**Windows 10** David Pogue,2018-07-15 Microsoft's last Windows version, the April 2018 Update, is a glorious Santa sack full of new features and refinements. What's still not included, though, is a single page of printed instructions. Fortunately, David Pogue is back to help you make sense of it all--with humor, authority, and 500 illustrations.--Page 4 of cover.

**NGO Accountability** Lisa Jordan,Peter van Tuijl,2012-05-04 As the fastest growing segment of civil society, as well as featuring prominently in the global political arena, NGOs are under fire for being 'unaccountable'. But who do NGOs actually represent? Who should they be accountable to and how? This book provides the first comprehensive examination of the issues and politics of NGO accountability across all sectors and internationally. It offers an assessment of the key technical tools available including legal accountability, certification and donor-based accountability regimes, and questions whether these are appropriate and viable options or attempts to 'roll-back' NGOs to a more one-dimensional function as organizers of national and global charity. Input and case studies are provided from NGOs such as ActionAid, and from every part of the globe including China, Indonesia and Uganda. In the spirit of moving towards greater accountability the book looks in detail at innovations that have developed from within NGOs and offers new approaches and flexible frameworks that enable accountability to become a reality for all parties worldwide.

**Metric Power** David Beer,2016-07-30 This book examines the powerful and intensifying role that metrics play in ordering and shaping our everyday lives. Focusing upon the interconnections between measurement, circulation and possibility, the author explores the interwoven relations between power and metrics. He draws upon a wide-range of interdisciplinary resources to place these metrics within their broader historical, political and social contexts. More specifically, he illuminates the various ways that metrics implicate our lives – from our work, to our consumption and our leisure, through to our bodily routines and the financial and organisational structures that surround us. Unravelling the power dynamics that underpin and reside within the so-called big data revolution, he develops the central concept of Metric Power along with a set of conceptual resources for thinking critically about the powerful role played by metrics in the social world today.

**Sir Percy Leads the Band** Emmuska Orczy,2021-11-09 Sir Percy Leads the Band by Emmuska Orczy is a riveting tale set against the backdrop of France's tumultuous history. The narrative follows the enigmatic Sir Percy Blakeney, a fictitious character, as he navigates the challenges and intrigues of a nation in turmoil. Orczy's masterful storytelling and deep understanding of historical events make this novel a must-read for fans of historical fiction and those intrigued by the complexities of human nature.

**Communicating Protected Areas** Denise Hamú,Elisabeth Auchincloss,Wendy Goldstein,2004 Protected areas operate within complex ecological and social systems, presenting challenges that cannot be resolved by technical solution alone. Achieving the management objectives of protected areas requires a social approach in which strategic communication is a key instrument. This publication explores the often underestimated potential of communication, sharing valuable experiences from protected areas across the world, drawing on papers presented at the Vth IUCN World Parks Congress, 2003 and others.

**Bank 2.0** Brett King,2010 The financial crisis is just beginning for retail institutions. Ninety to ninety-five per cent of bank transactions are executed electronically today. The Internet, ATMs, call centres and smartphones have become mainstream for

customers. But banks still classify these as alternative channels and maintain an organisation structure where Branch dominates thinking. Continued technology innovations, Web 2.0, social networking, app phones and mobility are also stretching traditional banking models to the limit. BANK 2.0 reveals why customer behaviour is so rapidly changing, how branches will evolve, why cheques are disappearing, and why your mobile phone will replace your wallet all within the next 10 years.
