Emerging Solutions for Musical Arts Education in Africa Pan African Society for Musical Arts Education,2005 Emerging Solutions for Musical arts Education in South Africa offers peer-reviewed articles prepared for the 2003 Conference of the Pan African Society for Musical Arts Education in Africa held in Kisumu, Maseno, Kenya. Not only does this publication voice the solutions offered by 31 authors from the African continent and beyond, but it presents in a unique and highly accessible fashion the collective voice of the conference participants. True to the spirit of ubuntu - an individual is only a person through other people (their communities) - this publication is a reflection of the essence of an overarching sub-Saharan philosophy; the contents represents a conference where papers were not presented, but where conference participants engaged to discuss solutions for the musical arts on the African continent. While the individual voice has been given its rightful place, the collective voice represents an emergent song composed by the scholarly community in oral fashion. This publication provides insight into the problems of musical arts education in Africa; and solutions for musical arts education.

Transactions on Edutainment III Maiga Chang,2010-01-07 With great pleasure we would like to present the third volume of the journal Transactions on Edutainment. This journal, part of the Springer series Lecture Notes in Computer Science, is devoted to research and development in the field of edutainment. Edutainment, also known as educational entertainment or entertainment-education, denotes all forms of entertainment designed to educate as well as to provide fun. This approach is motivated by the growing demands on individuals for life-long learning and the need to integrate effective learning opportunities throughout life. As such, edutainment has attracted increasing interest in the last few years. The first 12 articles of this issue represent a selection of outstanding contributions from Edutainment 2009, the 4th International Conference on E-Learning and Games held in Canada, in August 2009. The main purpose of the Edutainment conferences is the discussion, presentation, and information exchange of scientific and technological developments in the new community. These 12 papers cover mainly the topic of using games to stimulate learners' learning motivation, i. e.
