B&V Friends Double Digest #213 Archie Superstars, In 'East Meets West', Betty and Veronica battle in the Wild West to keep the railroad tracks free and clear of the dastardly Rogue Reggie and his gang of train robbers. Before he strikes again, Sheriff Moose must devise a plan to stop the gang for good! Then, in 'Whale of a Sale,' Betty didn't do financially well at her garage sale, but she certainly makes up for it in valuable time spent with Archie!

Weird Fiction and Science at the Fin de Siècle Emily Alder, 2020-01-07 This book explores how nineteenth-century science stimulated the emergence of weird tales at the fin de siècle, and examines weird fiction by British writers who preceded and influenced H. P. Lovecraft, the most famous author of weird fiction. From laboratory experiments, thermodynamics, and Darwinian evolutionary theory to psychology, Theosophy, and the 'new' physics of atoms and forces, science illuminated supernatural realms with rational theories and practices. Changing scientific philosophies and questioning of traditional positivism produced new ways of knowing the world—fertile borderlands for fictional as well as real-world scientists to explore. Reading Robert Louis Stevenson's *Strange Case of Dr Jekyll and Mr Hyde* (1886) as an inaugural weird tale, the author goes on to analyse stories by Arthur Machen, Edith Nesbit, H. G. Wells, William Hope Hodgson, E. and H. Heron, and Algernon Blackwood to show how this radical fantasy mode can be scientific, and how sciences themselves were often already weird.

Weird Las Vegas and Nevada Joe Oesterle, Tim Cridland, 2007 A travel guide to Las Vegas that also focusses on the neglect of its historic places.

Lost in Care - The True Story of a Forgotten Child Jimmy Holland, 2007-01-31 Jimmy Holland was

born into a family suffering at the hands of their drunk and abusive father. At the age of just two weeks, he was placed into care. The beginning of a life lived in a constantly changing environment of homes, authorities and institutions began. Let down and frequently abused, it wasn't long before Jimmy strayed onto the wrong side of the tracks. Before long, the mould for a problem child was set. He quickly turned from substance abuse to drug use and, in turn, to crime - his only means of an escape. An inevitable lifetime of crime faced him and he soon became associated with the ringleaders of an infamous gang responsible for prison riots and hostage taking. A heartfelt, shocking and despairing insight into life as a state-raised boy, *Lost in Care* is the heart-rending tale of a man who has lost his childhood and also lost his way.

Weird Science and Bizarre Beliefs Gregory L. Reece, 2008-10-30 Does the giant Yeti roam the mountain ranges of Tibet? Does a real-life Shangri La lie waiting to be discovered in a Himalayan valley? Do transmissions from lost civilizations beam messages of salvation to humankind? What lost creatures lurk in the murky depths of Scotland's brooding Loch Ness? And who - or what - is responsible for the implacable monoliths which tower over Easter Island? The obsession that so many now have with the uncanny and the unnatural is in itself a mystery. It prompts serious questions which could have remarkable answers. Drinking deep from the wells of esoteric knowledge, Greg Reece undertakes a heroic quest for solutions. Braving the darkest recesses of cult belief, he stalks the twilight borderlands of contemporary culture, where, at the outer edges of mainstream thought, things become downright freaky and outlandish. Taking his life in both hands, the author explores a subterranean cavern reputed to be the home of elusive blue-skinned troglodytes; goes hiking in the backwoods for a glimpse of Bigfoot; investigates the truth of Alternative Archaeology in search of Atlantis; and tests for himself the time-travel and anti-gravity

theories of famed inventor Nikola Tesla. Unashamedly revelling in the unexplained, Weird Science and Bizarre Beliefs is both a penetrating analysis of the hidden underbelly of science, pseudo-science and religion as well as an unforgettable journey into the innermost depths of the fantastic, the extraordinary and the peculiar.

All Kinds of Scary Jonina Anderson-Lopez, 2023-06-12 Horror fiction--in literature, film and television--display a wealth of potential, and appeal to diverse audiences. The trope of the black man always dies first still, however, haunts the genre. This book focuses on the latest cycle of diversity in horror fiction, starting with the release of *Get Out* in 2017, which inspired a new speculative turn for the genre. Using various critical frameworks like feminism and colonialism, the book also assesses diversity gaps in horror fictions, with an emphasis on marketing and storytelling methodology. Reviewing the canon and definitions of horror may point to influences for future implications of diversity, which has cyclically manifested in horror fictions throughout history. This book studies works from literature, film and television while acknowledging that each of the formats are distinct artforms that complement each other. The author compares diverse representation in novels like *The Castle of Otranto*, *Frankenstein*, *Fledgling*, *Broken Monsters* and *Mexican Gothic*. Horror films like *Bride of Frankenstein*, *It Comes at Night*, *Us* and *Get Out* are also examined. Lastly, the author

emphasizes the diverse horror fictions in television, like *The Exorcist*, *Fear the Walking Dead*, *The Twilight Zone* and *Castle Rock*.

The Unique Legacy of Weird Tales Justin Everett, Jeffrey H. Shanks, 2015-10-01 When the pulp magazine *Weird Tales* appeared on newsstands in 1923, it proved to be a pivotal moment in the evolution of speculative fiction. Living up to its nickname, “The Unique Magazine,” *Weird Tales* provided the first real venue for authors writing in the nascent genres of fantasy, horror, and science fiction. Weird fiction pioneers such as H. P. Lovecraft, Robert E. Howard, Clark Ashton Smith, Robert Bloch, Catherine L. Moore, and many others honed their craft in the pages of *Weird Tales* in the 1920s and 1930s, and their work had a tremendous influence on later generations of genre authors. In *The Unique Legacy of Weird Tales: The Evolution of Modern Fantasy and Horror*, Justin Everett and Jeffrey Shanks have assembled an impressive collection of essays that explore many of the themes critical to understanding the importance of the magazine. This multi-disciplinary collection from a wide array of scholars looks at how *Weird Tales* served as a locus of genre formation and literary discourse community. There are also chapters devoted to individual authors—including Lovecraft, Howard, and Bloch—and their particular contributions to the magazine. As the literary world was undergoing a revolution and mass-produced media began to dwarf high-brow literature in social significance, *Weird Tales* managed to straddle both worlds. This collection of essays explores the important role the magazine played in expanding the literary landscape at a very particular time and place in American culture. *The Unique Legacy of Weird Tales* will appeal to scholars and aficionados of fantasy, horror, and weird fiction and those interested in the early roots of these popular genres.

Transmedial Narratology and Contemporary Media Culture Jan-Noël Thon, 2016-08

Narratives are everywhere—and since a significant part of contemporary media culture is defined by narrative forms, media studies need a genuinely transmedial narratology. Against this background, *Transmedial Narratology and Contemporary Media Culture* focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation. It provides not only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films, comics, and video games but also a theoretical frame within which medium-specific approaches from literary and film narratology, from comics studies and game studies, and from various other strands of media and cultural studies may be applied to further our understanding of narratives across media.

Games for All Ages Marjorie Wackerbarth, Lillian S. Graham, 1959

The Light Guitar Arthur Guiterman, 1923

Weird England Matt Lake, 2007 Focusing on the bizarre, a collection of entertaining, illustrated travel guides features a host of oddball curiosities, ghosts and haunted places, local legends, cursed roads, crazy characters, and unusual roadside attractions that can be found in England.

Re-examining the Holocaust through Literature Aukje Kluge, Benn E. Williams, 2009-03-26 In the late 1980s, Holocaust literature emerged as a provocative, but poorly defined, scholarly field. The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books, fiction, film, and poetry, as well as the more traditional diaries, memoirs, and journals. Ten contributors from four countries engage issues of authenticity, evangelicalism, morality, representation, personal experience, and wish-fulfillment in Holocaust literature, which have been the subject of controversies in the US, Europe, and the Middle East. Of interest to students and instructors of

antisemitism, national and comparative literatures, theater, film, history, literary criticism, religion, and Holocaust studies, this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context.

Constructionism Idit Harel, Seymour Papert, 1991 In 1985 the Media Lab was created at MIT to advance the idea that computation would give rise to a new science of expressive media. Within the media lab, the Epistemology and Learning group extends the traditional definition of media by treating as expressive media materials with which children play and learn. The Group's work follows a paradigm for learning research called Constructionism. Several of the chapters directly address the theoretical formulation of Constructionism, and others describe experimental studies which enrich and confirm different aspects of the idea. Thus this volume can be taken as the most extensive and definitive statement to date of this approach to media and education research and practice. This book is structured around four major themes: learning through designing and programming; epistemological styles in constructionist learning, children and cybernetics; and video as a research tool for exploring and documenting constructionist environments.

Weird Washington Jeff Davis, Al Eufrazio, 2008 Each fun and intriguing volume offers more than 250 illustrated pages of places where tourists usually don't venture. These unique travel guides are chock-full of information about oddball curiosities, ghostly places, local legends, and peculiar roadside attractions.

Comic Genius, 2013-10-15 This star-studded tribute to the kings and queens of comedy draws together such legendary names as Steve Martin, Tina Fey, Steve Carell, Eddie Murphy, Robin Williams, Ricky Gervais, and many more. Granted extraordinary access, photographer Matt Hoyle has captured his subjects in portraits that are works of art in themselves—by turns zany and

deadpan, laugh-out-loud and contemplative. Accompanying them are first-person reflections from each of the comedians on life and laughter that always cut straight to the heart of comedy: it's funny because it's true. Page after sidesplitting page in *Comic Genius* offers prose as engaging as each portrait is memorable. Here, in one handsome package, is the gift of laughter itself. *Comic Genius* is proud to support Save The Children.

The Horror Comics William Schoell, 2014-06-26 From the Golden Age of the 1940s, through the Silver Age of the '60s, up until the early '80s--the end of the Bronze Age. Included are the earliest series, like American Comics Group's *Adventures into the Unknown* and *Prize Comics'* *Frankenstein*, and the controversial and gory comics of the '40s, such as EC's infamous and influential *Tales from the Crypt*. The resurgence of monster-horror titles during the '60s is explored, along with the return of horror anthologies like Dell Comics' *Ghost Stories* and Charlton's *Ghostly Tales from the Haunted House*. The explosion of horror titles following the relaxation of the comics code in the '70s is fully documented with chapters on Marvel's prodigious output--*The Tomb of Dracula*, *Werewolf by Night* and others--DC's anthologies--*Witching Hour* and *Ghosts*--and titles such as *Swamp Thing*, as well as the notable contributions of firms like Gold Key and Atlas. This book examines how horror comics exploited everyday terrors, and often reflected societal attitudes toward women and people who were different.
