R. Thomas Ferguson

Penis Enlargement Doctor Enlargement,2016-12-22 Many men are self conscious about the size of their sex organ whether that concern is merited or not. Thanks to the popularity of adult entertainment, the pressure on them to measure up is enough to make many men worry, whether that concern is justified or not. This book attempts to wade through the snake oil and sales talk to help the reader learn more about how to safely and practically improve the length and girth of his penis. It's a complex and emotional subject. Let's face it, when the term Penis Envy practically makes up its own category of a field like psychology, you can tell it's a big deal. It's also an area filled with misconceptions, bad influences, and ego concerns. Quite a few less than scrupulous businesses have taken advantage of this to come up with all sorts of dubious answers for this issue. For a woman who desires bigger breasts, there are several easy (although not necessarily cheap) solutions. Whether it be a bra that maximizes their assets or surgical implants, a woman can make her choice and expect success. No such option exists for men. Even the few surgical solutions that are out there are dubious, and risky. - Learn how to avoid impotence - Enlarge your penis safely - The truth about penis pills - Learn about the benefits of a bigger penis - Proven natural enlargement methods explained - Working penis enlargement techniques - How to increase your size over the next few months There are safe, effective ways of improving your penis size and also your erections. They may not promise huge results or overnight improvement, but they also aren't snake oil. In at least a few examples in this book, there is no need to spend money or provide a credit card either. The reader is provided a wide selection of options along with an honest assessment as to the effectiveness, cost, and risk of a particular approach. There is a section of this book that will help the reader learn all about exercises to improve their size. Another chapter is devoted to devices that can help you increase your size. - Get your bigger penis now - Avoid impotence - Educate yourself about the best natural enlargement methods - Enlarge your penis with proven and safe steps You can also learn how changing your diet and adding certain supplements can work with other solutions to give you the best possible results. There is also a section on drugs that can also help make the penis bigger and provide better erections. The reader will also get advice on how to avoid the snake oil and other dubious solutions. Here he will get the best possible advice on how to deal with this issue. There is also information about supplements and nutrition that can help boost your size and improve your erections. The book also covers what devices actually help and whether they are short term or long term solutions. You will learn about: - Penis Pills - How to get a bigger penis - How to avoid impotence - How Natural Enlargement works - How to really enlarge your penis - The best penis enlargement techniques - how to increase your size right now You can expect good results from the information in this book. Start your journey now: - Start to increase your size - Learn the best penis enlargement techniques - Enlarge your penis without the need of penis pills Enlarge your penis now!

How To Grow Your Penis Daniel D'apollonio,2016-12-20 This book has lots of actionable techniques on how to naturally increase the size and girth of your penis with no equipment. This might sound unpleasant but it's a fact: We are living in a masculine world. We are living in a world that is idolizing masculine values- even our own language indirectly conveys this fact. Many words and expressions such as man up that mean be strong/brave assert (though indirectly) how the world views masculinity. Among other issues such as general body physique, you'll find that most men actually care so much about improving sexual performance- they want to have longer sex and protect their masculine image in this respect and if they think the penis size is the deterrent, it can lead to stress and anxiety if there is no available, working solution. I believe this is only a natural response to the expectations of the world we live in and the societal demands we cannot escape from. Think about it; most women wouldn't want to give you any hope of having sex with you if they think you are not just 'gifted' down there. If you have a small penis, perhaps showering with men around you will constantly remind you of how lacking you are in that area of your life irrespective of how successful you are in other spheres of life. Obviously, your ego will be constantly bruised when the topic of penis sizes, sex and related topics come up. And even when you go to urinals and other men who are 'gifted' well don't shy from holding theirs with pride for anyone who cares to look to see it, you will constantly feel bad about yourself and how lacking you are. Your self-confidence and self-esteem takes a nosedive, which subsequently affects other aspects of your life. If you are tired of being shy about your small penis and perhaps have experienced any of the problems above, let this book be the beginning of the end of your silent suffering. With this book, I'll be focusing on the 'member'. Do you have doubts about your penis size? If your answer is a sorry 'yes', don't worry; I will teach you how you make your penis larger (in girth and length) to change how you feel and think about yourself completely for the better, the natural way i.e. no tools/equipment needed!

Penis Size and Enlargement Gary M. Griffin,Gary Rheinschild,1995 Is it really possible to enlarge your penis? The answer may surprise you. Gardens of the Roman Empire Wilhelmina F. Jashemski,Kathryn L. Gleason,Kim J. Hartswick,Amina-Aïcha Malek,2017-12-28 In Gardens of the Roman Empire, the pioneering archaeologist Wilhelmina F. Despite popular belief, more than 1.3 million men have already learned the truth: The penis, like other muscles, is shapeable through exercises. For the first time ever, this book shows how you can: . Increase your penis size. Yield harder, stronger, and longer-lasting erections. (In one study, penis exercises improved erection strength just as much as erection drugs.) . Overcome premature ejaculation and have multiple orgasms. (A strong pelvic region built through penis exercising gives men control of their ejaculations.) . Endure dozens of other benefits.
