16 Strategies for Sales Sean Moudry,2019-11-16 16 Strategies for Sales will help you understand your own innate preferences, identify sales strategies best suited for your natural abilities and provide you tools to work with other personality types. Many companies spend hundreds of thousands of dollars on assessments to find the magic personality combination for building a successful sales team. In my experience, there are hundreds, if not thousands, of ways to achieve this goal. Most companies focus on a narrow personality type that has been blessed with a natural gift for sales. But, we can all agree that some personalities are more likely to be successful at typical sales strategies. You will see throughout this book how personalities that are not naturally sales-oriented can also achieve success in sales. The key is not to find the rare diamond in the coal, but to find the best way to turn the coal into diamonds. If you are unhappy with what you are doing, or even the business you've created, consider the possibility that you are simply operating outside of your innate preferences. Imagine if there was a strategy you could apply, one in which you worked in alignment with your natural abilities, to achieve your desired success. Our solution was to create our own assessment based on the Myers-Briggs Type Indicator and to develop simple descriptions of each personality type to help you decide what sales strategy might be the most natural for your own innate preferences. The Myers-Briggs Type Indicator has sixteen psychological types, therefore, we developed our own 16 Strategies for Sales, offering a sales strategy for each personality type.We believe the key to individual success is to become aware of our own innate preferences and how they affect our life, happiness and accomplishments. This book is a tool to help you become more aware of yourself and others. When we understand this about ourselves and the people around us, we become influential and will be happier and achieve more success.

Life with Picasso Françoise Gilot,Carlton Lake,2019-06-11 Françoise Gilot's candid memoir remains the most revealing portrait of Picasso written, and gives fascinating insight into the intense and creative life shared by two modern artists. Françoise Gilot was in her early twenties when she met the sixty-one-year-old Pablo Picasso in 1943. Brought up in a well-to-do upper-middle-class family, who had sent her to Cambridge and the Sorbonne and hoped that she would go into law, the young woman defied their wishes and set her sights on being an artist. Her introduction to Picasso led to a friendship, a love affair, and a relationship of ten years, during which Gilot gave birth to Picasso’s two children, Paloma and Claude. Gilot was one of Picasso’s muses; she was also very much her own woman, determined to make herself into the remarkable painter she did indeed become. Life with Picasso, written with Carlton Lake and published in 1961, is about Picasso the artist and Picasso the man. We hear him talking about painting and sculpture, his life, his career, as well as other artists, both contemporaries and old masters. We glimpse Picasso in his many and volatile moods, dismissing his work, exultant over his work, entertaining his various superstitions, being an anxious father. But Life with Picasso is not only a portrait of a great artist at the height of his fame; it is also a picture of a talented young woman of exacting intelligence at the outset of her own notable career.
