**Dear Photograph** Taylor Jones,2012-04-24 We all have moments we wish we could relive. We'd give anything to skid down the toboggan hills of our youth, to breathe in the smell of our children as babies or to spend just one more minute with a loved one we've lost. Dear Photograph provides a way to link these memories from the past to the present. The idea is simple: hold a photograph from the past up in front of the place where it was originally taken; take a second photograph; add a sentence of dedication about what the photograph means to you. The results, however, are astounding, which is why millions have flocked to the site, and thousands have submitted their own Dear Photographs. This stunning visual compilation includes more than 140 never-before-seen Dear Photographs. By turns nostalgic, charming and poignant, Dear Photograph evokes childhood memories, laments difficult losses and, above all, celebrates the universal nature of love.

*The Tale Maker* Mark Harris, 1994 Set in academe, in an unnamed city, *The Tale Maker*, by Mark Harris, features the careening careers and psyches, lusts and ambitions of two men - one named Rimrose, a brilliant student and teacher and widely respected author who manages to foul up everything until a final victory over his long-time antagonist named Kakapick, a voyeur of life, pitiful and yet able to win out over Rimrose in the absurdly bureaucratic and stratified atmosphere of The University - until, that is, life gets the better of him. *The Tale Maker* is Mark Harris, author of the classic *Bang the Drum Slowly* tetralogy, at the top of his form, writing with a wit and bite and irony that sets him squarely alongside such as Saul Bellow, Phillip Roth and John Irving.--BOOK JACKET. **Terrific Makerspace Projects** Juan Denzer, Sharona Ginsberg, 2020-08-12 *Terrific Makerspace Projects: A Practical Guide for Librarians* features fifteen customizable projects that were designed as projects created by librarians/makerspace facilitators, rather than projects in which librarians guided others (makerspace users). These projects were showcased during library events with the goal of promoting the makerspace, as well as other library services, while using them to build connections both within and external to the library. This book outlines maker projects in detail and provides plenty of photos and resources so readers can recreate, customize, and implement them. People at all skill levels in every type of makerspace will find something they can try, with projects that range from simple and low-tech to more complex and tech-heavy. Most projects are inexpensive, taking advantage of free online tools, upcycled or repurposed materials, and low cost electronics such as Arduinos. Each project can be approached as an offering for makerspace visitors or can be created by library employees themselves as tools to engage in outreach and promote the makerspace, library services, the institution, and more. Every project has been created and tested in a real library setting by the authors, who present lessons learned, possible variations, and different ideas on how to implement the projects to their fullest extent. Explore the idea of using the makerspace to highlight the value of other library services, or simply find new and fun ways to engage with your users. The book also offers suggestions on how to be a great maker, and tips on makerspace safety, finding low-cost materials, and more. Whether you're just beginning your makerspace or

looking for fresh ideas for your established space, this book has something to offer.

**Linked** Gordon Korman,2021-07-20 An unforgettable novel from the New York Times bestseller Gordon Korman Link, Michael, and Dana live in a quiet town. But it's woken up very quickly when someone sneaks into school and vandalizes it with a swastika. Nobody can believe it. How could such a symbol of hate end up in the middle of their school? Who would do such a thing? Because Michael was the first person to see it, he's the first suspect. Because Link is one of the most popular guys in school, everyone's looking to him to figure it out. And because Dana's the only Jewish girl in the whole town, everyone's treating her more like an outsider than ever. The mystery deepens as more swastikas begin to appear. Some students decide to fight back and start a project to bring people together instead of dividing them further. The closer Link, Michael, and Dana get to the truth, the more there is to face-not just the crimes of the present, but the crimes of the past. With Linked, Gordon Korman, the author of the acclaimed novel Restart, poses a mystery for all readers where the who did it? isn't nearly as important as the why?
