Launch In 5 Will Russell, 2022-11-08 How do you do justice to your business idea? It's a question that entrepreneurs are always asking, aware that 70% of new businesses fail. Starting a business is scary, especially for first-timers, but there is a safe, LAUNCH IN 5 way to do it. If you are launching a new business, this book will improve your chance for success in the most economic, efficient, and painless way possible, before you put large amounts of time and money on the line. It provides a comprehensive guide on how to rapidly turn an idea into a money-making machine - whether it is a side gig or a headfirst dive into the world of entrepreneurship. Because most new businesses are conducted online, it will place an emphasis on how to launch and build a business on the internet, and because most new entrepreneurs are operating within a small budget and timeframe, these concepts are inexpensive, fast, low-risk, and proven. Based on the author's insider strategies, LAUNCH IN 5 will guide the reader through each step of getting their idea out into the world, from inception to launch to ensuring long-term growth. It will also offer tools to help the reader determine whether their idea is worth pursuing (most aren't) and, if not, return them safely to the concept-development stage before they waste massive amounts of money and time launching an idea that will never fly. You'll learn that · Most risk is unnecessary. · You can launch your new business in days (or sometimes even hours). · You can apply the same launch strategies you'll learn here for an online business, an offline start-up a global corporation, with a budget of \$50 or \$500,000. These method work in any industry, for any idea. · You can lower the start-up failure rate from 70% to 9% if you follow the guidance in this book. · Most business ideas can have their potential success (or failure) proved in just a week or so, for less than the cost of the latest iPhone.

Automate the Boring Stuff with Python, 2nd Edition Al Sweigart, 2019-11-12 Learn how to code while you write programs that effortlessly perform useful feats of automation! The second edition of this international fan favorite includes a brand-new chapter on input validation, Gmail and Google Sheets automations, tips for updating CSV files, and more. If you've ever spent hours renaming files or updating spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do them for you? Automate the Boring Stuff with Python, 2nd Edition teaches even the technically uninclined how to write programs that do in minutes what would take hours to do by hand—no prior coding experience required! This new, fully revised edition of Al Sweigart's bestselling Pythonic classic, Automate the Boring Stuff with Python, covers all the basics of Python 3 while exploring its rich library of modules for performing specific tasks, like scraping data off the Web, filling out forms, renaming files, organizing folders, sending email responses, and merging, splitting, or encrypting PDFs. There's also a brand-new chapter on input validation, tutorials on automating Gmail and Google Sheets, tips on automatically updating CSV files, and other recent feats of automations that improve your efficiency. Detailed, step-by-step instructions walk you through each program, allowing you to create useful tools as you build out your programming skills, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Boring tasks no longer have to take to get through—and neither does learning Python!

The 2030 Spike Colin Mason,2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.
