Moon-face and Other Stories Jack London,1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Best of Enemies Rainier George Weiner,2015-05-07 Suppose fate placed you on an inflatable life-raft in the middle of the freezing Atlantic Ocean along with your most bitter enemy contrivable? Would the emotions of hatred, revenge and love of country trump the desire to survive, if killing that enemy ensured your own demise? Captain Mat Richardson, USN, and Emil Gluckler, a German submarine commander, experience that option during the 2nd World War. Mat, captain of a small destroyer, and Emil, commander of an attacking submarine, become stranded on a life- raft after each of the combatant crafts sink each other during a fierce naval engagement. They subsequently experience 38 harrowing days striving for survival. If nothing else, this required the ultimate in mutual cooperation. If the two survived, would the events have a lasting effect on their relationship? Or, if one had the opportunity to kill the other at a later date in a new war-time circumstance, would he do so, or not?

Earth Storm Mons Kallentoft,2018-01-25 From the internationally bestselling author Mons Kallentoft comes a dark and thrilling new Mali Fors mystery. If you love Jo Nesbo and Samuel Bjork, you'll love Mons Kallentoft. Praise for the Malin Fors series: 'One of the best-realised female heroines I've read by a male writer.' Guardian 'Kallentoft's books have been called beautiful, exquisite and original. I can see why.' Literary Review 'This is a worthy successor to Larsson's Millennium trilogy.' Booklist Starred Review In the early hours of the morning, the naked body of a young man is discovered in a ditch next to Gota Kanal. The cause of death is mysterious; the body bears no visible traces of violence. The man is soon identified as Peder Akerlund, a former Swedish politician, excluded from his party for racism but since reformed. Then sixteen-year-old Nadja Lundin is reported missing, possibly abducted, the same evening, and there are signs that suggest the two cases might be connected. But what do the victims have in common? And why were they chosen? Gradually, Malin Fors realises that they are dealing with someone who is playing a game with them, who speaks through murders and who will not be silenced. What is he or she trying to say? Desperate to find Nadja alive, the team race against the clock to find an answer before it's too late...

Architecture of Systems Problem Solving George J. Klir,Doug Elias,2012-12-06 One criterion for classifying books is whether they are written for a single purpose or for multiple purposes. This book belongs to the category of multipurpose books, but one of its roles is predominant-it is primarily a textbook. As such, it can be used for a variety of courses at the first-year graduate or upper-division undergraduate level. A common characteristic of these courses is that they cover fundamental systems concepts, major categories of systems problems, and some selected methods for dealing with these problems at a rather general level. A unique feature of the book is that the concepts, problems, and methods are introduced in the context of an architectural formulation of an expert system referred to as the general systems problem solver or aSPS-whose aim is to provide users of all kinds with computer-based systems knowledge and methodology. The aSPS architecture, which is developed throughout the book, facilitates a framework that is conducive to a coherent, comprehensive, and pragmatic coverage of systems fundamentals-concepts, problems, and methods. A course that covers systems fundamentals is now offered not only in systems science, information science, or systems engineering programs, but in many programs in other disciplines as well. Although the level of coverage for systems science or engineering students is surely different from that used for students in other disciplines, this book is designed to serve both of these needs.

Success Strategies Warren G. Bennis,Marjorie Blanchard,Brian Tracy,2008 Strategic planning is vital to achieving success in any endeavor in life. Whether you are an entrepreneur, a corporate CEO, a colunteer for a community project, or trying to organize your personal life, it's important to have strategies in place that will help you succeed. I am really excited about what the authors in the book had to say. If I had not interviewed these outstanding, successful men and women I don't think the subject the talked about would have occurred to me. Who would have thought reinventing diversity or the power of procrastination would be success strategies? One of the authors in this chapter said that we are performing in an era where knowledge is power. He went on to sayI think the key is applying that knowledge with laser-like focus. This means ruthless prioritization on what needs to be accomplished in order to yeild the highest payoff in cultures of high demand. The chapters in this book will help you discover core issues that may be challenging you or keeping success just out of reach. I am sure that you will be able to use the information these authors have shared to empower your dreams and goals into reality. Remember success doesn't just happen-you make it happen
