*Guerrilla Publishing* Derek Murphy, 2017-01-24 TRAIN THE INTERNET TO SELL BOOKS FOR YOU Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can focus on writing your next bestseller. FAST AND EFFECTIVE BOOK MARKETING This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. LAUNCH BIG EVEN IF YOU'RE STARTING SMALL Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of surprise and harass I will focus on surprise and delight. First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.

Quick Guideline to Prepare Paperback Book Interior and Cover Files Using Different Applications Dr. Hidaia Mahmood Allassouli,2021-12-31 In order to publish and sell a Book on any publishing website, you need a ready-to-print PDF layout that supports all the requirements of the publisher system. You can create the PDF independently or use other production software like InDesign, or you can buy a paid professional production service. Book cover creation is the very last creative step when publishing a book. That's because almost everything about the anatomy of a book cover is controlled by the final, edited version of the book: the trim size, paper color and number of pages all determine your covers dimensions. You need to design the cover after the final draft is finished. Book cover design is comprised of text and images. You must note: the front cover, back cover, spine, layout, picture, fonts, and other elements of the cover. The book consists of manuscript and cover. On the publishing website, you can upload your manuscript. The publishing website will automatically convert the manuscript to proofed PDF prior to publishing/printing. Depending on the publishing website, you can create your book cover using Cover Creator tool or submit your book cover in a PDF. Publishing Print books at KDP amazon kdp.amazon.com, Lulu.com and notionpress.com is straightforward, as you can just upload your manuscript as a PDF, DOC, DOCX, RTF, HTML, or TXT file. Kdp.amazon.com, notionpress.com and Lulu.com will automatically convert these file types to PDF prior to publishing/printing. You can create your book cover using Cover Creator tool within the websites. The free Cover Creator helps you to create and customize your eBook, paperback, or hardcover cover with a variety of layouts and fonts. Cover Creator uses the book details you enter during title setup and adds your book's ISBN to the barcode area on the back cover But other publishing websites such as streetlib.com, ingramspark.com, blurb.com, press.barnesandnoble.com and feiyr.com requires from the authors to prepare the Paperback book manuscript in PDF format, and to design and submit the book cover in a PDF format according to their specifications. So, the author must have good knowledge on the formatting requirements for the book interior, and needs to create a paperback cover, using design software to be

able to publish in such websites. So, when you create a paperback book, you need to format and upload two files: a manuscript file, which is the interior of your book, and a cover file, which is the outside of your book including the front, back, and spine. Here I will provide the steps on how to format both files, plus tools and resources to help you get started. The report consists from the following sections: 1. Book spine width calculator. 2. Online cover calculators. 3. Creating Barcode for the book ISBN. 4. Interior and cover files specifications for publishing at KDP amazon and using the online cover creator at KDP amazon. 5. Interior and cover files specifications for publishing at Lulu.com and using the online cover creator at Lulu.com. 6. Quick guideline for creating a bleed for your publication on Microsoft Word. 7. Quick guideline for creating a bleed for your publication on Adobe applications and other applications. 8. Configuring Word so that it doesn't compress images. 9. Streetlib.com Paperback book specifications. 10. Feiyr.com cover templates for print on demand books. 11. Creating paper cover using Canva.com. 12. Creating paper cover using Adobe Illustrator. 13. Creating paperback cover using Paint.net Application. 14. Creating paperback cover using Adobe Photoshop Application. 15. Creating paperback cover using Adobe InDesign Application. 16.
