Teaching History 11-18 Husbands, Chris,Kitson, Alison,2010-07-01 This book provides a comprehensive and radical guide to the challenges facing history and history teaching in contemporary schools

Teaching History 11 - 18 Chris Husbands,Alison Kitson,2010-07-16 Teaching History 11-18 is a comprehensive introduction to teaching. learning and assessing history in secondary schools. Drawing on cutting edge research and practice, it draws together recent thinking in teaching and learning in history, teaching and learning in secondary education more generally and classroom-based research to provide a radical re-thinking of the practices of teaching and learning about the past at the beginning of the twenty-first century. At the core of the book is a focus on diversity and its implications: the diversity of classrooms in English schools, cultural diversity and pluralism in accounts of the past, and the diversity of pedagogic and communicative strategies at the disposal of teachers. The book is realistic about the challenges: a precarious place in the curriculum, pupil disaffection, bitter ideological debates about the purpose, place and status of history, but offers a forward-looking rationale for the centrality of the past in debates about identity, social cohesion and persona and social education.

No Game for Boys to Play Kathleen Bachynski,2019-11-25 From the untimely deaths of young athletes to chronic disease among retired players, roiling debates over tackle football have profound implications for more than one million American boys—some as young as five years old—who play the sport every year. In this book, Kathleen Bachynski offers the first history of youth tackle football and debates over its safety. In the postwar United States, high school football was celebrated as a moral sport for young boys, one that promised and celebrated the creation of the honorable male citizen. Even so, Bachynski shows that throughout the twentieth century, coaches, sports equipment manufacturers, and even doctors were more concerned with saving the game than young boys' safety—even though injuries ranged from concussions and broken bones to paralysis and death. By exploring sport, masculinity, and citizenship, Bachynski uncovers the cultural priorities other than child health that made a collision sport the most popular high school game for American boys. These deep-rooted beliefs continue to shape the safety debate and the possible future of youth tackle football.

Future Men Douglas Wilson,2001 How do we build our sons to be tough but not arrogant? mannered but not soft? imaginative but not lazy? bold but not hollow? Future Men is a Christian guide to raising strong, virtuous sons, contrary to the effeminacy and sentimentalism of contemporary culture. When Theodore Roosevelt taught Sunday school for a time, a boy showed up one Sunday with a black eye. He admitted he had been fighting and on a Sunday too. He told the future president that a bigger boy had been pinching his sister, and so he fought him. TR told him that he had done perfectly right and gave him a dollar. The stodgy vestrymen thought this was a bit much, and so they let their exuberant Sunday school teacher go. What a loss. Unbelief cannot look past surfaces. Unbelief squashes; faith teaches. Faith takes a boy aside and tells him that this part of what he did was good, while the other part of what he did got in the way. And this is how to do it better next time. As we look to Scripture for patterns of masculinity for our sons, we find them manifested perfectly in the life of the Lord Jesus Christ. He is the one who set the ultimate pattern for friendship, for courage, for faithfulness, and integrity.

The Boy Who Was Raised as a Dog Bruce D Perry,Maia Szalavitz,2017-08-29 In this classic work of developmental psychology, renowned psychiatrist and the coauthor of the #1 New York Times bestseller What Happened to You? reveals how trauma affects children—and outlines the path to recovery Fascinating and upbeat...Dr. Perry is both a world-class creative scientist and a compassionate therapist.—Mary Pipher, PhD, author of Reviving Ophelia How does trauma affect a child's mind—and how can that mind recover? Child psychiatrist Dr. Bruce D. Perry has helped children faced with unimaginable horror: genocide survivors, murder witnesses, kidnapped teenagers, and victims of family violence. In the classic The Boy Who Was Raised as a Dog, Dr. Perry tells their stories of trauma and transformation and shares their lessons of courage, humanity, and hope. Deftly combining unforgettable case histories with his own compassionate, insightful strategies for rehabilitation, Perry explains what happens to children’s brains when they are exposed to extreme stress—and reveals the unexpected measures that can be taken to ease such pain and help them grow into healthy adults. Only when we understand the science of the mind and the power of love and nurturing can we hope to heal the spirit of even the most wounded child.

Greatest Hits Daniel T MacInnes,2017-11-21 Greatest Hits is An Anthology in Four Volumes that examines, dissects and satirizes every angle of the pop culture universe: film and television, animation and live-action, rock and jazz music, vinyl records, classic video games, politics and daily life. Writer and artist Daniel Thomas MacInnes delivers his signature style of sharp wit, biting sarcasm, warm nostalgia, and the search for the cultural threads that bring us all together. In Greatest Hits, MacInnes presents, in a incisive collection of essays and personal stories, the trivial absurdity and profound brilliance of modern life. These include denouncing the media circus surrounding Michael Jackson's untimely death (Now Watch the Thriller Zombies Chew On the Corpse), championing the genius of 1970s Miles Davis (Get Up With It), conjuring childhood memories of video games (Seven Cities of Gold), and celebrating the animated movies of Studio Ghibli (My Neighbor Totoro, Spirited Away). Like everyone's favorite greatest hits albums, this book is a fitting portrait of the artist, and a perfect distillation of a singular and irresistible literary voice. Greatest Hits essays include: ActRaiser; Anne of Green Gables; California Games; Donkey Kong Country; Herzog Zwei; My Neighbor Totoro; Napoleon Dynamite; Ratatouille; Sonic CD; Spirited Away; The Thriller Zombies Come to Chew on the Corpse; Truth is the First Casualty of War; and 80 more.

collected essays, each thoroughly revised and updated. Volume Two: Topics in Latin Philosophy from the 12th -14th Centuries explores issues in medieval philosophy from the time nominalists and other schools competed in twelfth-century Paris to the mature scholasticism of Boethius of Dacia, Radulphus Brito and other 'modist' thinkers of the late thirteenth century and, finally, the new nominalism of John Buridan in the fourteenth century.

A Boy at War Harry Mazer,2012-06-26 They rowed hard, away from the battleships and the bombs. Water sprayed over them. The rowboat pitched one way and then the other. Then, before his eyes, the Arizona lifted up out of the water. That enormous battleship bounced up in the air like a rubber ball and split apart. Fire burst out of the ship. A geyser of water shot into the air and came crashing down. Adam was almost thrown out of the rowboat. He clung to the seat as it swung around. He saw blue skies and the glittering city. The boat swung back again, and he saw black clouds, and the Arizona, his father's ship, sinking beneath the water. -- from A Boy at War He kept looking up, afraid the planes would come back. The sky was obscured by black smoke....It was all unreal: the battleships half sunk, the bullet holes in the boat, Davi and Martin in the water. December 7, 1941: On a quiet Sunday morning, while Adam and his friends are fishing near Honolulu, a surprise attack by Japanese bombers destroys the fleet at Pearl Harbor. Even as Adam struggles to survive the sudden chaos all around him, and as his friends endure the brunt of the attack, a greater concern hangs over his head: Adam's father, a navy lieutenant, was stationed on the USS Arizona when the bombs fell. During the subsequent days Adam -- not yet a man, but no longer a boy -- is caught up in the war as he desperately tries to make sense of what happened to his friends and to find news of his father. Harry Mazer, whose autobiographical novel, The Last Mission, brought the European side of World War II to vivid life, now turns to the Pacific theater and how the impact of war can alter young lives forever.

The Boy on the Bridge (Extended Free Preview) M. R. Carey,2017-02-14 From the author of USA Today bestseller The Girl With All the Gifts, a terrifying new novel set in the same post-apocalyptic world. Once upon a time, in a land blighted by terror, there was a very clever boy. The people thought the boy could save them, so they opened their gates and sent him out into the world. To where the monsters lived.

The Road Cormac McCarthy,2007-03-20 WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful (San Francisco Chronicle). • From the bestselling author of The Passenger A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, each the other's world entire, are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, The Passenger and Stella Maris.

What We Owe the Future William MacAskill,2022-08-16 An Instant New York Times Bestseller “This book will change your sense of how grand the sweep of human history could be, where you fit into it, and how much you could do to change it for the better. It's as simple, and as ambitious, as that.” —Ezra Klein An Oxford philosopher makes the case for “longtermism” — that positively influencing the long-term future is a key moral priority of our time. The fate of the world is in our hands. Humanity’s written history spans only five thousand years. Our yet-unwritten future could last for millions more — or it could end tomorrow. Astonishing numbers of people could lead lives of great happiness or unimaginable suffering, or never live at all, depending on what we choose to do today. In What We Owe The Future, philosopher William MacAskill argues for longtermism, that idea that positively influencing the distant future is a key moral priority of our time. From this perspective, it’s not enough to reverse climate change or avert the next pandemic. We must ensure that civilization would rebound if it collapsed; counter the end of moral progress; and prepare for a planet where the smartest beings are digital, not human. If we make wise choices today, our grandchildren’s grandchildren will thrive, knowing we did everything we could to give them a world full of justice, hope and beauty.

The Art of Studio Gainax Dani Cavallaro,2015-01-27 Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre-straddling, self-reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio’s achievements provides a critical overview of both the company and its films: in-depth examinations of particular titles that best represent the company’s overall work, including television series such as Nadia: The Secret of Blue Water and Neon Genesis Evangelion, and feature films such as Royal Space Force: The Wings of Honneamise and Gunbuster vs. Diebuster. Each chapter highlights the contribution made by a specific production to the company’s progress.
