The Trekker's Guide to Voyager Hal Schuster,1996 In 1995, almost 30 years after the premier of the original Star Trek(R), Paramount Pictures aired a new Star Trek series. Star Trek: Voyager(R) was the flagship of its new network, UPN, and the first Star Trek created without the input and guidance of the franchise's creator, Gene Roddenberry. In The Trekker's Guide to Voyager, you'll learn what goes on both behind and in front of the camera in the words of the people closest to the events. Nowhere else will you find detailed biographies of the actors and production crew, complete character profiles, and in-depth specs on every alien in the Delta Quadrant. Learn exactly why Genevieve Bujold quit the role of Captain Janeway just 2 days after she began work on the show. Discover why Voyager is the fourth series (including Generations) in which Tim Russ appears. And just how far away is the Delta Quadrant, anyway? It's all here--and nowhere else. Plus, The Trekker's Guide to Voyager features a special guide to the first two seasons of the show, along with a discussion of the oversights, inaccuracies, and outright blunders that mysteriously appear from time to time. Everything from confused camera angles to disappearing shoes to plot holes through which you could pilot a starship is covered in this comprehensive guide. Totally uncensored, utterly fascinating, and intricately detailed, this book is the ultimate guide to Star Trek: Voyager®. About the Author Hal Schuster is the author of numerous unauthorized Star Trek books and the former editor and publisher of Enterprise Incidents and Comics Feature magazines. He lives in Berkeley, California, and Bangkok, Thailand. This book was not approved, prepared, licensed, or endorsed by any entity involved in creating or producing the Star Trek television series or films.

How to Forget Kate Mulgrew,2019-05-21 "This is a masterfully crafted memoir, an elegant tour de force that firmly establishes Mulgrew as a writer of significant literary endowment. The soulmate to Frank McCourt's *Angela's Ashes*, *How to Forget*, despite the promise of its title, cannot be forgotten or ignored." –Augusten Burroughs,

author of *Running with Scissors* and *Toil & Trouble* In this profoundly honest and examined memoir about returning to Iowa to care for her ailing parents, the star of *Orange Is the New Black* and bestselling author of *Born with Teeth* takes us on an unexpected journey of loss, betrayal, and the transcendent nature of a daughter's love for her parents. They say you can't go home again. But when her father is diagnosed with aggressive lung cancer and her mother with atypical Alzheimer's, New York-based actress Kate Mulgrew returns to her hometown in Iowa to spend time with her parents and care for them in the time they have left. The months Kate spends with her parents in Dubuque—by turns turbulent, tragic, and joyful—lead her to reflect on each of their lives and how they shaped her own. Those ruminations are transformed when, in the wake of their deaths, Kate uncovers long-kept secrets that challenge her understanding of the unconventional Irish Catholic household in which she was raised. Breathtaking and powerful, laced with the author's irreverent wit, *How to Forget* is a considered portrait of a mother and a father, an emotionally powerful memoir that demonstrates how love fuses children and parents, and an honest examination of family, memory, and indelible loss.

The Longest Trek Grace Lee Whitney, Jim Denney, 1998 She opened for jazz great Billie Holiday, shared the set with Marilyn Monroe, and flirted on-screen with Jack Lemmon. In her dream role, Gene Roddenberry beamed her aboard the *Starship Enterprise* as Yeoman Janice Rand in the original *Star Trek* series. But a terrifying sexual assault on the studio lot and her lifelong feelings of emptiness and isolation would soon combine to turn her starry dream into a nightmare.

The IDIC Epidemic Jean Lorrah,2000-09-22 I.D.I.C.–Infinite Diversity in Infinite Combination. More than just a simple credo, for those of the planet Vulcan it is the cornerstone of their philosophy. On the Vulcan Science Colony Nisus, that credo of tolerance, known as I.D.I.C. (Infinite Diversity in Infinite Combination) is being being put to its sternest test. For here, on a planet where Vulcan, human, Klingon, and countless other races live and work side by side, a deadly plague whose origins has sprung up. A plague whose origins are somehow rooted in the concept of I.D.I.C. itself. A plague that threatens to tear down that centuries-old maxim and replace it with an even older concept: Intersellar War.

Born with Teeth Kate Mulgrew,2015-04-14 Raised by unconventional Irish Catholics who knew how to drink, how to dance, how to talk, and how to stir up the devil, Kate Mulgrew grew up with poetry and drama in her bones. But in her mother, a would-be artist burdened by the endless arrival of new babies, young Kate saw the consequences of a dream deferred. Determined to pursue her own no matter the cost, at 18 she left her small Midwestern town for New York, where, studying with the legendary Stella Adler, she learned the lesson that would define her as an actress: Use it, Adler told her. Whatever disappointment, pain, or anger life throws in your path, channel it into the work. It was a lesson she would need. At twenty-two, just as her career was taking off, she became pregnant and gave birth to a daughter. Having already signed the adoption papers, she was allowed only a fleeting glimpse of her child. As her star continued to rise, her life became increasingly demanding and fulfilling, a whirlwind of passionate love affairs, life-saving friendships, and bone-crunching work. Through it all, Mulgrew remained haunted by the loss of her daughter, until, two decades later, she found the courage to face the past and step into the most challenging role of her life, both on and off screen. We know Kate Mulgrew for the strong women she's played -- Captain Janeway on Star Trek ; the tough-as-nails Red on Orange is the New Black. Now, we meet the most inspiring and memorable character of all: herself. By turns irreverent and soulful, laugh-out-loud funny and heart-piercingly sad, *Born with Teeth* is the breathtaking memoir of a woman who dares to live life to the fullest, on her own terms.

Vulcan's Glory D.C. Fontana,2006-08-01 This New York Times bestselling novel by one of the writer/producers on the original classic Star Trek explores a young Spock grappling with the opposing desires that clash during a dangerous, deadly mission. Years before he came to be known as the best first officer in the fleet, Spock was a conflicted young ensign, serving on the Starship Enterprise™ under Captain Christopher Pike. Struggling to reconcile his many obligations—those forced on him by his Vulcan heritage, and those chosen by him upon his enrollment in Starfleet Academy—Spock must also balance the desires of his own heart. Those conflicting demands intersect during a mission to retrieve one of his world's most sacred artifacts, a relic of Vulcan's ancient past—the search for which will reveal dark and deadly secrets, forever altering the course of Spock's life and defining the man he became. A classic tale from D.C. Fontana, one of Star Trek®'s original producers and the writer of such classic episodes as *Journey to Babel* and *This Side of Paradise*.

Architects of Infinity Kirsten Beyer, 2018-03-27 An original novel set in the universe of Star Trek: Voyager, from the New York Times bestselling author! As the Federation Starship Voyager continues to lead the Full Circle Fleet in its exploration of the Delta Quadrant, Admiral Kathryn Janeway remains concerned about the Krenim Imperium and its ability to rewrite time to suit its whims. At Captain Chakotay's suggestion, however, she orders the fleet to focus its attention on a unique planet in a binary system, where a new element has been discovered. Several biospheres exist on this otherwise uninhabitable world, each containing different atmospheres and features that argue other sentient beings once resided on the surface. Janeway hopes that digging into an old-fashioned scientific mystery will lift the crews' morale, but she soon realizes that the secrets buried on this world may be part of a much larger puzzle—one that points to the existence of a species whose power to reshape the galaxy might dwarf that of the Krenim. Meanwhile, Lieutenants Nancy Conlon and Harry Kim continue to struggle with the choices related to Conlon's degenerative condition. Full Circle's medical staff discovers a potential solution, but complications will force a fellow officer to confront her people's troubled past and her own future in ways she never imagined...™, ®, & © 2018 CBS Studios, Inc.
