E-Business Fundamentals Peter Eckersley, Lisa Harris, Paul Jackson, 2003-05-29 This comprehensive textbook considers all of the key business, management and technical issues of e-Business, examining and explaining how technologies can help organizations in both the public and private sectors conduct business in new ways. After addressing the changing nature of the e-Economy and the impact of the dot.com 'bubble' of the late 1990s, Eckersley, Harris and Jackson go on to analyse key software developments and the impact these have had on organizational practices. They then outline the legal and ethical frameworks of e-Business, and consider how companies use various e-commerce tools to enter new markets. Finally, they trace the progress public sector organizations have made in adopting e-Business practice. This is an accessible, jargon-free and focused textbook that offers readers both a technical and managerial overview of the issues surrounding e-Business. It uses illustrative cases and discussion questions to help students and managers in organizations not only to familiarize themselves with e-Business but also to equip themselves with the skills to challenge and analyze the changing business environment.

The Third Door Alex Banayan, 2018-06-05 **FORBES #1 CAREER BOOK TO READ IN 2018** The larger-than-life journey of an 18-year-old college freshman who set out from his dorm room to track down Bill Gates, Lady Gaga, and dozens more of the world's most successful people to uncover how they broke through and launched their careers. The Third Door takes readers on an unprecedented adventure—from hacking Warren Buffett's shareholders meeting to chasing Larry King through a grocery store to celebrating in a

nightclub with Lady Gaga—as Alex Banayan travels from icon to icon, decoding their success. After remarkable one-on-one interviews with Bill Gates, Maya Angelou, Steve Wozniak, Jane Goodall, Larry King, Jessica Alba, Pitbull, Tim Ferriss, Quincy Jones, and many more, Alex discovered the one key they have in common: they all took the Third Door. Life, business, success... it's just like a nightclub. There are always three ways in. There's the First Door: the main entrance, where ninety-nine percent of people wait in line, hoping to get in. The Second Door: the VIP entrance, where the billionaires and celebrities slip through. But what no one tells you is that there is always, always... the Third Door. It's the entrance where you have to jump out of line, run down the alley, bang on the door a hundred times, climb over the dumpster, crack open the window, sneak through the kitchen—there's always a way in. Whether it's how Bill Gates sold his first piece of software or how Steven Spielberg became the youngest studio director in Hollywood history, they all took the Third Door.

With accessibly written features such as key learning points, questions, think points and further reading, e-Retailing is core reading for anyone using, studying or researching the internet or e-retailing.

Global Nomads Anthony D'Andrea, 2007-01-24 Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study

analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, Global Nomads develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Persuasion in Advertising John

O'Shaughnessy,Nicholas J. O'Shaughnessy,2004 Effective advertising is, almost always, persuasive advertising, and while not all advertising seeks to persuade, in a competitive situation those who best persuade are those most likely to win. This exciting new book seeks to explain the precise ways in which advertising successfully persuades consumers, setting out the strategies for advertisers to adopt and illustrating the theories at work. Offering not only a conceptual and theoretical grounding in persuasive techniques, this book also provides concrete empirical research that is uniquely incorporated into a marketing textbook format. The authors cover topics including: difficulties of persuasion, rationality and emotion in

persuasion, positive reinforcement techniques and cognitive approaches to persuasion. To illuminate these theories, the authors include original case-studies on campaigns as diverse as Death Cigarettes, Mecca Cola, The Oxo Family and Renault Clio, as well as recent advertisements from BMW, McDonalds, Omega and Silk Cut. A genuinely fresh text on the art of persuasion in advertising, this book is essential reading for all marketing students and academics.
