*The Delirium Brief* Charles Stross, 2017-07-11 \*2018 LOCUS AWARD FINALIST FOR BEST FANTASY NOVEL CATEGORY\* "Smart, literate, funny." –Lev Grossman, author of *The Magicians* Someone is dead set to air the spy agency's dirty laundry in *The Delirium Brief*, the next installment to Charles Stross' Hugo Award-winning comedic dark fantasy *Laundry Files* series! Bob Howard's career in the Laundry, the secret British government agency dedicated to protecting the world from unspeakable horrors from beyond spacetime, has entailed high combat, brilliant hacking, ancient magic, and combat with indescribably repellent creatures of pure evil. It has also involved a wearying amount of paperwork and office politics, and his expense reports are still a mess. Now, following the invasion of Yorkshire by the Host of Air and Darkness, the Laundry's existence has become public, and Bob is being trotted out on TV to answer pointed questions about elven asylum seekers. What neither Bob nor his managers have foreseen is that their organization has earned the attention of a horror far more terrifying than any demon: a British government looking for public services to privatize. Inch by inch, Bob Howard and his managers are forced to consider the truly unthinkable: a coup against the British government itself. *Laundry Files* 1. *The Atrocity Archives* 2. *The Jennifer Morgue* 3. *The Fuller Memorandum* 4. *The Apocalypse Codex* 5. *The Rhesus Chart* 6. *The Annihilation Score* 7. *The Nightmare Stacks* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Bird King G. Willow Wilson, 2019-03-12 One of NPR's 50 Best Science Fiction and Fantasy Books of the Decade: A fifteenth-century palace mapmaker must hide his powers in the time of the Inquisition . . . Award-winning author G. Willow Wilson's debut novel *Alif the Unseen* was an NPR and Washington Post Best Book of the Year and established her as a vital American Muslim literary voice. Now she delivers *The Bird King*, an epic journey set during the reign of the last sultan in the Iberian peninsula at the height of the Spanish Inquisition. Fatima is a concubine in the royal court of Granada, the last emirate of Muslim Spain. Her dearest friend, Hassan, the palace mapmaker and the one man who doesn't leer at her with desire, has a secret—he can draw maps of places he's never seen and bend the shape of reality. When representatives of the newly formed Spanish monarchy arrive to negotiate the sultan's surrender, Fatima befriends one of the women, not realizing that she will see Hassan's gift as sorcery and a threat to Christian Spanish rule. With their freedoms at stake, what will Fatima risk to save Hassan and escape the palace walls? As the two traverse Spain with the help of a clever jinn to find safety, *The Bird King* asks us to consider what love is and the price of freedom at a time when the West and the Muslim world were not yet separate. "Wilson has a deft hand with myth and with magic, and the kind of smart, honest writing mind that knits together and bridges cultures and people." –Neil Gaiman, author of *Norse Mythology* "A triumph . . . one

of the best fantasy writers working today.” –BookPage “A treasure-house of a novel, thrilling, tender, funny, and achingly gorgeous. I loved it.” –Lev Grossman, author of the Magicians trilogy

*An Illini Place* Lex Tate, John Franch, Incoronata Inserra, 2017-04-17 Why does the University of Illinois campus at Urbana-Champaign look as it does today? Drawing on a wealth of research and featuring more than one hundred color photographs, *An Illini Place* provides an engrossing and beautiful answer to that question. Lex Tate and John Franch trace the story of the university's evolution through its buildings. Oral histories, official reports, dedication programs, and developmental plans both practical and quixotic inform the story. The authors also provide special chapters on campus icons and on the buildings, arenas and other spaces made possible by donors and friends of the university. Adding to the experience is a web companion that includes profiles of the planners, architects, and presidents instrumental in the campus's growth, plus an illustrated inventory of current and former campus plans and buildings.

*The Causes and Cures of Criminality* Hans J. Eysenck, Gisli H. Gudjonsson, 2013-03-09 The title that the authors have chosen for this book, *The Causes and Cures of Criminality*, suggests that it may be just another book speculating on the sociological evils that need to be put right for everything in the garden to be lovely. If this is the expectation, the reader could not be more mistaken. The recurrent theme, in fact, is a strong accent on psychological experiments. Both authors have tackled the theoretical and practical side of crime through an exhaustive literature review of past experimental work. Hans J. Eysenck has concentrated on the constitutional and biological theory of criminality, whereas Gisli Gudjonsson has concerned himself more with a review of ongoing research into therapy and possible prevention of antisocial behavior. Part I goes into considerable detail on the causes of criminality, stressing much of the strangely neglected area of individual differences in personality. Research studies point to a very heavy involvement of heredity in the causation of criminality, but the authors are careful to acknowledge that much can be done environmentally to discourage a life of crime once those persons who are at risk have been identified.

*Have the Relationship You Want* Rori Gwynne, 2006-11 A step-by-step guide for women to transforming your love life practically overnight.

**The Rhesus Chart** Charles Stross, 2014-07-01 The Hugo Award-winning author of *The Delirium Brief* reveals the secrets of *The Laundry Files* in an adventure of Lovecraftian horror and espionage hi-jinks... As a newly appointed junior manager within the Laundry—the clandestine organization responsible for protecting Britain against supernatural threats—Bob Howard is expected to show some initiative to help the agency battle the forces of darkness. But shining a light on what's best left in the shadows is the last thing Bob wants to do—especially when those shadows hide an occult parasite spreading a deadly virus. Traders employed by a merchant bank in London are showing signs of infection—an array of unusual symptoms such as super-strength and -speed, an uncanny talent for mind control, an extreme allergic reaction to sunlight, and an unquenchable thirst for blood. While his department is tangled up in bureaucratic red tape (and *Buffy* reruns) debating how to stop the rash of vampirism, Bob digs

deeper into the bank's history—only to uncover a blood-curdling conspiracy between men and monsters...

**Dead Lies Dreaming** Charles Stross, 2020-10-27 When magic and superpowers emerge in the masses, Wendy Deere is contracted by the government to bag and snag supervillains in Hugo Award-winning author Charles Stross' *Dead Lies Dreaming: A Laundry Files Novel*. As Wendy hunts down Imp—the cyberpunk head of a band calling themselves “The Lost Boys”—she is dragged into the schemes of louche billionaire Rupert de Montfort Bigge. Rupert has discovered that the sole surviving copy of the long-lost concordance to the one true Necronomicon is up for underground auction in London. He hires Imp's sister, Eve, to procure it by any means necessary, and in the process, he encounters Wendy Deere. In a tale of corruption, assassination, thievery, and magic, Wendy Deere must navigate rotting mansions that lead to distant pasts, evil tycoons, corrupt government officials, lethal curses, and her own moral qualms in order to make it out of this chase alive. Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with “gloriously esoteric nerdery [and] observations as witty as they are keen” (Wired). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into *2001: A Space Odyssey*, *Star Trek: The Motion Picture*, *Alien*, *Blade Runner*, *Total Recall*, *WALL·E*, and *Moon*, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (*Star Trek*), Paul Verhoeven (*Total Recall*), and Ralph Eggleston and Craig Foster (Pixar). *Typeset in the Future* is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

*The Democratization of Artificial Intelligence* Andreas Sudmann, 2019-10-31 After a long time of neglect, Artificial Intelligence is once again at the center of most of our political, economic, and socio-cultural debates. Recent advances in the field of Artificial Neural Networks have led to a renaissance of dystopian and utopian speculations on an AI-rendered future. Algorithmic technologies are deployed for identifying potential terrorists through vast surveillance networks, for producing sentencing guidelines and recidivism risk profiles in criminal justice systems, for demographic and psychographic targeting of bodies for advertising or propaganda, and more generally for automating the analysis of language, text, and images. Against this background, the aim of this book is to discuss the heterogeneous conditions, implications, and effects of modern AI and Internet technologies in terms of their political dimension: What does it mean to critically investigate efforts of net politics in the age of machine learning algorithms?

**Make It So** Nathan Shedroff, Christopher Noessel, 2012-09-17 Many designers enjoy the interfaces seen in science fiction films and television shows. Freed from the rigorous constraints of designing for real users, sci-fi production designers develop blue-sky interfaces that are inspiring, humorous, and even instructive. By carefully

studying these “outsider” user interfaces, designers can derive lessons that make their real-world designs more cutting edge and successful.

Mastering the Core Teachings of the Buddha Daniel Ingram, 2020-01-20 The very idea that the teachings can be mastered will arouse controversy within Buddhist circles. Even so, Ingram insists that enlightenment is an attainable goal, once our fanciful notions of it are stripped away, and we have learned to use meditation as a method for examining reality rather than an opportunity to wallow in self-absorbed mind-noise. Ingram sets out concisely the difference between concentration-based and insight (vipassana) meditation; he provides example practices; and most importantly he presents detailed maps of the states of mind we are likely to encounter, and the stages we must negotiate as we move through clearly-defined cycles of insight. Its easy to feel overawed, at first, by Ingram's assurance and ease in the higher levels of consciousness, but consistently he writes as a down-to-earth and compassionate guide, and to the practitioner willing to commit themselves this is a glittering gift of a book. In this new edition of the bestselling book, the author rearranges, revises and expands upon the original material, as well as adding new sections that bring further clarity to his ideas.

**Estimating Numbers of Terrestrial Birds** C. John Ralph, J. Michael Scott, 2003-06 This book was originally published in 1981 as a publication of the Cooper Ornithological Society and was based on the proceedings of a meeting of biologists and statisticians in Asilomar who gathered to examine the methods and assumptions used in estimating bird numbers. Counting birds has a long tradition. It is the currency of many ornithological studies. Bird counts have been seminal in our knowledge of bird migration, competition, ecology, population dynamics, environmental adaptation, impact of human alterations and island biogeography. Interest in estimating bird numbers remains high today but is often plagued by unasked or unanswered questions regarding sampling methods and treatment of the results. This book recorded the outcome of a meeting held to address these and other questions. It led to better understanding of what can and cannot be done with datasets. This volume remains a primary source of information on censusing of birds and other animals, and is frequently quoted in the primary literature of today. Since this volume went out of print some six years ago, demand has markedly increased for copies which are essentially unavailable, attesting to its currency today. C. John Ralph, received his Bachelors from the University of California, Berkeley and his doctorate from The Johns Hopkins University. Most of his early research was on bird migration and orientation. After a stint teaching at Dickinson College in Pennsylvania, he moved to Hawaii in 1976 where he began work on endangered forest birds for the Forest Service as a Research Ecologist. In

1981 he and his family moved to Arcata to join the Forest Service's Redwood Sciences Laboratory. One of his principal research topics there has been on an old-growth dependent bird, the Marbled Murrelet, involving extensive research from Alaska to California. His other principal work is on landbird monitoring, especially involving census and constant effort mist netting. Since 1994 he has directed research at a bird monitoring station in Costa Rica, now one of the longest running stations in Latin America. Beginning in 1980 he conducted research on an island off New Zealand involving monitoring and reintroduction of native birds. He has published more than 150 scientific articles and edited several books on bird monitoring and the Marbled Murrelet.

Homer Simpson Ponders Politics Joseph J. Foy,Timothy M. Dale,2013-05-01 It is often said that the poet Homer educated ancient Greece. Joseph J. Foy and Timothy M. Dale have assembled a team of notable scholars who argue, quite persuasively, that Homer Simpson and his ilk are educating America and offering insights into the social order and the human condition. Following *Homer Simpson Goes to Washington* (winner of the John G. Cawelti Award for Best Textbook or Primer on American and Popular Culture) and *Homer Simpson Marches on Washington*, this exceptional volume reveals how books like J. R. R. Tolkien's *The Hobbit* and J. K. Rowling's *Harry Potter*, movies like *Avatar* and *Star Wars*, and television shows like *The Office* and *Firefly* define Americans' perceptions of society. The authors expand the discussion to explore the ways in which political theories play out in popular culture. *Homer Simpson Ponders Politics* includes a foreword by fantasy author Margaret Weis (coauthor/creator of the *Dragonlance* novels and game world) and is divided according to eras and themes in political thought: The first section explores civic virtue, applying the work of Plato and Aristotle to modern media. Part 2 draws on the philosophy of Hobbes, Locke, Rousseau, and Smith as a framework for understanding the role of the state. Part 3 explores the work of theorists such as Kant and Marx, and the final section investigates the ways in which movies and newer forms of electronic media either support or challenge the underlying assumptions of the democratic order. The result is an engaging read for undergraduate students as well as anyone interested in popular culture.

**The Playful Citizen** René Glas,Sybille Lammes,Michiel de Lange,Joost Raessens,Imar de Vries,2019 This edited volume collects current research by academics and practitioners on playful citizen participation through digital media technologies.

**Corpus linguistics** Stefanowitsch, Anatol,1996 Corpora are used widely in linguistics, but not always wisely. This book attempts to frame corpus linguistics systematically as a variant of the observational method. The first part introduces the reader to the general methodological discussions surrounding corpus data as well as the practice of doing corpus linguistics, including issues such as the scientific research cycle, research design,

extraction of corpus data and statistical evaluation. The second part consists of a number of case studies from the main areas of corpus linguistics (lexical associations, morphology, grammar, text and metaphor), surveying the range of issues studied in corpus linguistics while at the same time showing how they fit into the methodology outlined in the first part.
