Galactic Warriors James Floyd, 2011-07-01 The Galactic warriors are a young intergalactic group that stands between freedom and destruction against the mighty Neptonian empire. After 10 years of peace, it's rumored that the Neptonians are preparing to battle the one planet that defeated them during the Galactic wars. Totally outmanned and overmatched can the Galactic Warriors of Nebulan protect the last remaining independent planet in the Zartonian solar system? This will be a battle of spiritual, physical, and emotional proportions. This will test the very character of our Galactic Warriors.

**The Aleph Extraction** Dan Moren, 2020-05-12 Aboard a notorious criminal syndicate's luxurious starliner, Commonwealth operative Simon Kovalic and his crew race to steal a mysterious artifact that could shift the balance of war... Still reeling from a former teammate's betrayal, Commonwealth operative Simon Kovalic and his band of misfit spies have no time to catch their breath before being sent on another impossible mission: to pull off the daring heist of a quasi-mythical alien artifact, right out from under the nose of the galaxy's most ruthless crime lord. But their cold war rivals, the Illyrican Empire, want the artifact for themselves. And Kovalic's newest recruit, Specialist Addy Sayers, is a volatile ex-con with a mean hair-trigger who might put the whole mission at risk. Can Kovalic hold it all together, or will the team tear themselves apart before they can finish the job? File Under: Science Fiction [ Simon Saves | 2.7 Kelvin | Spy-Fi | Kovalic's Five ]

**RISE OF THE HUMAN ANDROIDS** Malcolm P. Chester, 2014 In this sequel to the Rise of the Human Androids, lizard like aliens called the Sharptors have perfected high-energy shields for hyperspace travel and begun exploring the galaxy. Meanwhile, James decides to not run for re-election for President of Mars. He plans instead to search the galaxy for old ones technology in a heavy cruiser with a supergun named after his wife. His wife and two children will join him on this journey. Susan, Mars' Secretary of State and former President of the U.S. will run for James' spot and James' adopted human android daughter Martha will run for vice-president. James' actions are motivated by the re-emergence of Ergone as the Marshall of the powerful and independent Altarian military. James knows Ergone wants to avenge his loss to Mars and Earth in their last war. James fears the Altarians with their vastly superior forces will crush Mars if he can't find advanced technology to stop them. In a chance meeting, James encounters the Sharptors while looking at a promising planet for exploration. A fight breaks out. James wins the encounter but the Sharptor warship escapes. Still, a plan begins to

emerge in James' mind of how to use the aggressive new aliens against the Altararians. Meanwhile James and his associates explore an old ones site on their promising new earth like world Sisney 1. They must battle a super aggressive mammal the Ratang and insect the Botos, which have stripped Sisney 1 of almost all of its land animal life as they explore the site. They find new technology at the site, which they plan to use against the Altararians. Meanwhile a secret organization called the Committee, which has controlled many economic events on Earth, finds it difficult to control Mars and its allied planets. As a result, to make themselves relevant in the changing world around them, they join with bigoted groups on Mars and Ganymede and in a secret deal with the Altararians to sabotage Mars efforts to arm itself against the expected Altararian invasion. Many characters on Earth, Mars and Ganymede battle this super secret group in their efforts to prepare Mars for the Altararian invasion. All these forces clash as Mars struggles to survive its confrontation with the Altararians and preserve its Utopian World of human androids and human immigrants.

*Galactic Outlaws* Nick Cole, Jason Anspach, 2017-07-10 A long, long time from now, at the edge of the galaxy... Seven years after the Battle of Kublar: A young girl searches the crime-ridden gutters of a seedy starport for a hero to avenge her father's murder. A short jump away, a double-dealing legionnaire-turned-smuggler navigates a treacherous course past Republic lackeys and wanton space pirates in search of an epic payday. And somewhere along the galaxy's edge, a mysterious bounty hunter waits... for redemption? Or revenge? The voices in his head won't say which. It's sleek starfighters, exotic aliens, loyal bots, blasters, scoundrels, heroes, and powerful enemies in a thrilling adventure that will take you back to that magic place from a long time ago...

**Relic Tech** Terry W. Ervin II, 2018-07-11 The Silicate War has been over for fifteen years, and the tension among the dominant galactic races is growing. Many fear that the Umblegarri, the ancient

alien race that ushered humanity into the interstellar galactic community during the Silicate War, have been targeted for conquest by the Crax and their allies. It's no longer speculation. The invasion is underway and Kra finds himself strapped to a hospital bed, critically injured and surrounded by hostile corporate lawyers, high ranking military and intelligence officials, ambitious members of the criminal justice apparatus, and an Umbelgarri diplomat. All are demanding answers or their pound of flesh. Krakista Keesay, a Class 4 Security Specialist, doesn't have the answers they demand. Why did he sabotage a top secret research facility? What was he doing on a quarantined planet? Why did he set up the civil transport Kalavar for destruction? Is that all? Not even close. Kra turns to his only option: Allow his brain to be hooked up to an experimental device so that he might prove his innocence. Or lose his mind.

**The Alphanaut and the Moon Rings** Frederick Fritz, Dale Abbit, 2000-04 The Alphanaut and the Moon Rings takes place in the year 2165. Then Kip DuParc is a 17-year-old Alphanaut genetically optimized to explore the planets of the star Alpha Centauri to find a place to expand human habitation. He has been raised and trained at the Galactic Academy. A policy of isolation from outside ties intends to avoid emotional separations from family and loved ones when Alphanauts leave on centuries-long missions. The Galactic Academy commandant violates the isolation policy by sending Kip to lecture at a nearby high school. There he meets junior student Ginger Hone. Kip discovers a plan to ease the earth's overpopulation problem by using moon material to build human habitations in rings around the earth. Kip wants to work on it. The Galactic Academy leaders oppose building the rings because it would make the mission to find a habitable planet near Alpha Centauri unnecessary and try to prevent Kip from working on it. Ginger and Kip together find support for the ring plan from an industrialist and a political leader. Kip and Ginger become kidnap victims when a clan of

international gangsters wishing to improve the clan's bloodline seeks two genetically superior Alphanauts. They finally escape with the help of some friendly space beings and their flying vehicles.

*Galactic Chronicles* Steven Andreasen, 2006-09-13 Long into the future, war covers the Galaxy. Two powerful empires, the Apainian and Demonina, fight for supremacy over one another. The conflict reaches a backwater world where an ancient enemy re-emerges to fulfill its dark destiny. Unwilling to stop until all life has been cleansed from the galaxy. Quickly, events spiral out of control. Every being from leaders to criminals fight to hold back the coming onslaught. Star battles rage in order to end the evil and win a war that has endured for years.

*Ancient Designs* Richard Hage, 2004-02 Jareth Sykr, President and technical lead of Sykrcorp, is a lone technological visionary in a galaxy of technological stagnation and industrial ruin. The Society for Ethical Development, led by anti-technology zealots since its inception following the past great galactic war, has ensured that the galactic infrastructure and will to conceive and implement technology has been lost to the past. Jareth Sykr has forsaken the ways of the Society and seeks to recover and understand lost ancient technology. He and his team of archeo-technologists and engineers uncover lost technologies from across the span of ages and space. Galactic clients increasingly see the benefits of his recovered and re-engineered technologies, and Sykrcorp grows as an increasing threat to the power of the Society. Society supported assassins and mercenaries seek to destroy Jareth and his corporation before they can further corrupt the galaxy. As the galaxy struggles with its stagnation, an overwhelming threat rains down upon it from across the extra-galactic void. A galactic emperor, unsatisfied with his domain, leads his armada of planet-ships to capture the ill-prepared galaxy, which is a realm he finds more to his liking.

*Beyond the Galactic Rim* A. Bertram Chandler, 2015-11-26 A journey to the Rim Worlds takes you

straight to the edge of the unknown or right to the gaping void of the abyss. Out there you're beyond the borders, hovering between the warped contours of troubled space and time... Captain Clavering bought his ship on a lottery win. Now he's holed up on the dismal planet of Lorn filling in the time on a chemical-blasted airstrip waiting for a contract. Somewhere there must be a newly colonized planet needing charters or some threatened world that needs evacuating. He'd risk anything for money in the bank - even a dodgy landing on the gas-blasted plains of Eblis, if the Rim Runners fancy paying hard cash for an expedition to hell...

**Galactic Patrol** E. E. "Doc" Smith, 2018-05-10 The space-pirates of Boskone raided at will, menacing the whole structure of interstellar civilization. Master-minded by a super-scientist, their conquering fleets outgunned even the mighty space cruisers of the Galactic Patrol. When Lensman Kim Kinnison of the Patrol discovered the secret Boskonian base, it was invulnerable to outside attack. But where a battle-fleet would meet insuperable resistance, a single infiltrator might penetrate the Boskonian defenses - if he had the guts to take on million-to-one odds. Kinnison had guts enough to take on the odds - even with the future of the civilized Universe riding on his shoulders.
