Worry-Free Money Shannon Lee Simmons, 2017-12-19
NATIONAL BESTSELLER A fresh way to think about your money. David Chilton, author of *The Wealthy Barber* Stop budgeting. Start living. Managing your money can be frustrating and confusing. Life is expensive. Whether you make \$30,000 or \$130,000 a year, it can feel like you're constantly broke. Can you afford that new car, that vacation, that night out? You think so, but it feels impossible to know. And rigid budgets that force you to spend your money in unrealistic ways (like \$9.50 per week for pants) don't make things any clearer. But what if there was a new way to manage your money? One that left you certain you had your bases covered—both for your monthly bills and your future retirement—and then let you enjoy your money by spending it. (Yes, really.) Enter Shannon Lee Simmons, a fresh voice in the world of personal finance, one who understands the new and very real pressures to survive modern life and keep up in the age of social media. Shannon doesn't lecture, judge or patronize. The founder of the wildly popular New School of Finance, Shannon recognized that most of her thousands of financial planning clients felt broke, no matter what their income. And feeling broke can be as bad as actually being broke, because it leads to overspending and misery. So she came up with a new plan: *Worry-Free Money*. *Worry-Free Money* takes a fresh approach to finances, looking at the root cause of the pressure to spend and showing why traditional budgets don't work. It is a deeply practical book that will help you break the cycle

of guilt, understand why you overspend, banish unhappy spending from your life, learn to recognize your f*ck it moments and find hope—and fun—in getting your money under control.

Super Freedom Trish Power, 2011-09-20 Super Freedom is just that ? a guide for women to super. This guide has a strong, aspirational focus on what superannuation can provide for women, regardless of their marital circumstances, age or even their current superannuation balances. For women it's not so much about the actual amount of super they have, but what they can do with it, eg travel, shop, live. Throwing aside the shackles of jargon and terminology, Trish Power's guide to superannuation for women, provides with women with everything they need to know about how much super they need, getting their super set up, how to increase their super balance, how to move into retirement, insurance and estate planning.

The Latte Factor David Bach, John David Mann, 2019-05-07 INSTANT NEW YORK TIMES, USA TODAY, WALL STREET JOURNAL, AND INTERNATIONAL BESTSELLER Discover #1 New York Times bestselling author David Bach's three secrets to financial freedom in an engaging story that will show you that you are richer than you think. Drawing on the author's experiences teaching millions of people around the world to live a rich life, this fast, easy listen reveals how anyone—from millennials to baby boomers—can still make his or her dreams come true. In this compelling, heartwarming parable, Bach and his bestselling coauthor John David Mann (*The Go-Giver*) tell the story of Zoey, a twenty-

something woman living and working in New York City. Like many young professionals, Zoey is struggling to make ends meet under a growing burden of credit card and student loan debt, working crazy hours at her dream job but still not earning enough to provide a comfortable financial cushion. At her boss's suggestion, she makes friends with Henry, the elderly barista at her favorite Brooklyn coffee shop. Henry soon reveals his "Three Secrets to Financial Freedom," ideas Zoey dismisses at first but whose true power she ultimately comes to appreciate. Over the course of a single week, Zoey discovers that she already earns enough to secure her financial future and realize her truest dreams—all she has to do is make a few easy shifts in her everyday routine. The Latte Factor demystifies the secrets to achieving financial freedom, inspiring you to realize that it's never too late to reach for your dreams. By following the simple, proven path that Henry shows Zoey, anyone can make small changes today that will have big impact for a lifetime, proving once again that "David Bach is the financial expert to listen to when you're intimidated by your finances" (Tony Robbins, #1 New York Times bestselling author of *Money: Master the Game*).

Stock Market Math Michael C. Thomsett, 2017-11-20
Stock Market Math shows you how to calculate return, leverage, risk, fundamental and technical analysis problems, price, volume, momentum and moving averages, including over 125 formulas and Excel programs for each, enabling readers to simply plug formulas into a spread sheet. This book is the definitive reference for all investors and traders. It introduces the many formulas and legends every investor needs, and explains their application through examples and narrative discussions providing the Excel spreadsheet programs for each. Readers can find instant answers to every calculation required to pick the best trades for your portfolio, quantify risk, evaluate leverage, and utilize the best technical indicators. Michael C. Thomsett is a market expert, author, speaker and coach. His many books include Mathematics of Options, Real Estate Investor's Pocket Calculator, and A Technical Approach to Trend Analysis. In Stock Market Math, the author advances the science of risk management and stock evaluation with more than 50 endnotes, 50 figures and tables, and a practical but thoughtful exploration of how investors and traders may best quantify their portfolio decisions.

Finance Nico van der Wijst, 2013-01-17 By providing a solid theoretical basis, this book introduces modern finance to readers, including students in science and technology, who already have a good foundation in quantitative skills. It combines the classical, decision-oriented approach

and the traditional organization of corporate finance books with a quantitative approach that is particularly well suited to students with backgrounds in engineering and the natural sciences. This combination makes finance much more transparent and accessible than the definition-theorem-proof pattern that is common in mathematics and financial economics. The book's main emphasis is on investments in real assets and the real options attached to them, but it also includes extensive discussion of topics such as portfolio theory, market efficiency, capital structure and derivatives pricing. Finance equips readers as future managers with the financial literacy necessary either to evaluate investment projects themselves or to engage critically with the analysis of financial managers. Supplementary material is available at www.cambridge.org/wijst.

The Sex of a Hippopotamus Jay

Starkman, 2008-01-01 Who says taxes and accounting are dull and boring? This remarkable book weaves entertaining and educational stories on how American and world history have been influenced

and molded by the not-so-well-known history of taxes. Unique, quirky, interlaced with personal accounts, and always enlightening, consider a few of the amazing tax stories that have involved some of our best-known leaders and celebrities: Martin Luther King survived a six-day jury trial, avoiding prison for underpaying his income tax by \$318.81. Prior to 1933, U.S. presidents were exempt from paying income tax. President Franklin Roosevelt saved Congressman Lyndon Johnson from prison for criminal tax fraud. Sixty years ago, the IRS was so corrupt that if you didn't offer the IRS agent a bribe, he might shake you down for one. Abolish the IRS? Andrew Jackson actually did so. But it came back 28 years later. Al Capone was just one of many Americans with notorious tax problems. Lesser tax problems faced Alan Jay Lerner, Joe Louis, Sugar Ray Robinson, Willie Nelson, Wesley Snipes, Liberace, Groucho Marx and Jack Benny. Many fascinating tax stories fill this book, including tales of gifts to Anna Nicole Smith, Irving Berlin's songs and much more. Through his decades-long experience as a practicing tax accountant with an insider's knowledge of tax policy and legislation, Jay Starkman provides a fresh and provocative perspective on taxes and accounting. He also gives unconventional and invaluable advice on dealing with IRS.

Financial Literacy for Generation Z Kenneth O. Doyle Ph.D., 2019-09-19 This indispensable resource explains principles of financial planning and financial psychology to help teens and young adults make good financial decisions now and achieve their financial goals. Financial literacy

for savvy teens and young adults means meeting them where they are, which is in high school and college. It also means understanding how they differ from their Gen X and elder millennial parents. For example, they tend to be debt-averse, thrifty, and responsible but may err on the side of taking too little risk, such as not investing early enough. This book uses economics and psychology to help Generation Z students make better decisions throughout their lives and especially in their formative years. Financial Literacy for Generation Z addresses decisions students have to make while still in school, after graduation, and later, with the greatest emphasis on the decisions closest at hand to them. It encompasses not just money talk—for example, how much to contribute to your 401(k)—but also decisions that are directly connected to money, such as choosing a major and a career, building a credit record, and managing your first real income.

Teachers Can Be Financially Fit Tawni Hunt
Ferrarini, M. Scott Niederjohn, Mark C.
Schug, William C. Wood, 2020-08-11 This book uses

relatable case studies to dispense practical financial advice to educators. Written by an expert team of four award-winning economics educators, the book provides an engaging narrative specifically designed for teachers and their unique financial needs. Educators are attracted to the teaching profession for numerous reasons. Prospective teachers enter the profession believing it offers a certain level of job security and good benefits, usually including a defined-benefit, state-funded pension. But things are changing. Pensions vary widely from state to state and even within school districts. Many private schools do not offer even basic 403(b) saving plans and, when they do, they are often not very generous. Much the same can be said of many charter schools and private colleges and universities. The book consists of fourteen chapters covering a comprehensive group of topics specifically curated for educators teaching at the K-12 and university level, including saving for retirement, managing debt, investment strategies, and real estate. Each chapter begins with a case study of an educator in a specific financial situation, which sets the scene for the introduction and explanation of key concepts. The chapters include a Q&A section to address common questions and conclude with a "Financial 911" focusing on a financial emergency related to the chapter topic.
