Non-Representational Theory Nigel Thrift,2008-03-25 This astonishing book presents a distinctive approach to the politics of everyday life. Ranging across a variety of spaces in which politics and the political unfold, it questions what is meant by perception, representation and practice, with the aim of valuing the fugitive practices that exist on the margins of the known. It revolves around three key functions. It: introduces the rather dispersed discussion of non-representational theory to a wider audience provides the basis for an experimental rather than a representational approach to the social sciences and humanities begins the task of constructing a different kind of political genre. A groundbreaking and comprehensive introduction to this key topic, Thrift's outstanding work brings together further writings from a body of work that has come to be known as non-representational theory. This noteworthy book makes a significant contribution to the literature in this area and is essential reading for researchers and postgraduates in the fields of social theory, sociology, geography, anthropology and cultural studies.

Influence Marketing Danny Brown,Sam Fiorella,2013-04-29 Identify and Manage the Influence Paths That Convert Brand Awareness to Customer Acquisition! Today, you face a brutally tough, maddeningly elusive new competitor: the "wisdom of crowds." Social media gives consumers 24x7 access to the attitudes and recommendations of their most engaged peers. These are the views that shape buying decisions. These are the views you must shape and use. Influence Marketing won't just help you identify and enlist key influencers: it will help you manage the influence paths that lead consumers to buy. By sharing empirical evidence of hard-won lessons from pioneering influence marketers, Danny Brown and Sam Fiorella provide a blueprint that moves influence marketing beyond simple brand awareness and into sales acquisition and customer life time value measurement. They integrate new tools and techniques into a complete methodology for

generating more and better leads—and converting them faster, at higher margins. • Put the customer—not the influencer—at the center, and plan influence marketing accordingly • Recognize where each prospect stands in the purchase life cycle right now • Clarify how your consumers move from brand preference to purchase • Identify key micro-influencers who impact decisions at every stage • Gain indispensable insights into the context of online relationships • Recognize situational factors that derail social media brand recommendations • Understand social influence scoring models and overcome their limitations • Re-engineer and predict influence paths to generate measurable action • Master the “4 Ms” of influence marketing: make, manage, monitor, measure • Transform influence marketing from a “nice-to-have” exercise into a powerful strategy Additional online resources can be found at www.influencemarketingbook.com
