Unlocking Creativity Michael A. Roberto, 2019-01-07 *Tear down the obstacles to creative innovation in your organization* *Unlocking Creativity* is an exploration of the creative process and how organizations can clear the way for innovation. In many organizations, creative individuals face stubborn resistance to new ideas. Managers and executives oftentimes reject innovation and unconventional approaches due to misplaced allegiance to the status quo. Questioning established practices or challenging prevailing sentiments is frequently met with stiff resistance. In this climate of stifled creativity and inflexible adherence to conventional wisdom, potentially game-changing ideas are dismissed outright. Senior leaders claim to value creativity, yet

often lack the knowledge to provide a creative framework. Unlocking Creativity offers effective methods and real-world examples of how the most successful organizations create cultures of innovation and experimentation. Best-selling author and scholar Michael Roberto presents a thorough investigation of organizational obstacles to creative thought. Highly relevant to the growth crises many enterprises face in today's economic landscape, this book examines how to break barriers to spark creativity and foster new ideas. This insightful and informative work allows business executives, senior managers, and organization leaders to: Recognize the six organizational mindsets that impede creativity and innovation Learn how to tear down the barriers that obstruct the creative process Create an environment that allows talented people to thrive Encourage creative collaboration in teams throughout an organization Leaders do not have to conceive innovative ideas, but rather open the path for curious and creative employees within their organization. Unlocking Creativity: How to Solve Any Problem and Make the Best Decisions aids organizations in removing obstacles to the creative process and helps to form an atmosphere of imagination and innovation.

Unlocking the Business Environment John Brinkman, Ilve Navarro, Donna Harper, 2014-02-25 The business environment is a fundamental subject in any Business Studies degree course. This new, student-friendly book divides the subject into the internal and external environment and, where relevant,

discusses the interface between the two. It is written with the outward-looking student in mind and, as a result, encourages readers to reflect on what they have read and to consolidate their learning through regular self-testing exercises and discussion points. The text contains highly relevant and 'household name' case studies, ensuring that it is a highly topical and engaging book. Where organisational styles differ, the authors put forward the pros and cons of different points of view, ensuring that students have the information necessary to make up their own minds and develop management strategies of their own.

Unlocking the Emotional Brain Bruce Ecker, Robin Ticic, Laurel Hulley, 2022-03-23 In *Unlocking the Emotional Brain*, authors Ecker, Ticic, and Hulley equip readers to carry out focused, empathic therapy using the potent process of memory reconsolidation, the recently discovered and only known process for actually unlocking emotional memory at the synaptic level. The Routledge classic edition includes a new preface from the authors describing the book's widespread impact on psychotherapy since its initial publication. Emotional memory's tenacity is the familiar bane of therapists, and researchers had long believed that emotional memory forms indelible learning. Reconsolidation has overturned these views. It allows new learning to truly nullify, not just suppress, the deep, intensely problematic emotional learnings that form, outside of awareness, during childhood or in later tribulations and generate most of the symptoms that bring people to therapy.

Readers will learn methods that precisely eliminate unwanted, ingrained emotional responses—whether moods, behaviors, or thought patterns—causing no loss of ordinary narrative memory, while restoring clients' well-being. Numerous case examples show the versatile use of this process in AEDP, coherence therapy, EFT, EMDR, and IPNB.

The Mind Unlocked Marc Arginteanu, M.D.,2023-11-21 A popular claim in recent years is that a person only uses 10% of their brain, and while this is not remotely true, it is accurate that the human brain contains massive untapped capabilities. Brains remain the most magnificent biological machines, and the latest neurobiological research on nutrition, sleep, music and exercise aims to help people keep theirs in top shape. The human mind is more than just electrochemical signals--it's a fountain of consciousness, transcending physicality. This work, backed by decades of experience, includes the latest neuroscience research and vignettes based on the author's actual patients. Containing mental hacks to explain how to overcome mental limitations, it explores how simple changes like breaking bad habits, having a better work-life balance, and more could help the human mind go from being just fine-tuned to being enlightened and limitless. With these hacks, a designer brain is just around the corner.

Consumer Law Unlocked Elizabeth de Stadler,2013-08-16 The recent introduction of the Consumer Protection Act revolutionised consumer rights in South Africa. It also fundamentally altered the way in which businesses are required to treat their clients, imposing a new set of obligations - or at least a formalised set of responsibilities - that had been easily circumnavigated or simply ignored before. Marketing campaigns, returns policies, terms and conditions, quality issues, and a host of business practices had to be reviewed and reappraised. Some businesses have done this, while many blithely continue as if nothing has changed, little appreciating the risks of non-compliance and - perhaps more importantly - failing to appreciate that treating consumers fairly is simply a sound business practice. This new work provides a comprehensive overview of consumer law - not just the Act - in a way that follows the typical structure of consumer transactions. It serves to guide, educate and enlighten the professional, the business person and the consumer alike. No business or professional adviser should be without it. Written by a leading specialist in the field, it is simple, clear, comprehensive, authoritative and accessible.
