Autonomia, New Edition Sylvere Lotringer,Christian Marazzi,2007-11-21 Edited by Sylvere Lotringer and Christian Marazzi with the direct participation of the main leaders and theorists of the Autonomist movement (including Antonio Negri, Mario Tronti, Franco Piperno, Oreste Scalzone, Paolo Virno, Sergio Bologna, and Franco Berardi), this volume is the only first-hand document and contemporaneous analysis that exists of the most innovative post-'68 radical movement in the West. The movement itself was broken when Autonomia members were falsely accused of (and prosecuted for) being the intellectual masterminds of the Red Brigades; but even after the end of Autonomia, this book remains a crucial testimony of the way this creative, futuristic, neo-anarchistic, postideological, and nonrepresentative political movement of young workers and intellectuals anticipated issues that are now confronting us in the wake of Empire.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

A Perfect Planet Huw Cordey, 2020-11-26 There is no place like home. The conditions of Earth are not just good for life, they are perfect. Everything about our planet - its size, its distance from the Sun, its spin and tilt, its moon - is perfectly suited to our existence, and our planet's forces serve to nurture its spectacular biodiversity. A Perfect Planet shows in stunning detail how Earth has always been more than the sum of its parts. Unlike any other astronomical body, it is a living world. Focusing on four key natural forces - global weather systems distributing fresh water to all corners; marine currents delivering nutrients to the deepest reaches of the ocean; solar energy warming and electrifying everything it touches; and volcanic activity fertilising the earth's surface - Huw Cordey reveals to us new levels of this living world, a place populated with astonishing characters living remarkable lives. From Arctic wolves prowling moonlit landscapes or wood frogs, frozen in winter and magically thawing back to life, to flamingos flying thousands of miles to a vast volcanic lake in Africa to breed, we see time and again how animals are perfectly adapted to whatever the environment throws at them. Packed with over 250 full-colour images, and including a foreword by Alastair Fothergill and stills from the BBC series' spectacular footage, A Perfect Planet is a stunning exploration of life on Earth - life that is increasingly precious and rare.

Articulating Design Thinking Paul Rodgers, 2012 Articulating Design Thinking contains a collection of thought-provoking papers from researchers based in eight different countries around the world Sweden, Italy, Denmark, Israel, UK, USA, Australia and Turkey that all deal with articulations of design thinking from a variety of disciplinary perspectives. These include: architecture, inclusive design, industrial design and interaction design. The phrase design thinking has become cemented in our everyday lexicon. Design thinking now routinely extends, so it is claimed, to contemporary forms of design, engineering, business and management practice. Often viewed as a particular style of creative thinking-in-action design thinking, we are told, can transform the way we develop products, services, processes and even strategy. A lot of work has been published in recent years on the subject of design thinking and how designers think and act. A frequently held consensus across this work is the notion that design thinking has a number of common features that are typified and manifested in strong commitment and personal motivation of the individual. It is widely suggested that designers possess the courage to take risks, they are prepared to fail and that they are motivated and committed to work hard. Designers, during their design thinking activities, regularly (re)define and/or frame problems; they adopt holistic thinking and they sketch, visualise and model possible ideas throughout their design processes. This book examines the many facets of design thinking across a range of different design domains through comparing and contrasting the processes, methods and approaches contained within this thought-provoking collection of papers.

Punk Rock Dad Jim Lindberg,2009-10-13 Jim Lindberg is a Punk Rock Dad. When he drives his kids to school in the morning, they listen to the Ramones, the Clash, or the Descendents—and that's it. They can listen to Britney and Justin on their own time. Jim goes to soccer games, dance rehearsals, and piano recitals like all the other dads, but when he feels the need, he also goes to punk shows, runs into the slam pit, and comes home bruised and beaten . . . but somehow feeling strangely better. While the other dads dye their hair brown to cover the gray, Jim occasionally dyes his blue or green. He makes his daughters' lunches, kisses their boo-boos, and tucks them in at night—and then goes into the garage and plays Black Flag and Minor Threat songs at a criminal volume. He pays his taxes, votes in all the presidential and gubernatorial elections, serves on jury duty, and reserves the right to believe that there is a vast Right Wing Conspiracy—and that the head of the P.T.A. is possibly in on it. He is a Punk Rock Dad.

International Perspectives on Spinal Cord Injury World Health Organization,International Spinal Cord Society,2013 Every year between 250 000 and 500 000 people suffer a spinal cord injury, with road traffic crashes, falls and violence as the three leading causes. People with spinal cord injury are two to five times more likely to die prematurely. They also have lower rates of school enrollment and economic participation than people without such injuries. Spinal cord injury has costly consequences for the individual and society, but it is preventable, survivable and need not preclude good health and social inclusion. Ensuring an adequate medical and rehabilitation response, followed by supportive services and accessible environments, can help minimize the disruption to people with spinal cord injury and their families. The aims of International perspectives on spinal cord injury are to: --- assemble and summarize information on spinal cord injury, in particular the epidemiology, services, interventions and policies that are relevant, together with the lived experience of people with spinal cord injury; ---make recommendations for actions based on this evidence that are consistent with the aspirations for people with disabilities as expressed in the Convention on the Rights of Persons with Disabilities.

Separate Rooms Pier Vittorio Tondelli,2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity.Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Mafia Brotherhoods Letizia Paoli,2008-06-01 Relying on previously undisclosed confessions of former mafia members now cooperating with the police, Letizia Paoli provides a clinically accurate portrait of mafia behavior, motivations, and structure in Italy. The mafia, Paoli demonstrates, are essentially multifunctional ritual brotherhoods focused above all on retaining and consolidating their

local political power base. A truly interdisciplinary work of history, politics, economics, and sociology, Mafia Brotherhoods reveals in dramatic detail the true face of one of the world's most mythologized criminal organizations.

The Electronic Communications Code Great Britain: Law Commission, 2013-02-28 In this report The Electronic Communications Code the Law Commission makes recommendations to form the basis of a revised Electronic Communications Code, which was originally enacted in 1984 to regulate landline telephone provision. It sets out the regime that governs the rights of designated electronic communications operators to maintain infrastructure on public and private land. In modern times, it applies to the infrastructure forming networks which support broadband, mobile internet and telephone, cable television and landlines. The current Code has been criticized by courts and the people who work with it as out of date, unclear and inconsistent with other legislation. This project focuses on private property rights between landowners and electronic communications providers, it does not consider planning. The aims of the reforms are: to provide a clearer definition of the market value that landowners can charge for the use
