**Color Atlas of Burn Reconstructive Surgery** Hiko Hyakusoku,Dennis P. Orgill,Luc Téot,Julian J. Pribaz,Rei Ogawa,2010-08-09 Post-burn scar contractures are a commonly encountered problem in the field of plastic and reconstructive surgery. Nevertheless, many physicians still lack adequate knowledge on beneficial treatments. In this up-to-date atlas, leading specialists in post-burn treatment and the reconstruction of post-burn scar contractures depict in detail not only surgical techniques but also a variety of advantageous wound treatments. Many new methods invented by the authors are presented. Operative techniques are depicted in detail, and clear guidance is provided on selection of the most appropriate flap surgery. Advice is also given on how to prevent permanently disabling restriction of joint movement as a result of contractures and how to achieve good aesthetic reconstruction. This atlas is designed to appeal to a wide audience, from beginners to specialists. It will prove invaluable for doctors of every kind who deal with wound management.

**The All-Day Fat-Burning Diet** Yuri Elkaim,2015-12-22 You are often told that eating less and exercising more are the keys to losing weight; but even with multiple plans and temporary successes, you fail to find lasting results with this old method. Yuri Elkaim's The All-Day Fat-Burning Diet provides the solution with his 5-Day Calorie Cycling Formula that sets your metabolism to lose up to 5 pounds a week. This plan

eliminates the causes of weight gain and pushes the reset button on your fat-burning capacity. No combination of calorie cutting, exercising, or restrictive dieting will help you look and feel great unless you set your body to burn fat and lose weight all day, all night, when you're not eating or working out--24/7. In *The All-Day Fat-Burning Diet*, Elkaim reveals rarely discussed fat triggers along with an easy and innovative way to double weight loss in just 3 weeks. Based on a powerhouse blend of nutritional know-how, fitness experience, and solid science, Elkaim's four-pronged approach features (1) strategically cycling calories and carbohydrates; (2) eating clean and lean foods that reduce fat triggers in the body; (3) exercising more intelligently; and (4) improving the body's ability to repair and avoid burnout. This proven program will reset your body to your desired factory settings and supercharge your metabolism to burn fat on autopilot--no matter age, fitness level, or health status.

**Freedom Burning** Richard Huzzey, 2012-09-15 After Britain abolished slavery throughout most of its empire in 1834, Victorians adopted a creed of anti-slavery as a vital part of their national identity and sense of moral superiority over other civilizations. The British government used diplomacy, pressure, and violence to suppress the slave trade, while the Royal Navy enforced abolition worldwide and an anxious public debated the true responsibilities of an anti-slavery nation. This crusade was far from altruistic or compassionate, but Richard Huzzey argues that it

forged national debates and political culture long after the famous abolitionist campaigns of William Wilberforce and Thomas Clarkson had faded into memory. These anti-slavery passions shaped racist and imperialist prejudices, new forms of coerced labor, and the expansion of colonial possessions. In a sweeping narrative that spans the globe, *Freedom Burning* explores the intersection of philanthropic, imperial, and economic interests that underlay Britain's anti-slavery zeal— from London to Liberia, the Sudan to South Africa, Canada to the Caribbean, and the British East India Company to the Confederate States of America. Through careful attention to popular culture, official records, and private papers, Huzzey rewrites the history of the British Empire and a century-long effort to end the global trade in human lives.

### Burning Down the House Andrew

Koppelman, 2022-10-04 A lively history of American libertarianism and its decay into dangerous fantasy. In 2010 in South Fulton, Tennessee, each household paid the local fire department a yearly fee of \$75.00. That year, Gene Cranick's house accidentally caught fire. But the fire department refused to come because Cranick had forgotten to pay his yearly fee, leaving his home in ashes. Observers across the political spectrum agreed—some with horror and some with enthusiasm—that this revealed the true face of libertarianism. But libertarianism did not always require callous indifference to the misfortunes of others. Modern libertarianism began with Friedrich Hayek's admirable corrective to the Depression-era vogue for central economic planning. It resisted oppressive state power. It showed how capitalism could improve life for everyone. Yet today, it's a toxic blend of anarchism, disdain for the weak, and rationalization for environmental catastrophe. Libertarians today accept new, radical arguments—which crumble under scrutiny—that justify dishonest business practices and Covid deniers who refuse to wear masks in the name of "freedom." Andrew Koppelman's book traces libertarianism's evolution from Hayek's moderate

pro-market ideas to the romantic fabulism of Murray Rothbard, Robert Nozick, and Ayn Rand, and Charles Koch's promotion of climate change denial. *Burning Down the House* is the definitive history of an ideological movement that has reshaped American politics.

Burning Our Money Mike Denham, 2013-02-21  
Britain is in the midst of a fierce battle over government spending. With debts mounting rapidly, the £700 billion annual bill is no longer sustainable. But cuts face a wall of opposition, with dire warnings that they will ravage our society: hospital waiting lists will grow, schools will close and the poor will tumble into a new Dickensian abyss. Yet much of what the government currently spends is wasted, and public sector performance is often woeful. In *Burning Our Money*, Mike Denham casts a critical eye over the services we receive for our hard-earned cash, and finds them radically - often shockingly - wanting. For all the media insistence that the NHS is 'the envy of the world', it stacks up poorly against European healthcare systems. For

all our apparently soaring exam grades, our children significantly underperform their future competitors in China, Korea and elsewhere. And for all our hand-wringing about abolishing poverty, our huge welfare system actually damages many of the poor it's supposed to help. Drawing on extensive research and up-to-the-minute reporting, *Burning Our Money* comprehensively debunks the myth that more public spending means better public services, and shows how we can - and must - get more for less.
