SAMUEL MOSSMAN, THOMAS BANISTER

📖 ***The Alcohol Textbook*** K. A. Jacques, T. P. Lyons, D. R. Kelsall, 2003

📖 ***The Formations of Modernity*** Bram Gieben, Stuart Hall, 1993-01-04 Formations of Modernity is a major introductory textbook offering an account of the important historical processes, institutions and ideas that have shaped the development of modern societies. This challenging and innovative book ‘maps’ the evolution of those distinctive forms of political, economic, social and cultural life which characterize modern societies, from their origins in early modern Europe to the nineteenth century. It examines the roots of modern knowledge and the birth of the social sciences in the Enlightenment, and analyses the impact on the emerging identity of ‘the West’ of its encounters through exploration, trade, conquest and colonization, with ‘other civilizations’. Designed as an introduction to modern societies and modern sociological analyses, this book is of value to students on a wide variety of social science courses in universities and colleges and also to readers with no prior knowledge of sociology. Selected readings from a broad range of classical writers (Weber, Durkheim, Marx, Freud, Adam Smith, Montesquieu, Hobbes, Locke, Rousseau) and contemporary thinkers (Michael Mann, E.P. Thompson, Edward Said) are integrated in each chapter, together with student questions and exercises.

📖 ***Noncommunicable Diseases in Saudi Arabia*** Ada AlQunaibet, Christopher H. Herbst, Sameh El-Saharty, Abdullah AlGwizani, 2021-12-06 Saudi Arabia is at an early stage of its demographic transition to an older population, and so it has an opportunity to prepare early for a rising noncommunicable disease (NCD) epidemic. NCDs, such as cancers, cardiovascular diseases, diabetes, and chronic respiratory diseases and their associated behavioral risk factors—tobacco use, unhealthy diet, and physical inactivity—are an increasing economic and public health challenge. An aging population is expected to significantly increase the prevalence of NCDs and the related demand for costlier health care services. Interventions and reforms to prevent NCDs, and to minimize current and future treatment costs, are needed now, particularly if Saudi Arabia is to achieve the Vision 2030 goal of increasing life expectancy from 75 years in 2021 to 80 years in 2030. To support strategic planning efforts, *Noncommunicable Diseases in Saudi Arabia: Toward Effective Interventions for Prevention* assesses the latest evidence on the prevalence and risk factors; explores the health and economic burden of NCDs, as well as their impact on human capital; and identifies key gaps in prevention efforts and ways to address these gaps. The book discusses the need for a national master plan for NCD prevention—one that is selective and targeted, with a particular focus on improving the implementation of cost-effective interventions and achieving results. To be successful, the national master plan will need to take into account the roles of the different stakeholders and their likely responsibilities in implementation. The book will be of interest to all those who work on NCDs in Saudi Arabia and beyond.

📖 ***The Racer*** David Millar, 2015-10-01 What is it really like to be a racer? What is it like to be swept along at 60kmh in the middle of the pack? What happens to the body during a high-speed chute? What tactics must teams employ to win the day, the jersey, the grand tour? What sacrifices must a cyclist make to reach the highest levels? What is it like on the bus? In the hotels? What camaraderie is built in the confines of a team? What rivalries? How does it feel to be constantly on the road, away from loved ones, tasting one more calorie-counted hotel breakfast? David Millar offers us a unique insight into the mind of a professional cyclist during his last year before retirement. Over the course of a season on the World Tour, Millar puts us in touch with the sights, smells and sounds of the sport. This is a book about youth and age, fresh-faced excitement and hard-earned experience. It is a love letter to cycling. ‘Cycling has always been about a great deal more than its winners, and The Racer is quite a ride’ Spectator

📖 ***Chosen Fool (Forever Evermore, #5)*** Scarlett Dawn, 2016-02-01 The second saga in the Forever Evermore series continues with Chosen Fool, where deception runs deep and Caro’s transitioning life turns even more deadly... Caroline Jules has received news of a lifetime. She’s going to be queen to ‘her’ people. Instead of running, as any sane criminal would, she faces the m[?] l[?] e with all the wits and savvy that her difficult life has honed. With her best friend, Sin, at her side, Caro pushes past the animosity her power inevitably brings, and prepares to rewrite her future. Until the night Sin leaves, and she is alone. Now, Caro must face the royal world and all its intrigues and intricacies by herself. People aren’t always as they appear—and danger lurks behind even the most pleasant face. When a threat not even the Elders can handle puts her new tribe in danger, Caro takes matters into her own hands. Armed with the power of the mysterious spirit elementals, Caro’s determined to eliminate the evil ransacking the mysticals. All she needs is time. But time waits for no fool...and time isn’t as straightforward as it seems.

📖 ***Gospel Conversations*** Robert W. Kellemen, 2015-09-01 How does a person learn to counsel others with the truth of God’s Word? Bob Kellemen believes that the best way to learn counseling is by doing it—by giving and receiving biblical counseling in the context of real, raw Christian community. *Gospel Conversations* explores the four compass-points of biblical counseling: Sustaining: “It’s normal to hurt.” Healing: “It’s possible to hope.” Reconciling: “It’s horrible to sin, but wonderful to be forgiven.” Guiding: “It’s supernatural to mature.” These four compass points combine to equip readers to develop twenty-two ministry relational competencies—the “how to” of caring like Christ. This book serves as a practical training manual that can be used for lab and small group interaction. *Gospel Conversations* is the second volume in *The Equipping Biblical Counselors Series*, a comprehensive relational training curriculum for the local church that provides a model for equipping God’s people to change lives with Christ’s changeless truth. This two-volume series weaves together comprehensive biblical insight with compassionate Christian engagement.

📖 ***Task Design in Mathematics Education*** Anne Watson, Minoru Ohtani, 2015-10-26 *THIS BOOK IS AVAILABLE AS OPEN ACCESS BOOK ON SPRINGERLINK* This open access book is the product of ICMI Study 22 Task Design in Mathematics Education. The study offers a state-of-the-art summary of relevant research and goes beyond that to develop new insights and new areas of knowledge and study about task design. The authors represent a wide range of countries and cultures and are leading researchers, teachers and designers. In particular, the authors develop explicit understandings of the opportunities and difficulties involved in designing and implementing tasks and of the interfaces between the teaching, researching and designing roles – recognising that these might be undertaken by the same person or by completely separate teams. Tasks generate the activity through which learners meet mathematical concepts, ideas, strategies and learn to use and develop mathematical thinking and modes of enquiry. Teaching includes the selection, modification, design, sequencing, installation, observation and evaluation of tasks. The book illustrates how task design is core to effective teaching, whether the task is a complex, extended, investigation or a small part of a lesson; whether it is part of a curriculum system, such as a textbook, or promotes free standing activity; whether the task comes from published source or is devised by the teacher or the student.

📖 ***The Browning Version*** Terence Rattigan, 1994 Rattigan’s well-loved play about an unpopular schoolmaster who snatches a last shred of dignity from the collapse of his career and his marriage. Twice filmed (with Michael Redgrave and Albert Finney) and frequently revived. Andrew Crocker-Harris’ wife Millie has become embittered and fatigued by her husband’s lack of passion and ambition. On the verge of retirement, and divorce, Andrew is forced to come to terms with the platitude his life has become. Then John Taplow, a previously unnoticed pupil, gives Andrew an unexpected parting gift: a second-hand copy of Robert Browning’s translation of Agamemnon – a gift which offers not only a opportunity for redemption, but the chance to gain back some dignity. This volume also contains Harlequinade, a farce about a touring theatre troupe, written to accompany *The Browning Version* in a double-bill under the joint title, Playbill. ‘Few dramatists of this century have written with more understanding of the human heart than Terence Rattigan’ Michael Billington This edition includes an authoritative introduction, biographical sketch and chronology.

📖 ***The Encyclopaedia Britannica*** Hugh Chisholm, 1911

📖 ***Mining and Communities in Northern Canada*** Arn Keeling, John Sandlos, 2015 This collection examines historical and contemporary social, economic, and environmental impacts of mining on Aboriginal communities in northern Canada. Combining oral history research with intensive archival study, this work juxtaposes the perspectives of government and industry with the perspectives of local communities.

📖 ***Shakespeare’s England*** Charles Talbot Onions, 1926

📖 ***A History of Numerical Analysis from the 16th through the 19th Century*** H. H. Goldstine, 2012-12-06 In this book I have attempted to trace the development of numerical analysis during the period in which the foundations of the modern theory were being laid. To do this I have had to exercise a certain amount of selectivity in choosing and in rejecting both authors and papers. I have rather arbitrarily chosen, in the main, the most famous mathematicians of the period in question and have concentrated on their major works in numerical analysis at the expense, perhaps, of other lesser known but capable analysts. This selectivity results from the need to choose from a large body of literature, and from my feeling that almost by definition the great masters of mathematics were the ones responsible for the most significant accomplishments. In any event I must accept full responsibility for the choices. I would particularly like to acknowledge my thanks to Professor Otto Neugebauer for his help and inspiration in the preparation of this book. This consisted of many friendly discussions that I will always value. I should also like to express my deep appreciation to the International Business Machines Corporation of which I have the honor of being a fellow and in particular to Dr. Ralph E. Gomory, its Vice-President for Research, for permitting me to undertake the writing of this book and for helping make it possible by his continuing encouragement and support.

📖 ***Black Swan Green*** David Mitchell, 2007-02-27 By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize Selected by Time as one of the Ten Best Books of the Year | A New York Times Notable Book | Named one of the Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying cold war England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys’ games on a frozen lake; of “nightcreeping” through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de Crommelynck, an elderly bohemian emigr[?] who is both more and less than she appears; of Jason’s search to replace his dead grandfather’s irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher’s recession; of gypsies

CAMPING IN THE WOODS AND THE HYSTERIA THEY INSPIRE; AND, EVEN CLOSER TO HOME, OF A SLOW-MOTION DIVORCE IN FOUR SEASONS. POINTED, FUNNY, PROFOUND, LEFT-FIELD, ELEGIAC, AND PAINTED WITH THE STUFF OF LIFE, BLACK SWAN GREEN IS DAVID MITCHELL’S SUBTLEST AND MOST EFFECTIVE ACHIEVEMENT TO DATE. PRAISE FOR BLACK SWAN GREEN “[DAVID MITCHELL HAS CREATED] ONE OF THE MOST ENDEARING, SMART, AND FUNNY YOUNG NARRATORS EVER TO RISE UP FROM THE PAGES OF A NOVEL. . . . THE ALWAYS FRESH AND BRILLIANT WRITING WILL CARRY READERS BACK TO THEIR OWN CHILDHOODS. . . . THIS ENCHANTING NOVEL MAKES US REMEMBER EXACTLY WHAT IT WAS LIKE.”—THE BOSTON GLOBE “[DAVID MITCHELL IS A] PRODIGIOUSLY DARING AND IMAGINATIVE YOUNG WRITER. . . . ✎ **Late Effects of Childhood Cancer** Daniel Green,Hamish Wallace,2003-12-26 The treatment of childhood cancer has become increasingly successful over the last forty years, and during the last two decades in particular, and the overall cure rate is now 60-70%. This, in turn, has introduced new issues for the clinician as the number of long-term survivors has increased. Some of the therapies that have contributed most to the improvement in survival are now known to have serious consequences for the patient in later life, and many survivors will be affected by physical, educational and psychological disability to a lesser or greater degree. This definitive reference brings together all aspects of long-term effects of treatment for cancer during childhood in a single comprehensive volume. International in perspective, the book is structured according to complication rather than original site of malignancy for ease of reference. Topics covered include problems in the neurological system and special senses of sight and sound, cardiovascular, respiratory, gastrointestinal, urological and musculoskeletal complications, effects on the endocrine system and, in particular, future fertility, and secondary cancers. The book also reviews in detail the important issues of quality of life, prevention initiatives and strategies for long-term follow up. Key point summaries are included throughout, and the references are annotated to guide the reader quickly to seminal primary papers and key review articles. With an accessible and consistent approach throughout, Late Effects of Childhood Cancer is an invaluable source of information and guidance for pediatric oncologists, who need to keep fully informed in order to advise patients and their parents appropriately, and also for pediatric and adult endocrinologists, adult oncologists and other physicians to whom the patient with late effects may initially present.
