**Ten Caesars** Barry Strauss, 2020-03-03 Bestselling classical historian Barry Strauss delivers “an exceptionally accessible history of the Roman Empire...much of *Ten Caesars* reads like a script for *Game of Thrones*” (The Wall Street Journal)—a summation of three and a half centuries of the Roman Empire as seen through the lives of ten of the most important emperors, from Augustus to

Constantine. In this essential and “enlightening” (The New York Times Book Review) work, Barry Strauss tells the story of the Roman Empire from rise to reinvention, from Augustus, who founded the empire, to Constantine, who made it Christian and moved the capital east to Constantinople. During these centuries Rome gained in splendor and territory, then lost both. By the fourth century, the time of Constantine, the Roman Empire had changed so dramatically in geography, ethnicity, religion, and culture that it would have been virtually unrecognizable to Augustus. Rome’s legacy remains today in so many ways, from language, law, and architecture to the seat of the Roman Catholic Church. Strauss examines this enduring heritage through the lives of the men who shaped it: Augustus, Tiberius, Nero, Vespasian, Trajan, Hadrian, Marcus Aurelius, Septimius Severus, Diocletian, and Constantine. Over the ages, they learned to maintain the family business—the government of an empire—by adapting when necessary and always persevering no matter the cost. *Ten Caesars* is a “captivating narrative that breathes new life into a host of transformative figures” (Publishers Weekly). This “superb summation of four centuries of Roman history, a masterpiece of compression, confirms Barry Strauss as the foremost academic classicist writing for the general reader today” (The Wall Street Journal).

*Organised Retailing and Agri-Business* N.

Chandrasekhara Rao, R. Radhakrishna, Ram Kumar Mishra, Venkata Reddy Kata, 2015-10-07 This book examines the performance of organized retail chains supplying the agri-input and output services in terms of achieving their objective of utilising collective bargaining power in the marketing of their agricultural produce, integrating empirical experience from India and other selected developing countries. The scenario of marketing for agricultural products has been undergoing rapid changes with the rise of organised retailing (the Indian term for 'supermarkets'), a process that is likely to accelerate in years to come, with India being on the threshold of a supermarket revolution. In fact, India is referred to as the 'final frontier' in the development of supermarkets. The growth of supermarkets in India is faster than that in China, which is also witnessing an exponential growth as part of the "third wave" of supermarket diffusion. The book investigates the links between organised retailing and farmers and farming in India. Apart from raising issues of equity, inclusion and problems in policy framework, it also discusses policy interventions that are

essential in order to make the development of organised retailing more inclusive and beneficial to the farming community and agricultural sector. The book further serves as a guide for policy makers, helping them to select the right kind of interventions to balance growth with equity as market forces penetrate deeper into the agricultural marketing space.
