Posted Work in the European Union Jens Arnholtz,Nathan Lillie,2019-10-08 Focusing on posting of workers, where workers employed in one country are send to work in another country, this edited volume is at the nexus of industrial relations and European Union studies. The central aim is to understand how the regulatory regime of worker posting is driving institutional changes to national industrial relations systems. In the introduction, the editors develop a framework for understanding the relationship of supra-national EU regulation, transnational actors and national industrial relations systems, which we then apply in the empirical chapters. This unique volume brings together scholars from diverse academic fields, all of whom are experts on the topic of worker posting. The book examines different aspects of the posting debate, including the interactions of actors such as labour inspectorates, trade unions, European legal/political regulators, manpower firms, transnational subcontractors and posted workers. The main objective of this book is to explore the dynamics of institutional change, by showing how trans- and supra-national dynamics affect European industrial relations systems. This volume will represent the state of the art in research on worker posting. It will also contribute to debates on European integration, social dumping, labour market dualization and precariousness and will be of value to those with an interest employment relations, law and regulation.

Effective Enforcement of EU Labour Law Zane Rasnaca,Aristea Koukiadaki,Niklas Bruun,Klaus Lörcher,2022-08-11 This book by the ETUI Transnational Trade Union Rights Expert Network analyses enforcement as a key element making EU labour law effective or ineffective. Enforcement is the key ingredient that makes rights effective and ensures compliance. It can make or break a legal system. Despite this, enforcement of EU labour law has received little scholarly attention in recent decades and has rarely been examined in a comprehensive way. This book aims to fill this gap. Intended for academics and practitioners alike, the book adopts a threefold approach to examine this issue. First of all, it explores the idea of effective enforcement and sets out the wider context in which EU labour law enforcement takes place. Secondly, it analyses how enforcement operates in particular areas, including non-discrimination, health and safety, information and consultation rights, and the rights of migrating workers. Thirdly, it critically assesses the role of specific actors (in particular collective actors like trade unions, as well as whistle-blowers and the European Labour Authority) and settings (public procurement, economic and monetary policy) regulated by EU law. Drawing on the insights produced by these analyses, the book concludes by proposing a comprehensive Draft for a Model Directive on 'Effective Enforcement of EU Labour Law' as an inspiration for policy development and scholarly debate in this area.
