**Matt Elledge Collection**

The Ultimate Garden Organizer JMJ Publishing, 2004 This is not a how to book. This is all about the plants in your garden. This 3-ring organizer gives gardeners a place to record important information about their garden. The key feature is the Plant Profile section that gives the gardener a place to attach their plant tags and record important information regarding their plants, such as when to fertilize, prune, deadhead, etc. There is a 12-month calendar and to do list to record when to perform these activities. There are several organizational templates to use in this book such as a place to record what products worked and didn't work, and what replacement parts you need for your sprinkler system and where you purchased them.
