Embodying Transnational Yoga Christopher Jain Miller, 2023-10-13 *Embodying Transnational Yoga* is a refreshingly original, multi-sited ethnography of transnational yoga that obliges us to look beyond postural practice (āsana) in modern yoga research. The book introduces readers to three alternative, understudied categories of transnational yoga practice which include food, music, and breathing. Studying these categories of embodied practice using interdisciplinary methods reveals transformative “engaged alchemies” that have been extensively deployed by contemporary disseminators of yoga. Readers will encounter how South Asian dietary regimens, musical practices, and breathing techniques have been adapted into contemporaneous worlds of yoga practice both within, but also beyond, the Indian Ocean rim. The book brings the field of Modern Yoga Studies into productive dialogue with the fields of Indian Ocean Studies, Embodiment Studies, Food Studies, Ethnomusicology, and Pollution Studies. It will also be a valuable resource for both scholarly work and for teaching in the fields of Religious Studies, Anthropology, and South Asian Religions.
