*The Syntax of Ellipsis* Jeroen Van Craenenbroeck,2010-02-22 The Syntax of Ellipsis investigates a number of elliptical constructions found in Dutch dialects within the framework of the Minimalist Program. Using two case studies, Van Craenenbroeck argues that both the PF-deletion and the pro-theory of ellipsis are needed to account for the full range of elliptical phenomena attested in natural language. The first case study focuses on instances of stranding to the right of a sluiced wh-phrase: prepositions in English (What about?) and demonstrative pronouns in southern Dutch dialects (Wie dat? 'who that'). Van Craenenbroeck gives both of these phenomena a PF-deletion analysis, which turns out to have considerable repercussions for the structure of the left periphery and the syntax of wh-movement. Specifically, while minimal wh-phrases move from their IP-internal base position to specCP, complex ones are base-generated in the (split) left periphery. The second case study is concerned with Short Do Replies in southern Dutch dialects, a type of contradictory reply that at first sight bears a close resemblance to English VP-ellipsis. Van Craenenbroeck shows that in this case the ellipsis site is best represented as a null, structureless proform that is licensed by the head of a high PolP. Moreover, this pronominal is argued to occur in two other dialectal constructions as well: contradictory replies of the type Da's nie 'that is not' found in Brabant Dutch, and the occurrence of subject clitics and agreement endings on the words for yes and no in Southern Dutch dialects (e.g. Ja-n-s 'yes-PLURAL-they'). The Syntax of Ellipsis will be of interest to scholars of the left periphery, wh-movement, and Dutch dialects.

**Los Angeles Times Crosswords 14** Rich Norris,2007 Another great book of puzzle-solving challenges at a popular price! **My Pilgrim's Progress** George W.S. Trow,2010-10-20 In My Pilgrim's Progress, George W. S. Trow gives us a brilliantly original and provocative look at what's happened to America in our time -- a guided tour of the media, the politics, and the personalities of the last half-century by one of our most persuasive social critics. This new book by the author of Within the Context of No Context might be subtitled A son of Roosevelt reads newspapers, goes to the movies, watches television, and tells us how 1950 got to be 1998. Trow takes 1950 as the year the Old World gave way to the New: Winston Churchill had just been named The Man of the Half-Century by Time magazine; George Bernard Shaw was still alive, and so was William Randolph Hearst. But before the next half-decade was out, the world represented by these powerful old men had disappeared. To illustrate his points, Trow takes the reader on a roller-coaster ride through the New York Times of February 1950, from the thundering front pages where the terror of the H-bomb is making its first appearance to the early, sketchy, amateur television listings. He finds a piece of Television Personality Reportage in the paper -

- a kind of proto-People magazine profile -- of the TV hostess and guest Faye Emerson, and notes: As to World War II, the Germans lost, and Faye Emerson won. The son of a tabloid journalist from an old New York brownstone family, Trow was brought up in the Deepest Roosevelt Aesthetic -- half FDR and half Walter Winchell. But he soon succumbed to the spell of Dwight David Eisenhower and the extraordinary/ordinary qualities of Ike's era. It is the thrust of Trow's book that both the Roosevelt authority and the Ike decencies are completely gone -- and where are they now that we need them more than ever?

Ranging across programmes such as Double Your Money, The \$64,000 Dollar Question, Twenty-One, The Price is Right, Who Wants to be a Millionaire and The Weakest Link to the controversial 'Quiz TV Call' phenomenon, the book explores programmes with a focus on question and answer. Topics covered include the relationship between quiz shows and television genre; the early broadcast history of the quiz show; questions of institutional regulation; quiz show aesthetics; the social significance of 'games'; 'ordinary' people as television performers, and questions of quiz show reception (from interactivity to on-line fandom). Key Features\*Represents one of few book-length studies of the quiz show\*Offers an accessible introduction to the genre for undergraduate students\*Draws upon new archival research in order to contribute to knowledge about the early history of the quiz show\*Demonstrates why the quiz show matters to Television Studies\*Brings together key approaches in the field with new interventions and areas of study (such as the quiz show in the multi-platform age, and the study of 'ordinary' people as performers).

*Personality Presenters* Frances Bonner,2016-05-06 Television presenters are key to the sociability of the medium, speaking directly to viewers as intermediaries between audiences and those who are interviewed, perform or compete on screen. As targets of both great affection and derision from viewers and the subjects of radio, internet, magazine and newspaper coverage, many have careers that have lasted almost as long as post-war television itself. Nevertheless, as a profession, television presenting has received little scholarly attention. Personality Presenters explores the role of the television presenter, analysing the distinct skills possessed by different categories of host and the expectations and difficulties that exist with

regard to the promotion of the various films, books, consumer and cultural products with which they are associated. The close involvement of presenters with the content that they present is examined, while the impact of the presenters' own celebrity on the tasks that they perform is scrutinised. With a focus on non-fiction entertainment shows such as game shows, lifestyle and reality shows, chat, daytime and talk shows, this book explores issues of consumer culture, advertising and celebrity, as well as the connection of presenters with ethical issues. Offering detailed case studies of internationally recognised presenters, as well comparisons between national presenters from the UK and Australia, *Personality Presenters* provides a rich discussion of television presenters as significant conduits in the movement of ideas. As such, it will appeal to sociologists as well as those working in the fields of popular culture, cultural and media studies and cultural theory.
