*Jesus and the Lost Goddess* Timothy Freke, Peter Gandy, 2011-08-10 Why Were the Teachings of the Original Christians Brutally Suppressed by the Roman Church? • Because they portray Jesus and Mary Magdalene as mythic figures based on the Pagan Godman and Goddess • Because they show that the gospel story is a spiritual allegory encapsulating a profound philosophy that leads to mythical enlightenment • Because they have the power to turn the world inside out and transform life into an exploration of consciousness Drawing on modern scholarship, the authors of the international bestseller *The Jesus Mysteries* decode the secret teachings of the original Christians for the first time in almost two millennia and theorize about who the original Christians really were and what they actually taught. In addition, the book explores the many myths of Jesus and the Goddess and unlocks the lost secret teachings of Christian mysticism, which promise happiness and immortality to those who attain the state of Gnosis, or enlightenment. This daring and controversial book recovers the ancient wisdom of the original Christians and demonstrates its relevance to us today.

**Haindl Tarot, Minor Arcana, Rev Ed** Rachel Pollack, 2002 Describes each card of the Minor Arcana in great detail, lists all of its symbolic structures, and describes the card's spiritual meaning as well as the way these meanings appear in readings.

**The Jesus Mysteries** Timothy Freke, Peter Gandy, 2001-12-18 Drawing on the cutting edge of modern scholarship, this astonishing book completely undermines the traditional history of Christianity that has been perpetuated for centuries by the Church and presents overwhelming evidence that the Jesus of the New Testament is a mythical figure. "Whether you conclude that this

book is the most alarming heresy of the millennium or the mother of all revelations, The Jesus Mysteries deserves to be read.” —Fort Worth Star-Telegram Far from being eyewitness accounts, as is traditionally held, the Gospels are actually Jewish adaptations of ancient Pagan myths of the dying and resurrecting godman Osiris-Dionysus. The supernatural story of Jesus is not the history of a miraculous Messiah but a carefully crafted spiritual allegory designed to guide initiates on a journey of mystical discovery. A little more than a century ago, most people believed that the strange story of Adam and Eve was history; today it is understood to be a myth. Within a few decades, authors Timothy Freke and Peter Gandy argue, we will likewise be amazed that the fabulous story of God incarnate—who was born of a virgin, who turned water into wine, and who rose from the dead—could have been interpreted as anything but a profound parable.

With illustrations from the Universal Waite deck, the book offers 78 engaging casebook examples (one for each card) from Quinn's readings for clients. Drawing on Jungian psychology, the Hindu chakras, and other esoteric traditions, he explains how the Tarot can reveal unconscious patterns and offer soul-directed advice leading to positive changes and greater well-being. Quinn also provides guidelines on reading the cards for oneself and others, interpreting reversed cards, handling difficult disclosures, and psychic self-care.

Linda Goodman's Sun Signs Linda Goodman, 2014-01-09 The New York

Times-bestselling author's classic guide to astrology: "What makes Sun Signs different is that much of the writing is done with humor" (The Boston Globe). Before 1968, astrology as we know it had a very limited following in the United States and around the world. The publication of Linda Goodman's Sun Signs changed that forever. Newspapers began running astrology columns, and soon, an increasing number of people knew their sign (as well as yours) and began to study astrological tendencies. Linda Goodman's Sun Signs quickly established itself as the worldwide introductory bible to astrology for beginner and expert alike. The book's simple organizational technique made it easy for everyone to follow and understand themselves and others, sign-by-sign. This updated edition of the groundbreaking classic is an enjoyable way to discover the world of astrology today.

CIA Lock Picking Central Intelligence Agency, 2015-12-31 There has been much opinion and little fact written on the subject of lock picking. It is the purpose of this book to clarify the facts about this delicate process, and at the same time to train you in proper procedure. Reading this book is certainly enough to get you started picking simple locks, but remember: a great deal of time and patience are needed to become a truly proficient locksmith. In this volume, you will learn the fundamental theories of lock picking in addition to proper terminology, the importance of tool design (i.e. how to select and use the right tool for a given job), the effects of

tolerances, and finally the techniques most commonly used by locksmiths to successfully pick the vast majority of standard pin and wafer tumbler locks. Lock picking is a useful, engaging, and satisfying skill; with this book and a little determination, you'll be off to a great start.
