Fuel Efficient Vehicles Montuk Atrib,2021 The cost of gas is more now than it has ever been. In many locations people are paying twice as much per gallon as they were two years ago. There is information circulating in the news and online that the prices are just going to continue to get higher. This has many consumers very concerned as they don't know what they should do. Certainly they can't afford to continue just paying the posted price at the pumps. Yet they can't stop going to work or about their daily routine that requires them to use a vehicle. A good strategy that many people are leaning towards more and more is more fuel efficient vehicles. These can get you where you need to go with less gas being used. Of course you want to be able to do so comfortably and safely as well as saving money. You have several options when it comes to fuel efficient vehicles so take your time to evaluate them and make a good choice. You may find a combination of them is the way to go. For example a motorcycle to get to work and then a fuel efficient hybrid car for the family to get around in. Consumers Need More Reliable Automobile Fuel Economy Data United States. General Accounting Office,1981 Every new automobile sold in the United States has a label showing its tested fuel economy. In addition, all fuel economy test results are published annually to encourage the production and purchase of more fuel-efficient automobiles. Consumers are skeptical,

however, because their on-road experience often falls far short of the tested mileage figures.
