**Media Ethics** Clifford G. Christians, Mark Fackler, Kathy Richardson, Peggy Kreshel, Robert H. Woods, 2015-07-17 *Media Ethics: Cases and Moral Reasoning*, Ninth Edition challenges students to think analytically about ethical situations in mass communication by using original case studies and commentaries about real-life media experiences. This market-leading text facilitates and enhances students' ethical awareness by providing a comprehensive introduction to the theoretical principles of ethical philosophies. *Media Ethics* introduces the Potter Box (which uses four dimensions of moral analysis: definitions, values, principles and loyalties) to provide a framework for exploring the important steps in moral reasoning and analyzing the cases that follow. Focusing on a wide spectrum of ethical issues facing media practitioners, the cases in this new Ninth Edition include the most recent issues in journalism, broadcasting, advertising, public relations and entertainment.

*California Design, 1930-1965 Living In a Modern Way* Wendy Kaplan, 2011 The first comprehensive examination of California's mid-century modern design, generously illustrated. In 1951, designer Greta Magnusson Grossman observed that California design was not a superimposed style, but an answer to present conditions.... It has developed out of our own preferences for living in a modern way. California design influenced the material culture of the entire country, in everything from architecture to fashion. This generously illustrated book, which accompanies a major exhibition at the Los Angeles County Museum of Art, is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European émigrés as Richard Neutra, Rudolph Schindler, and Kem Weber; it finds other specific design influences and innovations in solid-color commercial ceramics, inspirations from Mexico and Asia, new schools for design training, new concepts about leisure, and the conversion of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture). The heart of California Design is the modern California home, famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood, and Raphael Soriano, for example, were intended to blur the distinction

between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel-Green, and Architectural Pottery as well as other, previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors, lighting that was both task and ambient, bookshelves that served as room dividers, and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles, and fashion, and ten incisive essays that trace the rise of the California design aesthetic. of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture). *Affective Health and Masculinities in South Africa* Hans Reihling, 2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

**Renewables 2017** Organization for Economic Cooperation and Development, 2017-10-04 The renewable electricity market has witnessed an unprecedented acceleration in recent years, and it broke another annual deployment record in 2016. The market's main driver last year was solar photovoltaics, which is boosting the growth of renewables in power capacity around the world. As costs decline, wind and solar are becoming increasingly comparable to new-build fossil fuel alternatives in a growing number of countries. China remains the dominant player, but India is increasingly moving to the centre stage. Government policies are introducing more competition through renewable auctions, further reducing costs. The IEA's newly renamed *Renewables 2017* (formerly titled *Medium-Term Renewables Market Report*) provides a detailed market analysis and overview of renewable electricity capacity and generation, biofuels production, and heat consumption, as well as a forecast for the period between 2017 and 2022. This year's report also provides additional analysis on the contribution of electric vehicles to renewable road transport and on the off-grid solar market in Africa and developing Asia. Finally, the report identifies a set of policy improvements in key markets that could accelerate the growth of renewables in the electricity sector as well as the growth of transport biofuels for the first time. These are needed to accelerate decarbonisation in all sectors in order to be on track to meet long-term climate goals.

*Antoine of Oregon : A Story of the Oregon Trail* James Otis, 1912 *Antoine of Oregon : A Story of the Oregon Trail* The author of this series of stories for children has endeavored simply to show why and how the descendants of the early colonists fought their way through the wilderness in search of new homes. The several narratives deal with the struggles of those adventurous people who forced their way westward, ever westward, whether in hope of gain or in answer to the call of the wild, and who, in so doing, wrote their names with their blood across this country of ours from the Ohio to the Columbia. To excite in the hearts of the young people of this land a desire to know more regarding the building up of this great nation, and at the same time to entertain in such a manner as may stimulate to noble deeds, is the real aim of these stories. In them there is nothing of romance, but only a careful, truthful record of the part played by children in the great battles with those forces, human as well as natural, which, for so long a time, held a vast 4 portion of this broad land against the advance of home seekers. With the knowledge of what has been done by our own people in our own land, surely there is no reason why one should resort to fiction in order to depict scenes of

heroism, daring, and sublime disregard of suffering in nearly every form.

Handbook of Research on Sustainable Development Goals, Climate Change, and Digitalization Castanho, Rui Alexandre,2021-11-12 In recent years, the world has been changing considerably. Within the many obstacles, barriers, and opportunities, three significant challenges should be considered for the future planning of our territories and cities: seeking to achieve Sustainable Development Goals (SDG), facing climate change, and performing a shift towards digitalization. Considering these three challenges, we can work toward a more sustainable future for the environment. The Handbook of Research on Sustainable Development Goals, Climate Change, and Digitalization elaborates on sustainability issues in the planning and development field regarding the environment. This text promotes understanding about the dynamics, challenges, and opportunities for the new decade regarding our common future planning. Covering topics such as circular economy, economic-ecological principles, and sustainable resilience, this book is essential for academicians, researchers, policymakers, environmentalists, scientists, technicians, decision makers, practitioners, and students.

*Tippi* Tippi Hedren,2016-11-01 In this absorbing and surprising memoir, one of the biggest names of classic Hollywood—the star of Alfred Hitchcock’s *The Birds* and *Marnie*—tells her story, including never-before-revealed experiences on the set of some of the biggest cult films of all time . . . now with a foreword by Melanie Griffith For decades, Tippi Hedren’s luminous beauty radiated from the silver screen, enchanting moviegoers and cementing her position among Hollywood’s elite—beauty and star power that continue to endure. For too long Hedren’s story has been told by others through whispered gossip and tabloid headlines. Now, Hedren sets the record straight, recalling how a young and virtuous Lutheran girl from small-town Minnesota became a worldwide legend—as one of the most famous Hitchcock girls, as an unwavering animal activist, and as the matriarch of a powerful Hollywood dynasty that includes her movie star daughter Melanie Griffith, and rising star Dakota Johnson, her granddaughter. For the first time, Hedren digs deep into her complicated relationship with the man who discovered her talent, director Alfred Hitchcock, the benefactor who would become a repulsive and controlling director who contractually controlled her every move. She speaks openly about the dark pain she endured working with him on their most famous collaborations, *The Birds* and *Marnie*, and finding the courage she needed to break away. Hedren’s incandescent spirit shines through as she talks about working with the great Charlie Chaplin, sharing the screen with some of the most esteemed actors in Hollywood, her experiences on some of the most intriguing and troubling film sets—including filming *Roar*, one of the most dangerous movies ever made—and the struggles of being a single mother—balancing her dedication to her work and her devotion to her daughter—and her commitment to helping animals. Filled with sixteen pages of beautiful photos, *Tippi* is a rare and fascinating look at a private woman’s remarkable life no celebrity aficionado can miss.
