Photographing Mussolini Alessandra Antola Swan,2020-12-10 This pioneering book offers the first account of the work of the photographers, both official and freelance, who contributed to the forging of Mussolini's image. It departs from the practice of using photographs purely for illustration and places them instead at the centre of the analysis. Throughout the 1930s photographs of the Italian dictator Benito Mussolini were chosen with much care by the regime. They were deployed to highlight those physical traits - the piercing eyes, protruding jaw, shaved head - that were meant to evoke the Duce's strength, determination and innate sense of leadership in the mind of his contemporaries. The chapters in this volume explore the photographic image in the socio-political context of the time and shows how it was a significant contributor to the development of Italian mass culture between the two world wars.

The Viking Diaspora Judith Jesch,2015-06-05 The Viking Diaspora presents the early medieval migrations of people, language and culture from mainland Scandinavia to new homes in the British Isles, the North Atlantic, the Baltic and the East as a form of ‘diaspora’. It discusses the ways in which migrants from Russia in the east to Greenland in the west were conscious of being connected not only to the people and traditions of their homelands, but also to other migrants of Scandinavian origin in many other locations. Rather than the movements of armies, this book concentrates on the movements of people and the shared heritage and culture that connected them. This on-going contact throughout half a millennium can be traced in the laws, literatures, material culture and even environment of the various regions of the Viking diaspora. Judith Jesch considers all of these connections, and highlights in detail significant forms of cultural contact including gender, beliefs and identities. Beginning with an overview of Vikings and the Viking Age, the nature of the evidence available, and a full exploration of the concept of ‘diaspora’, the book then provides a detailed demonstration of the appropriateness of the term to the world peopled by Scandinavians. This book is the first to explain Scandinavian expansion using this model, and presents the Viking Age in a new and exciting way for students of Vikings and medieval history.

Serçe Limani George F. Bass,Sheila Matthews,J. Richard Steffy,Frederick H. van Doorninck,2004-08-16 For almost a millennium, a modest wooden ship lay underwater off the coast of Serçe Limani, Turkey, filled with evidence of trade and objects of daily life. The ship, now excavated by the Institute of Nautical Archaeology at Texas A&M University, trafficked in both the Byzantine and Islamic worlds of its time. The ship is known as “the Glass Wreck” because its cargo included three metric tons of glass cullet, including broken Islamic vessels, and eighty pieces of intact glassware. In addition, it held glazed Islamic bowls, red-ware cooking vessels, copper cauldrons and buckets, wine amphoras, weapons, tools, jewelry, fishing gear, remnants of meals, coins, scales and weights, and more. This first volume of the complete site report introduces the discovery, the methods of its excavation, and the conservation of its artifacts. Chapters cover the details of the ship, its contents, the probable personal possessions of the crew, and the picture of daily shipboard life that can be drawn from the discoveries.
