E-books in Libraries Kate Price, Virginia Havergal, 2011 Despite the fact that e-books have been in existence for decades in various guises and added to library collections for several years now, there has been a noticeable lack of published manuals on the subject. This is doubtless owing to the rapidly evolving nature of the market. There is now a plethora of different types of digital object that may be termed 'e-books' and a bewildering number of business and access models to match. Moreover the pace of change shows no sign of abating, but there is an increasing amount of popular interest in e-books, and what is needed is practical information to assist library and information professionals managing collections of e-books and doing their best to inform their users right now. The book is divided into five parts: The production and distribution of e-books Planning and developing an e-book collection Delivering e-books to library readers Engaging readers with e-books The future of e-books. Virginia Havergal BA(Hons) MSc MEd FIFL is a Learning Centres and e-Resources Manager for Petroc, a further education college in Devon. Prior to this role she was an e-Learning Advisor with JISC, with a particular focus on Learning Resources. Kate Price BA(Hons) MA MCLIP is Head of E-Strategy and Resources at the University of Surrey.

The 2011 Guide to Free Or Nearly-Free E-Books , 2011 One of the problems which face all librarians adding e-books to their collections is that of bibliographic control: there is no legal deposit for e-books and consequently there is no single place from which new titles can be found. If this is true of commercially published e-books, it is most certainly also true of free e-books... and there are many thousands of free e-books available over the Internet, many of which are of a quality such that librarians might wish to have them in their collections. The 2011 Guide to Free or Nearly-Free e-Books is offered as a tool for librarians and others involved in book selection (e.g. teachers in schools) in all sectors - school, further and higher education, public and special libraries - to facilitate easy access to free e-books and e-book collections which can enhance their digital library.

Internet Book Piracy Gini Graham Scott,2016-03-22 The international battle against Internet pirates has been heating up. Increasingly law enforcement is paying attention to book piracy as ebook publishing gains an ever-larger market share. With this threat to their health and even survival, publishers and authors must act much like the music, film, and software giants that have waged war against pirates for the past two decades. Now, *The Battle against Internet Piracy* opens a discussion on what happens to the victims of piracy. Drawing from a large number of interviews—from writers, self-publishers, mainstream publishers, researchers, students, admitted pirates, free speech advocates, attorneys, and local and international law enforcement officials—the text speaks to such issues as: •Why pirates have acted and how they feel about it •The conflict over constitutional rights and piracy •The

current laws surrounding Internet piracy •Examples of cases taken against some pirates •Alternatives to piracy •Personal experiences of being ripped off •The ways piracy affects different industries and how they've responded

Author Gini Graham Scott prepares readers to arm themselves against these modern perils by learning about copyright, infringement, and how to prevent, combat, and end book piracy. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Maximizing the Impacts of Academic Research Patrick Dunleavy, Jane Tinkler, 2020-10-10 This is an invaluable guide to better research communication within and beyond academia. With many years of research experience, the authors provide scholars and scientists with systematic advice on how to ensure their research reaches its potential, and grows the recognition, influence, practical application and public understanding of science and scholarship. It begins by examining how citations work and evaluating the different measures of academic influence, from legacy bibliometric systems to altmetrics and digital metrics. Subsequent chapters show readers how to craft impactful journal articles, work effectively with co-authors, create a portfolio of publications and build a digital strategy that promotes knowledge exchange. Checklists help readers decide how and in what format to publish, enabling them to get their research in front of the right people. Throughout, the authors illustrate impact with data drawn from a wide range of disciplines. Maximizing the Impacts of Academic Research is ideal for PhD students and early career researchers taking their first steps into academic research, experienced researchers mentoring the next generation of scholars and scientists and established academics looking to systematically review and upgrade their existing impact practices.

Melanin Is Worth More Than Gold Nnamdi Azikiwe, 2020-05-16 Who would have thought preparations for a March 2014 Sacred Libation Ceremony honoring one-hundred forty-eight African American women lynched in America would result in the observation melanin is worth more than gold? Dr. Frances Cress Welsing first told us the chemical melanin is produced through a process known as melanogenesis upon introduction of the chemical tyrosine to the enzyme tyrosinase. Melanin is found in such diverse places as bird feathers, animal fur, reptile scales, microorganisms, cephalopod ink, mushrooms and even fossils. Additionally, melanin is found in the hair, skin and eyes of people. Melanin is subjected to intense scientific scrutiny. Nevertheless, the highly educated people studying it had no idea melanin is worth more than gold. In June 2014 a post to the Keyamsha the Awakening blog openly declared melanin was worth \$353 a gram and \$300 a gram more than gold. Shortly afterwards, hoaxers began bombarding the blog with comments claiming melanin thieves were harvesting melanin from Black people. The hoax was easily falsified. The hoaxers made certain to never mention the company selling melanin extracted from the ink of *sepia officinalis*, the common cuttlefish. During the intervening years the melanin thieves hoaxers persisted in their efforts. In March 2017, the melanin thieves hoaxers launched a Melanin Twitter bomb involving the dollar value of melanin after publicity of black women and girls missing in Washington, D.C. was released. Their actions exposed a frailty in their psyche. They also reveal it is possible to wipe out false information involving melanin and take the melanin challenged inferiority complex (aka racism/white supremacy) along for the ride. It then became clear the time had come to enter the fray and dispel the myths about melanin. This book completely obliterates the false narrative of melanin. Perceiving facts from a melanin-centered perspective bestows upon us an expanded awareness of the world and our place in it. It helps provide the average person a means to immerse themselves in melaninology and emerge a melaninologist. Essentially, we get to know ourselves. To date no other path for the public to independently verify, or falsify, outlandish claims regarding melanin being

worth more than gold on their own without any guru to guide them have been made available. At this writing, melanin is worth over \$395 a gram more than gold. In ancient Kemet (misnomered Egypt) such words were known as hekau or words of power with the ability to heal. For nearly one-hundred years, since August 13, 1920, melanin put the B in R.B.G. and the Black in Red, Black and Green as the flag of Africans, at home and abroad.. Those are hekau, also. Our Blood, Our Melanin and Africa unites us. More hekau. The Afro, official currency of the United States of Africa, also known as the African Union, is worth \$2.22. We are swathed in hekau to such an extent Mchakato Wa Uponyaji (Swahili for the process of healing) has begun. All of which indicates we are living in a new era: the era when all the generations of man can be called blessed on a planet that works for everyone. This era demands we convene the Ubuntu Convention. That plebiscite sets the stage for drafting the Ubuntu Declaration. In emulating the success of the August 1920 Universal Negro Improvement Association convention, we deliberately create the world where we intend to live. The revival of the U.N.I.A. with 12 million dues-paying card-carrying members positions the organization to have a treasury flush with over \$400 million liquid. All of which represents a quantum shift in awareness, perception and power underway as you read this. Through our own actions we bring about the total, complete, and absolute Redemption of Africa for all time.

Don't Miss Your Life Aaron Tredway, 2022-10-04 Live life to the fullest. Nobody wants to look back on a disappointing, unfulfilled life. Why then are so many of us dissatisfied despite our goals and continual striving? In *Don't Miss Your Life*, Aaron Tredway reveals we're aimed at the wrong target: success. Despite our pursuit of something more, we are stuck chasing our idea of success instead of true significance. But we don't have to be rich or famous to lead a life of meaning in God's kingdom. In this practical guide, Aaron shares his personal discovery of the secret to significance and invites you to live the life God created you for. Learn to ● recognize the exhausting emptiness of pursuing success, ● find liberation from a life without purpose, ● pursue God's glory instead of unrewarding self-focus, and ● choose significance over success one step at a time. You were made for a meaningful, deeply fulfilling life, and you can achieve just that.
