologies, strategy and marketing, and destinations. The book provides subject lecturers with a structure to guide students of applying theory into practice. Dr Paul Whitelaw, Academic Director, Southern Cross University This book marks a significant contribution to hospitality, tourism and events pedagogy at undergraduate and postgraduate level. At a time when the industry is demanding that our graduates have a strong grasp of "real world issues", the case study approach provides an accessible, meaningful and relatable means by which students can engage in real world issues.

**Indigenous Tourism** Michelle Whitford, Lisa Ruhanen, Anna Carr, 2017-06-30 This volume presents a collection of unique case studies focusing on issues pertaining to indigenous tourism in two of the world's recognised leading destinations for indigenous

tourism planning and development.

It's not much use to him, but a bird flying by wants it for a nest. When he discovers a shell, Mole gives it to Snail for a cozy home. Happy to share, Mole keeps digging, and uncovers—another hole, with another little mole in it. A new friend—what a treasure indeed. Brightly colored illustrations enhance this simple story about friendship, sharing, and perseverance, created by husband and wife team Jane and Will Hillenbrand. Tourism, Resilience and Sustainability Joseph M. Cheer, Alan A. Lew, 2017-08-07 In a world increasingly faced with, and divided by, regional and global crises, resilience has emerged as a key concept with significant relevance for tourism. A paradigmatic shift is taking place in the long-term planning of tourism development, in which the prevailing focus on sustainability is being enhanced with the practical application of resilience planning. This book provides a critical appraisal of sustainability and resilience, and the relationship between the two. Contributions highlight the complexity of addressing social change with resilience planning in a range of tourism contexts, from islands to mountains, from urban to remote environments, and in a range of international settings. Case studies articulate how tourism is both an agent of social change and a victim of larger change processes, and provide important lessons on how to deal with increasingly unstable economic, social and environmental systems. This is the first book to specifically examine

social change and sustainability in tourism through a resilience lens. This much-needed contribution to the literature will be a key resource for those working in tourism studies, tourism planning and management, social geography, and development studies, among others.

*World Geography of Travel and Tourism* Alan A. Lew, Colin Michael Hall, Dallen J. Timothy, 2008 *World Geography of Travel and Tourism* takes an alternative approach to current tourism geography offerings, which offer a plainly topical approach. The authors have included major themes, models and issues from a topical perspective, and positioned them in a place and regional context. In this way, this text places traditional human and physical geography at the core of our understanding of international tourism destinations and issues. \* Develops a theoretical framework and regional context for the study of international tourism \* Contributions from leading academics provide regional expertise \* Fully supported by author-designed and maintained website

*Tourism and Resilience* C. Michael Hall, Girish Prayag, Alberto Amore, 2017-11-15 This book is the first authored overview of resilience in tourism and its relationship to the broader resilience literature. The volume takes a multi-scaled approach to examine resilience at the individual, organisation and destination levels, and with respect to the wider tourism system. It covers the different approaches to understanding resilience (the ecological and engineering approaches) and identifies issues with their understanding and application. The book connects issues of resilience to related key concepts such as vulnerability, adaptation, networks, systems, change and social capital. It is designed to be an upper level undergraduate and postgraduate primer on resilience in a tourism context

and will be of interest to tourism researchers in planning, development, geography, impacts, sustainability, disaster management and environmental studies.

**Tourism Planning and Destination Marketing** Mark Anthony Camilleri, 2024-01-16 Authored by more than 20 leading academics and providing in-depth coverage of a wide array of economic, social, technological and environmental realities in tourism planning and development, this volume is the latest in the field of tourism, theory and practice.

*Drive Tourism* Bruce Prideaux, Dean Carson, 2010-11-03 Since the post World War Two boom in private automobile ownership, Drive Tourism has transformed the tourism landscape by facilitating dispersal and the growth of attractions and tourism related infrastructure beyond the zones that had previously emerged around seaports and railway terminals. The automobile has made regional dispersal possible and created opportunities for many small rural communities to supplement rural economies with a tourism economy. Drive Tourism is a popular form of tourism activity that has significantly contributed to the development of Tourism in many nations, but has received relatively little attention in the literature. This book is the first attempt to provide a global comprehensive review and scholarly investigation into this popular and growing form of tourism. It draws on a vast

range of geographical locations to critically explore the impacts of drive tourism in developed and underdeveloped regions. It evaluates tourism authorities' response to the Drive Tourism Experience, and offers operational insights into the management of the drive experience as well as providing original empirical research and insights into the field that will contribute to future investigation. In doing so it explores the many forms of drive tourism from caravanning to fly drive touring.
