Vegetable Growing Month-by-Month John Harrison,2009-06-01 Whatever the size of your garden or allotment, you can grow your own vegetables. Even if you only have a balcony or a small paved area outside your kitchen, you can grow more than you ever thought possible in pots, containers and raised beds. Experienced vegetable grower John Harrison takes you through the entire vegetable year so that, for all the main vegetables, you'll know exactly when you should sow your seeds, dig your plot and harvest your crops. Choose the most appropriate vegetables for your particular soil and select the right position so that they flourish. Discover how to make your own compost and organic fertilisers, as well as the best methods of controlling pests. Find out how to extend the season by buying or building your own cloches and cold frames. Put an end to worries that your shop-bought vegetables contain chemical residues or to concerns about the air miles such vegetables have flown en route to your table!

Antique Garden Tools and Accessories Myra Yellin Outwater,2004-06 In thousands of years of tilling the soil, we have created a great variety of garden tools to dig, cut scrub, harrow fields, and trim borders. What makes the tools unique, and collectible, is the way function has dictated form, resulting in not only ingenious shapes, but artistic ones. In the 19th and early 20th centuries garden tool catalogues listed hundreds of task-specific tools including dibbers, mattocks, potato hoes, onion hoes, daisy grubbers, claws, weeders, forcers, straighteners, garden row markers, garden reels, rakes, watering cans, water tanks, lawn mowers, lawn rollers, weed whackers, and many more. This book looks back at two hundred years of garden history, and attempts to identify the tools and accessories that gardeners used, and as much as possible identify their specific functions. With over 750 colour photographs, concise captions, and a guide to prices in today's antique marketplace, this is a useful as well as beautiful exploration of garden implements.
