**Feast of Sorrow** Crystal King,2017-04-25 Longlisted for the Center for Fiction First Novel Prize A Massachusetts Book Award “Must Read” Set amongst the scandal, wealth, and upstairs-downstairs politics of a Roman family, this “addictively readable first novel” (Kirkus Reviews) features the man who inspired the world’s oldest cookbook and the ambition that led to his destruction. In the twenty-sixth year of Augustus Caesar’s reign, Marcus Gavius Apicius has a singular ambition: to serve as culinary adviser to Caesar. To cement his legacy as Rome’s leading epicure, the wealthy Apicius acquires a young chef, Thrasius, for the exorbitant price of twenty thousand denarii. Apicius believes that the talented Thrasius is the key to his culinary success, and with the slave’s help he soon becomes known for his lavish parties and sumptuous meals. For his part, Thrasius finds a family among Apicius’s household, which includes his daughter, Apicata; his wife, Aelia; and her handmaiden Passia, with whom Thrasius falls passionately in love. But as Apicius draws closer to his ultimate goal, his dangerous single-mindedness threatens his young family and places his entire household at the mercy of the most powerful forces in Rome. “A gastronomical delight” (Associated Press), **Feast of Sorrow** is a vibrant novel, replete with love and betrayal, politics and intrigue, and sumptuous feasts that bring ancient Rome to life.

*The Far End of Happy* Kathryn Craft, 2015-05-05 Twelve tense hours, three women, and the suicide standoff that turns one family's little piece of heaven into a scene from hell Ronnie Farnham's husband is supposed to move out today. But when Jeff pulls into the driveway drunk, with a shotgun in the front seat, she realizes nothing about the day will go as planned. The next few hours spiral down in a flash, unlike the slow disintegration of their marriage-and whatever part of that painful unraveling is Ronnie's fault, not much else matters now but these moments. Her family's lives depend on the choices she will make-but is what's best for her best for everyone? Based on a real event from the author's life, *The Far End of Happy* is a chilling contemporary novel. Fans of Mary Kubica, Diane Chamberlin, and Rosalind Wiseman will be on the edge of their seats during this story of one troubled man, the family that loves him, and the suicide standoff that will change them all forever. *Metaphysical Emergence* Jessica M. Wilson,2021 Both the special sciences and ordinary experience present us with a world of macro-entities - trees, birds, lakes, mountains, humans, houses, and sculptures, to name a few - which materially depend on lower-level configurations, but which are

also distinct from and distinctively efficacious as compared to those configurations. This give rise to two key questions. First, what is metaphysical emergence, more precisely? Second, is there actually any metaphysical emergence? Metaphysical Emergence provides clear, compelling, and systematic answers to these questions. Wilson argues that there are two and only two forms of metaphysical emergence that make sense of the target cases: 'Weak' emergence, whereby a macro-entity or feature has a proper subset of the powers of its base-level configuration, and 'Strong' emergence, whereby a macro-entity or feature has a new power as compared to its base-level configuration. Given that the lower-level configurations are physical, Weak emergence unifies and accommodates diverse accounts of realization associated with varieties of non-reductive physicalism, whereas Strong emergence unifies and accommodates anti-physicalist views according to which there may be fundamentally novel features, forces, interactions, or laws at higher levels of compositional complexity. After defending each form of emergence from various objections, Wilson considers whether complex systems, ordinary objects, consciousness, and free will are actually either Weakly or Strongly metaphysically emergent. She argues that Weak emergence is quite common, and that Strong emergence, while in most cases at best a live empirical possibility, is instantiated for the important case of free will.
