**Barcodes with iOS** Oliver Drobnik, 2015-01-21 Summary Barcodes with iOS is the first and only book that comprehensively addresses barcode technology for the iOS developer. It offers an introduction to commonly used formats, such as ISBN and UPC codes, and provides real-world examples that teach you how to integrate code scanning and generation into your apps. This book consolidates information about applicable Apple frameworks in one place so you can quickly add native barcode support to your existing enterprise apps or start building new apps that help bring together the physical and digital worlds. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Technology Barcodes are a universal way to track and share information, appearing on everything from cereal boxes to shop windows. Starting with iOS 7, Apple has added native features for building apps that scan, display, and print barcodes, eliminating the need for third-party libraries. About the Book Barcodes with iOS teaches you how to effectively use barcodes in your iOS apps. You'll master Apple's new barcode frameworks while you explore real-world examples that integrate code scanning and generation and metadata retrieval into your apps. Along the way, you'll pick up numerous best practices for bringing together the physical and digital worlds. This book is written for readers with a working knowledge of Objective-C and iOS app development. What's Inside Learn about all barcode formats supported by iOS Native barcode scanning with AV Foundation Using Core Image and BarcodeKit to produce a wide range of barcodes Printing to sheets and labels with AirPrint Retrieving metadata for products with NSURLSession and NSURLProtocol Harnessing context information from Core Location and iBeacons About the Author Oliver Drobnik is an independent consultant specializing in custom iOS and Mac development. Table of Contents Barcodes, iOS, and you 1 Media capture with AV Foundation 18 Scanning barcodes 48 Passbook, Apple's digital wallet 70 Generating barcodes 97 Getting metadata for barcodes 133 Putting barcodes in context 172 Appendices History of the UPC 205 GTIN prefix ranges 212 GS1-128 application identifiers 217

My iPad mini Gary Rosenzweig,2012-12-05 Covers iOS 6 Step-by-step instructions with callouts to iPad mini photos that show you exactly what to do. Help when you run into iPad mini problems or limitations. Tips and Notes to help you get the most from your iPad mini. Full-color, step-by-step tasks walk you through getting and keeping your iPad mini working just the way you want. Learn how to: • Connect your iPad mini to your Wi-Fi and 3G/4G LTE networks • Record and edit video using iMovie for iPad mini • Use Siri to control your iPad mini or get information by speaking commands • Take photos, and then edit them using iPhoto for iPad mini • Video chat with your friends using Skype and FaceTime • Stream audio and video to Apple TV and other devices • Use Dictation to create notes, emails, text messages, search the Internet, and more • Use iCloud to synchronize data between your devices • Watch movies, TV shows, or home videos • Surf the Web, and send and receive email • Download apps to make your iPad mini even more useful • Manage your contacts, and then connect with others using Messaging • Stay organized with the Calendar app • Use Pages and Numbers to create documents and spreadsheets • Use Keynote to build and display presentations

*My iPad (Covers iOS 6 on iPad 2, iPad 3rd/4th generation, and iPad mini)* Gary Rosenzweig,2012-10-09 Covers iOS 6 on iPad 2, iPad 3rd and 4th generation, and iPad mini My iPad offers a full-color, fully illustrated, step by step resource for anyone using an iPad 2, iPad 3rd or 4th generation, or iPad mini running iOS 6. Each task is presented in easy to follow steps - each with corresponding visuals that are numbered to match the step they are referred by. Notes and sidebars offer additional insight into using the iPad without the need to search through paragraphs of text to find the information you need. Tasks are clearly titled to help you quickly and easily find things you want to accomplish. Everything you need to know (or didn't know was possible) is covered in this book. From setup and configuration to using apps like iBooks, Reminders, Calendar, Pages and Maps, each task is clearly illustrated and easy to follow. Learn how to use the iPad two cameras to take pictures and video and share them with friends or chat with them live. Learn how to: Connect your iPad to your Wi-Fi and 3G/4G LTE networks Use Siri to control your iPad or get information by speaking commands Use iCloud to keep everything current between all of your iOS devices (and even your Mac), including music, photos, emails, and more. Surf the Web, and send and receive email Download and install apps to make your iPad even more useful Use the new iBooks app features Record and edit video using iMovie for iPad Take photos, and then edit them using iPhoto for iPad Stream audio and video to Apple TV and other devices Manage your contacts, and then connect with others using Messaging Stay organized with the Calendar app Use FaceTime and Skype to stay connected with friends and family, or to conduct video conferences

Use Pages and Numbers to create documents and spreadsheets Use Keynote to build and display presentations

**Computers Helping People with Special Needs** Klaus Miesenberger, Arthur Karshmer, Petr Penaz, Wolfgang Zagler, 2012-07-09 The two-volume set LNCS 7382 and 7383 constitutes the refereed proceedings of the 13th International Conference on Computers Helping People with Special Needs, ICCHP 2012, held in Linz, Austria, in July 2012. The 147 revised full papers and 42 short papers were carefully reviewed and selected from 364 submissions. The papers included in the second volume are organized in the following topical sections: portable and mobile systems in assistive technology; assistive technology, HCI and rehabilitation; sign 2.0: ICT for sign language users: information sharing, interoperability, user-centered design and collaboration; computer-assisted augmentative and alternative communication; easy to Web between science of education, information design and speech technology; smart and assistive environments: ambient assisted living; text entry for accessible computing; tactile graphics and models for blind people and recognition of shapes by touch; mobility for blind and partially sighted people; and human-computer interaction for blind and partially sighted people.

**Using Free Scribus Software to Create Professional Presentations: Book Covers, Magazine Covers, Graphic Designs, Posters, Newsletters, Renderings, and** Alice Chen, Gang Chen, 2010-12-12 About 80% of people have the desire to write a book at some point. With the advance of computer and printing technology, this dream can become a reality. One important factor of publishing a book is to create a professional looking book cover. This book uses book cover design as a case study to teach you how to use FREE Scribus software (instead of expensive professional software like InDesign, Photoshop, and QuarkXpress) to create professional presentations. With fewer words and many full color screenshots, we walk you step by step through the entire process. No prior experience is needed. You will learn how to: 1. Download all the FREE software needed. 2. Put the cover template in correct formats. 3. Set up the sheet correctly using units, colors (RGB or CMYK), layers, the imported cover template, sizes, guides, bleed area, and safety margin. 4. Add the background color for the cover with a shape or image frame. 5. Add the cover image and author's photo, as well as how to handle a fully bleed image. 6. Add the titles and text accurately, including information on selecting or changing the text color, using the text box, centering the text, aligning different text boxes, and rotating the text. 7. Add the barcode by extracting the barcode from an EPS file and moving all the barcode elements together or by adding the barcode as a JPEG image file. 8. Use Scribus software to create professional presentations such as book covers, magazine covers, graphic designs, posters, newsletters, renderings, and more. About the authors Alice Chen is an avid Scribus user. She has extensive interest in presentation software, and resides in California. Gang Chen holds a master's degree from the School of Architecture, University of Southern California (USC), Los Angeles, and a bachelor's degree from the School of Architecture, South China University of Technology. He has over 20 years of professional experience. Many of the projects he was in charge of or participated in have been published extensively in Architecture, Architectural Record, The Los Angeles Times, The Orange County Register, etc. He has worked on a variety of unusual projects, including well-known, large-

scale healthcare and hospitality projects with over one billion dollars in construction costs, award-winning school designs, highly-acclaimed urban design and streetscape projects, multifamily housing, high-end custom homes, and regional and neighborhood shopping centers. Gang Chen is a LEED AP and a licensed architect in California. He is also the internationally acclaimed author for other fascinating books, including Building Construction, Planting Design Illustrated, and the LEED Exam Guide series, which includes one guidebook for each of the LEED exams.
