*The Myth of Piers Plowman* Lawrence Warner, 2014-03-06 Addressing the history of the production and reception of the great medieval poem, *Piers Plowman*, Lawrence Warner reveals the many ways in which scholars, editors and critics over the centuries created their own speculative narratives about the poem, which gradually came to be regarded as factually true. Warner begins by considering the possibility that Langland wrote a romance about a werewolf and bear-suited lovers, and he goes on to explore the methods of the poem's localization, and medieval readers' particular interest in its Latinity. Warner shows that the 'Protestant Piers' was a reaction against the poem's oral mode of transmission, reveals the extensive eighteenth-century textual scholarship on the poem by figures including the maligned Chaucer editor John Urry, and contextualizes its first modernization by a literary forger inspired by the 1790s Shakespeare controversies. This lively account of *Piers Plowman* challenges the way the poem has traditionally been read and understood--

*EuroWordNet: A multilingual database with lexical semantic networks* Piek Vossen, 2013-11-11 This book describes the main objective of EuroWordNet, which is the building of a multilingual database with lexical semantic networks or wordnets for several European languages. Each wordnet in the database represents a language-specific structure due to the unique lexicalization of concepts in languages. The concepts are inter-linked via a separate Inter-Lingual-Index, where equivalent concepts across languages should share the same index item. The flexible multilingual design of the database makes it possible to compare the lexicalizations and semantic structures, revealing answers to fundamental linguistic and philosophical questions which could never be answered before. How consistent are lexical semantic networks across languages, what are the language-specific differences of these networks, is there a language-universal ontology, how much information can be shared across languages? First attempts to answer these questions are given in the form of a set of shared or common Base Concepts that has been derived from the separate wordnets and their classification by a language-neutral top-ontology. These Base Concepts play a fundamental role in several wordnets. Nevertheless, the database may also serve many practical needs with respect to (cross-language) information retrieval, machine translation tools, language generation tools and

language learning tools, which are discussed in the final chapter. The book offers an excellent introduction to the EuroWordNet project for scholars in the field and raises many issues that set the directions for further research in semantics and knowledge engineering.

**Becoming a Poet in Anglo-Saxon England** Emily V. Thornbury, 2014-01-30 A groundbreaking study of pre-Conquest English poets that rethinks the social role of Anglo-Saxon verse.

*Boccaccio and the Invention of Italian Literature* Martin Eisner, 2013-09-12 Giovanni Boccaccio played a pivotal role in the extraordinary emergence of the Italian literary tradition in the fourteenth century, not only as author of the Decameron, but also as scribe of Dante, Petrarch and Cavalcanti. Using a single codex written entirely in Boccaccio's hand, Martin Eisner brings together material philology and literary history to reveal the multiple ways Boccaccio authorizes this vernacular literary tradition. Each chapter offers a novel interpretation of Boccaccio as a biographer, storyteller, editor and scribe, who constructs arguments, composes narratives, compiles texts and manipulates material forms to legitimize and advance a vernacular literary canon. Situating these philological activities in the context of Boccaccio's broader reflections on poetry in the Decameron and the Genealogy of the Gentile Gods, the book produces a new portrait of Boccaccio that integrates his vernacular and Latin works, while also providing a new context for understanding his fictions.

**The Lost History of "Piers Plowman"** Lawrence Warner, 2011-12-07 Despite the recent outpouring of scholarship on Piers Plowman, Lawrence Warner contends, we know much less about the poem's production, transmission, and readership than one might think. When did William Langland write each of the three versions of the poem, and when did they enter wide circulation? What role did scribes and other agents play in these processes? The Lost History of Piers Plowman engages with these questions to bring about a fundamental shift in our understanding of the genesis and development of the Middle English poem. According to received history, the poem exists in three distinct, chronological versions, the A, B, and C texts, with most scholars agreeing that Langland completed the B text—the version most familiar to modern readers—around 1377-78. Challenging much of the prevalent wisdom about the poem, Warner argues that the received B text is not an integral poem aligned with a single author but, rather, two groups of manuscripts, each of which, because of scribal activities, takes on varying amounts of what we now call C version matter. Through close textual analysis, he reveals that the B text is a conflation of an ur-B text with a collection of passages that belong to the C version of circa 1390, demonstrating

that the circulation of the C text actually predates that of the B. The Lost History of Piers Plowman is a groundbreaking and provocative work that establishes an entirely new paradigm for the study of one of the central works of Middle English literature. It will be of interest to scholars and students of textual studies, editorial theory, and medieval history.

**Living Death in Medieval French and English Literature** Jane Gilbert, 2011-02-17 Medieval literature contains many figures caught at the interface between life and death - the dead return to place demands on the living, while the living foresee, organize or desire their own deaths. Jane Gilbert's original study examines the ways in which certain medieval literary texts, both English and French, use these 'living dead' to think about existential, ethical and political issues. In doing so, she shows powerful connections between works otherwise seen as quite disparate, including Chaucer's Book of the Duchess and Legend of Good Women, the Chanson de Roland and the poems of Francois Villon. Written for researchers and advanced students of medieval French and English literature, this book provides original, provocative interpretations of canonical medieval texts in the light of influential modern theories, especially Lacanian psychoanalysis, presented in an accessible and lively way.

*Image, Text, and Religious Reform in Fifteenth-Century England* Shannon Gayk, 2010-09-30 Focusing on the period between the Wycliffite critique of images and Reformation iconoclasm, Shannon Gayk investigates the sometimes complementary and sometimes fraught relationship between vernacular devotional writing and the religious image. She examines how a set of fifteenth-century writers, including Lollard authors, John Lydgate, Thomas Hoccleve, John Capgrave, and Reginald Pecock, translated complex clerical debates about the pedagogical and spiritual efficacy of images and texts into vernacular settings and literary forms. These authors found vernacular discourse to be a powerful medium for explaining and reforming contemporary understandings of visual experience. In its survey of the function of literary images and imagination, the epistemology of vision, the semiotics of idols, and the authority of written texts, this study reveals a fifteenth century that was as much an age of religious and literary exploration, experimentation, and reform as it was an age of regulation.

**Reading Piers Plowman** Emily Steiner, 2013-05-09 Reading 'Piers Plowman' is an indispensable scholarly guide to a magnificent - and notoriously difficult - medieval poem. With 'Piers Plowman', the fourteenth-century poet William Langland proved that English verse could be at once spiritually electrifying and intellectually rigorous, capable of imagining society in its totality while at the same time exploring heady ideas about language, theology

and culture. In her study of *Piers Plowman*, Emily Steiner explores how Langland's ambitious poetics emerged in dialogue with contemporary ideas; for example, about political counsel and gender, the ethics of poverty, Christian and pagan learning, lordship and servitude, and the long history of Christianity. Lucid and comprehensive, Steiner's study teaches us to stay alert to the poem's stunning effects while still making sense of its literary and historical contexts.

*Ethics and Enjoyment in Late Medieval Poetry* Jessica Rosenfeld, 2010-12-02 Jessica Rosenfeld provides a history of the ethics of medieval vernacular love poetry by tracing its engagement with the late medieval reception of Aristotle. Beginning with a history of the idea of enjoyment from Plato to Peter Abelard and the troubadours, the book then presents a literary and philosophical history of the medieval ethics of love, centered on the legacy of the *Roman de la Rose*. The chapters reveal that 'courtly love' was scarcely confined to what is often characterized as an ethic of sacrifice and deferral, but also engaged with Aristotelian ideas about pleasure and earthly happiness. Readings of Machaut, Froissart, Chaucer, Dante, Deguileville and Langland show that poets were often markedly aware of the overlapping ethical languages of philosophy and erotic poetry. The study's conclusion places medieval poetry and philosophy in the context of psychoanalytic ethics, and argues for a re-evaluation of Lacan's ideas about courtly love.

*Vernacular Translation in Dante's Italy* Alison Cornish, 2010-12-23 Translation and commentary are often associated with institutions and patronage; but in Italy around the time of Dante, widespread vernacular translation was mostly on the spontaneous initiative of individuals. While Dante is usually the starting point for histories of vernacular translation in Europe, this book demonstrates that *The Divine Comedy* places itself in opposition to a vast vernacular literature already in circulation among its readers. Alison Cornish explores the anxiety of vernacularization as expressed by translators and contemporary authors, the prevalence of translation in religious experience, the role of scribal mediation, the influence of the Italian reception of French literature on that literature, and how translating into the vernacular became a project of nation-building only after its virtual demise during the Humanist period. Vernacular translation was a phenomenon with which all authors in thirteenth- and fourteenth-century Europe - from Brunetto Latini to Giovanni Boccaccio - had to contend.

*From England to Bohemia* Michael Van Dussen, 2012-03 The first examination of cultural exchanges between England and Bohemia after 1382, eventually leading to the suppression of heresy.

Court Poetry in Late Medieval England and Scotland Antony J. Hasler, 2011-03-10 This book explores the anxious and unstable relationship between court poetry and various forms of authority, political and cultural, in England and Scotland at the beginning of the sixteenth century. Through poems by Skelton, Dunbar, Douglas, Hawes, Lyndsay and Barclay, it examines the paths by which court poetry and its narrators seek multiple forms of legitimation: from royal and institutional sources, but also in the media of script and print. The book is the first for some time to treat English and Scottish material of its period together, and responds to European literary contexts, the dialogue between vernacular and Latin matter, and current critical theory. In so doing it claims that public and occasional writing evokes a counter-discourse in the secrets and subversions of medieval love-fictions. The result is a poetry that queries and at times cancels the very authority to speak that it so proudly promotes.

Artisans and Narrative Craft in Late Medieval England Lisa H. Cooper, 2011-03-10 The first book-length study to articulate the vital presence of artisans and craft labor in medieval English literature from c.1000-1483.

The Wars of Alexander Hoyt N. Duggan, Thorlac Turville-Petre, 1989 This is the first critical edition of The Wars of Alexander, a Middle English poem

dating from the late 14th or early 15th century and based on the popular Latin story of Alexander, *Historia de Preliis*.
