Basil Bunting Julian Stannard,2014 The act of poetry is never free from risk; this study shows how Bunting remained faithful to his calling, notwithstanding the twists and turns of his extraordinary life, and he left in his wake an extraordinary body of poetry.

A Woman I Know Mary Haverstick,2023-11-14 The “fascinating” (The New York Times) true story of a filmmaker whose investigation of her film’s subject opened a new window onto the world of Cold War espionage, CIA secrets, and the assassination of John F. Kennedy. “A compelling real-life thriller.”—The Telegraph (UK) Independent filmmaker Mary Haverstick thought she’d stumbled onto the project of a lifetime—a biopic of aviation pioneer Jerrie Cobb, the key figure in a group of extraordinary women who in 1960 passed the same tests as the legendary male astronauts of the Mercury 7 but never went to space. Just as casting was set to begin, Haverstick received a mysterious warning from a government agent; soon she began to suspect that there was more to Jerrie’s story than what met the eye. As she dug deeper, she discovered that Jerrie’s life shadowed that of a mysterious CIA agent named June Cobb, whose espionage career traced an arc of intrigue from the jungles of South America to Fidel Castro’s Cuba, to the communist literary circles in Mexico City—and ultimately into the dark heart of the Kennedy assassination in Dallas. Haverstick’s attempt to learn the truth directly from Jerrie would plunge her into a cat-and-mouse game that stretched across a decade, deep into a thicket of coded CIA files. As she uncovered a remarkable set of mostly unknown women whose high-stakes intelligence work left its only traces in redacted files, she also found shocking new clues about what really happened at Dealey Plaza in 1963. Offering fresh insight into the Kennedy assassination and a vivid picture of women in midcentury intelligence, *A Woman I Know* brings to life the astonishing duplicities of the Cold War intelligence game, a world where code names and hidden identities were the lifeblood of spies bent on seeking advantage by any means necessary.

Warrior Mind Dick Morgan,2009-03-04 Warrior Mind is a guide to understanding and developing the warriors essential mind-set. Warrior mind has three components. The first is inner strengththe development of unassailable integrity, clear intent, and unwavering tenacity. The second is a thorough understanding of the principles of strategycorrect movement and balance, proper angles, proper timing, and proper entry. The thirdis acquiring body intelligence- a spontaneous flow of movement in response to an attack without having to think about it.Eventually, thought and movement become one expression. Warrior Mind is also a guide to a strong and proactive approach to life itself. The principles that strengthen the warrior mind-set also empower and enrich ones life whether or not one is involved in a martial study. In fact, the goal of developing warrior mind is to become so internally strong that we discourage and minimize the violence around us. Ultimately, achieving warrior mind is a spiritual journey.

The War Guilt Problem and the Ligue des droits de l'homme, 1914-1944 Norman Ingram,2019-01-31 The War Guilt Problem and the Ligue des droits de l'homme is a significant new volume from Norman Ingram, addressing the history of the Ligue des droits de l'homme (LDH), an organisation founded in 1898 at the height of the Dreyfus Affair and which lay at the very centre of French Republican politics in the era of the two world wars. Ingram posits that the Ligue's inability to resolve the question of war guilt from the Great War was what led to its decline by 1937, well before the Nazi invasion of May 1940. As well as developing our understanding of how the issue of war origins and war guilt transfixed the LDH from 1914 down to the Second World War, this volume also explores the aetiology of French pacifism, expanding on the differences between French and Anglo-American pacifism. It argues that from 1916 onwards, one can see a principled dissent from the Union sacrée war effort that occurred within mainstream French Republicanism and not on the syndicalist or anarchist fringes. Based on substantial research in a large number of French archives, primarily in the papers of the LDH which were repatriated to France from the former Soviet Union in late 2001, but also on considerable new research in the German archives, the book proposes a new explanatory model to help us understand some of the choices made in Vichy France, moving beyond the usual triptych of collaboration, resistance or accommodation.

Birth Sylvie Donna,2010-10 A book for pregnant women who would prefer to give birth with as little intervention as possible, so as to make things as good as possible for both themselves and their babies. The 'countdown' takes the reader through 10 key topics, and all discussion of issues is supplemented with birth stories and comments from all kinds of women and professionals too. The tone is practical, reassuring and even inspirational because the many positive birth stories show how it's possible to have a really happy, healthy experience of birth. Contributions come from Janet Balaskas (the woman who realised we're better off not lying down when we give birth!), Michel Odent (pioneer of water births) and Bill Bryson (the travel writer)... as well as from many other experts and 'ordinary' but extraordinary mothers, who made this book possible. The advice is based on current research evidence and in any cases where the evidence is controversial the research and relevant issues are discussed in an optional extra 'notes' section at the back of the book. There is a comprehensive Glossary of pregnancy terms and a user-friendly Index, so as to make it an optimally useful book in all sense of the word. In short, this is a handbook which could make a real difference to a pregnant woman's experience and also to that of her baby. A comment from an antenatal teacher: What every woman will want to know, put simply and clearly. A comment from a midwife, perinatal researcher and adjunct professor (Betty-Anne Daviss): Sylvie has created a prescription for healthy birth in a 10-step approach to keep parents focused on what is important in a potentially disastrous birth environment... She has... provided us with a book that encapsulates anything you wanted to know about keeping your birth normal and healthy... And a comment from a mother: Had a very late night Friday as I could not put your book down. Wow!
