Hardcore Gaming 101 Presents: Japanese Video Game Obscurities Kurt Kalata, 2019-11-14 Japan has produced thousands of intriguing video games. But not all of them were released outside of the country, especially not in the 1980s and 90s. While a few of these titles have since been documented by the English-speaking video game community, a huge proportion of this output is unknown beyond Japan (and even, in some cases, within it). *Hardcore Gaming 101 Presents: Japanese Video Game Obscurities* seeks to catalogue many of these titles – games that are weird, compelling, cool or historically important. The selections represent a large number of genres – platformers, shoot-em-ups, role-playing games, adventure games – across nearly four

decades of gaming on arcade, computer and console platforms. Featuring the work of giants like Nintendo, Sega, Namco and Konami alongside that of long-forgotten developers and publishers, even those well versed in Japanese gaming culture are bound to learn something new.

Carbyne Jungle Mike Dumas, Nick Eliopoulos, Chance Holzwart, 2019-10-19 Set thousands of years into a distant future, Carbyne Jungle combines elements of Fantasy, Sci-Fi, Noir, and Horror, into a rich gaming experience. Built on the Tri-Forge Engine, Carbyne Jungle has three styles of gameplay, customizable for beginners through advanced players, so whoever is at the table can jump into the game. The setting is both in-depth and flexible allowing A GM to dive right into the universe, forge their own world, or anywhere in between. With phenomenal battles, meaningful non-combat conflicts, and an incredibly flexible advancement system, Carbyne Jungle is the game you've been waiting for. NCM took every RPG we loved, tore them down to the bones, and looked at what was essential for a great gaming experience. We didn't want to carry an aspect over just because it was traditional, but we also didn't want to throw out a common game facet just to be different. So we started with a skeleton of what makes a great gaming experience, added some muscle, fashion sense, hardware, topped it off with a half psychotic personality and threw the switch. We built 3 styles of gameplay into our game engine: Basic, Standard, and Advanced? that can all be played simultaneously IN THE SAME GAME. A player joining their first game ever can use a sample character or use the quick character creation options to make a character in under 10 minutes, and then jump into the game. Levels are replaced with a fluid system. As your character grows, you don't have to shoe-horn them into a specific mold. After each session, your character will earn one or more advancement points that can be spent to upgrade your character...however you want. Unstoppable Juggernaut? Go for it. Glass Cannon? Sure. Skill based character? Feel free. You decide what you want your character to be. This is Carbyne Jungle

250 Indie Games You Must Play Mike Rose, 2011-05-02 With a surge in

popularity recently and an increase in great downloadable games, there has never been a better time to learn about independent indie games. 250 Indie Games You Must Play is a guide to the exciting and expanding world of indie gaming. Whether you are a veteran of the indie game scene or have never played an indie game before, this book helps you experience the best in indie gaming and further your understanding of why indie games are so important in the entertainment industry. The wide range of games highlighted in the text encompasses concepts and ideas that will change your perspective of what video games can be. The book covers puzzlers, platformers, beat 'em ups, shoot 'em ups, role-playing, and strategy. Apart from being fun, indie games can be experimental, emotional, nostalgic, and occasionally just plain bizarre. Some make you sit back in awe, while others have you thinking, Why have I never played a game like this before? Better still, the majority of these games are completely free to play and even the commercial releases are incredibly cheap. Once you start playing indie games, you may not be able to look at your big-budget blockbusters the same way ever again.

All Your Base Are Belong to Us Harold Goldberg, 2011-04-05 Through the stories of gaming's greatest innovations and most beloved creations, journalist Harold Goldberg captures the creativity, controversy--and passion--behind the videogame's meteoric rise to the top of the pop-culture pantheon. Over the last fifty years, video games have grown from curiosities to fads to trends to one of the world's most popular forms of mass entertainment. But as the gaming industry grows in numerous directions and everyone talks about the advance of the moment, few explore and seek to understand the forces behind this profound evolution. How did we get from Space Invaders to Grand Theft Auto? How exactly did gaming become a \$50 billion industry and a dominant pop culture form? What are the stories, the people, the innovations, and the fascinations behind this incredible growth? Through extensive interviews with gaming's greatest innovators, both its icons and those unfairly forgotten by history, All Your Base Are Belong To Us sets out to answer these questions, exposing the creativity, odd theories--and passion--behind the twenty-first century's fastest-growing medium. Go inside the creation of: Grand Theft Auto * World of Warcraft * Bioshock * Kings Quest * Bejeweled * Madden Football * Super Mario Brothers * Myst * Pong * Donkey Kong * Crash Bandicoot * The 7th Guest * Tetris * Shadow Complex * Everquest * The Sims * And many more!
