It explores current trends in sport and examines complex connections between sport and politics, economics, religion,

race, gender, youth, and more. Author Ronald Woods draws on his experience of more than 40 years as a professor, coach, and sport administrator to explore modern sport from historical and cultural perspectives. New coauthor B. Nalani Butler offers a fresh perspective to the study of sport from an emerging generation of Black female scholars. She draws on her background as an athlete and professor, and leverages her international experience from working with the Center for Sport, Peace and Society and the International Olympic Academy (IOA). The text's presentation style, full-color design, and ample learning tools are designed to keep students engaged. *Social Issues in Sport, Fourth Edition*, addresses the Common Professional Component topics outlined by the Commission on Sport Management Accreditation (COSMA). Vries, 2021 This Open Access book from the Netherlands Scientific Council for Government Policy explains how money creation and banking works, describes the main problems of the current monetary and

financial system and discusses several reform options. This book systematically evaluates proposals for fundamental monetary reform, including ideas to separate money and credit by breaking up banks, introducing a central bank digital currency, and introducing public payment banks. By drawing on these plans, the authors suggest several concrete reforms to the current banking system with the aim to ensure that the monetary system remains stable, contributes to the Dutch economy, fairly distributes benefits, costs and risks, and enjoys public legitimacy. This systematic approach, and the accessible way in which the book is written, allows specialized and non-specialised readers to understand the intricacies of money, banking, monetary reform and financial innovation, far beyond the Dutch context [Resumen de la editorial]
