Freaks, Gleeks, and Dawson's Creek Thea Glassman,2023-06-27 The untold stories of seven revolutionary teen shows (The Fresh Prince of Bel-Air, My So-Called Life, Dawson's Creek, Freaks and Geeks, The O.C., Friday Night Lights, and Glee) that shaped the course of modern television and our pop cultural landscape forever. The modern television landscape is defined by influential and ambitious shows for and about teenagers. Groundbreaking series like Euphoria, Sex Education, and Pen15 dominate awards season and lead the way when it comes to progressive, diverse, and creative storytelling. So how did we get here from Beverly Hills, 90210? In Freaks, Gleeks, and Dawson's Creek, entertainment journalist Thea Glassman takes readers behind the scenes of seven of the most culturally significant series of the last three decades, drawing on dozens of new interviews with showrunners, cast, crewmembers, and more. These shows not only launched the careers of such superstars as Will Smith, Michael B. Jordan, Claire Danes, and Seth Rogen, but they also took young people seriously, proving that teen TV could be smart, revolutionary, and "important"—and stay firmly entrenched in pop culture long after it finished airing. And while many critics insist that prestige dramas like The Sopranos and Mad Men paved the way for television, some of the most groundbreaking work was actually happening inside the fictional hallways of high schools across America in teen shows whose impact remains visible on our screens today.

Offering critical analysis of moments and themes throughout television history, Race in American Television shines a spotlight on key artists of color, prominent shows, and the debates that have defined television since the civil rights movement. This set provides a significant resource for students and fans of television alike, not only educating but also empowering readers with the necessary tools to consume and watch the small screen and explore its impact on the evolution of racial and ethnic stereotypes in U.S. culture and beyond. Big Billion Startup: The Untold Flipkart Story Mihir Dalal,2019-10-06 The definitive account of India's biggest startup that redefined e-commerce, entrepreneurship and the way we shop and live. IIT graduates Sachin Bansal and Binny Bansal founded out of a Bangalore apartment what would become India's biggest e-commerce startup. Established in October 2007, Flipkart began as an online bookstore and soon came to be known for its 'customer obsession'. As the startup's reputation grew, so did its value, with venture capitalists in India and abroad lining up to invest heavily in the company that stood for bold ambition, unabashed consumerism and the virtues of technology. Investigative journalist Mihir Dalal recounts the astounding story of how the Bansals built Flipkart into a multi-billion-dollar powerhouse in the span of a few years and made internet entrepreneurship a desirable occupation. But it is also a story of big money, power and hubris, as both business and interpersonal complexities weakened the founders' control over their creation and forced them to sell out to a retailer whose dominance they had once dreamt of emulating. Flipkart's auction involved some of the corporate world's biggest names, from Jeff Bezos, Satya Nadella, Sundar Pichai to Masayoshi Son and Doug McMillon, an ironic testimony to the strength of what the Bansals had forged. Based on extraordinary research, extensive interviews and deep access to key characters in the Flipkart story, Big Billion Startup is the riveting and revealing account of how Sachin and Binny Bansal built and sold India's largest internet company.

Internal Conflicts in Nepal V R Raghavan,2011-07-07 Neglect of socio- economic needs, inequality and injustice in Nepali society attributed to the genesis of the Maoist insurgency in Nepal. In early 1990, a mass upsurge Jana Andolan paved way for multi party of governance in Nepal. The opening up of the polity increased the awareness of inequality which helped Maoist insurgency to grow dramatically. However, in November 2005, a Comprehensive Peace Agreement was reached between the Communist Party of Nepal (CPN-UML) and other main stream political parties. Monarchy was abolished. Election to the Constituent Assembly was held and a coalition government was been put in place. Inadequate steps to address the ethnic, economic and political aspirations of multi- ethnic groups have caused further unrest and created conditions for newer conflicts. Nepal shares border with India particularly with Bihar and Uttar Pradesh, there is free movement across the borders. This facilitates movement of mafia groups, drug trafficking and political activities. Control of cross border activities remains difficult and led to serious cross border implications.

Access Contested Ronald Deibert,John Palfrey,Rafal Rohozinski,Jonathan Zittrain,2011-09-30 Experts examine censorship, surveillance, and resistance across Asia, from China and India to Malaysia and the Philippines. A daily battle for rights and freedoms in cyberspace is being waged in Asia. At the epicenter of this contest is China—home to the world's largest Internet population and what is perhaps the world's most advanced Internet censorship and surveillance regime in cyberspace. Resistance to China's Internet controls comes from both grassroots activists and corporate giants such as Google. Meanwhile, similar struggles play out across the rest of the region, from India and Singapore to Thailand and Burma, although each national dynamic is unique. Access Contested, the third volume from the OpenNet Initiative (a collaborative partnership of the Citizen Lab at the University of Toronto's Munk School of Global Affairs, the Berkman Center for Internet and Society at Harvard University, and the SecDev Group in Ottawa), examines the interplay of national security, social and ethnic identity, and resistance in Asian cyberspace, offering in-depth accounts of national struggles against Internet controls as well as updated country reports by ONI researchers. The contributors examine such topics as Internet censorship in Thailand, the Malaysian blogosphere, surveillance and censorship around gender and sexuality in Malaysia, Internet governance in China, corporate social responsibility and freedom of expression in South Korea and India, cyber attacks on independent Burmese media, and distributed-denial-of-service attacks and other digital control measures across Asia.
