Keep Me Safe Maya Banks,2014-10-07 A sizzling story of a woman who risks her life and her heart to find a wealthy man's missing sister—the first novel in a sexy new romantic suspense series from #1 New York Times bestselling author Maya Banks When Caleb Devereaux's younger sister is kidnapped, this scion of a powerful and wealthy family turns to an unlikely source for help: a beautiful and sensitive woman with a gift for finding answers others cannot. While Ramie can connect to victims and locate them by feeling their pain, her ability comes with a price. Every time she uses it, it costs her a piece of herself. Helping the infuriatingly attractive and impatient Caleb successfully find his sister nearly destroys her. Even though his sexual intensity draws her like a magnet, she needs to get as far away from him as she can. Deeply remorseful for the pain he's caused, Caleb is determined to make things right. But just when he thinks Ramie's vanished forever, she reappears. She's in trouble and she needs his help. Now, Caleb will do risk everything to protect her—including his heart. . . .

Failure of Materials in Mechanical Design Jack A. Collins,1993-10-06 Failure of Materials in Mechanical Design: Analysis, Prediction, Prevention, 2nd Edition, covers the basic principles of failure of metallic and non-metallic materials in mechanical design applications. Updated to include new developments on fracture mechanics, including both linear-elastic and elastic-plastic mechanics. Contains new material on strain and crack development and behavior. Start Concurrent Barry Wittman,Aditya Mathur,Tim Korb,2013-12-31 Multicore microprocessors are now at the heart of nearly all desktop and laptop computers. While these chips offer exciting opportunities for the creation of newer and faster applications, they also challenge students and educators. How can the new generation of computer scientists growing up with multicore chips learn to program applications that exploit this latent processing power? This unique book is an attempt to introduce concurrent programming to first-year computer science students, much earlier than most competing products. This book assumes no programming background but offers a broad coverage of Java. It includes over 150 numbered and numerous inline examples as well as more than 300 exercises categorized as conceptual, programming, and experiments. The problem-oriented approach presents a problem, explains supporting concepts, outlines necessary syntax, and finally provides its solution. All programs in the book are available for download and experimentation. A substantial index of at least 5000 entries makes it easy for readers to locate relevant information. In a fast-changing field, this book is continually updated and refined. The 2014 version is the seventh draft edition of this volume, and features numerous revisions based on student feedback. A list of errata for this version can be found on the Purdue University Department of Computer Science website.

Against Football Steve Almond,2014 With American Football becoming an increasingly popular sport in the UK, concerns are also being raised about the health impact the sport can have on players. The scary facts about American football causing brain injury have become a hot topic in the media, especially as the same worries are surfacing for other full contact sports such as rugby. Steve Almond was a keen American football fan, but, in light of recent scientific studies about the prevalence of injuries within the sport has slowly turned against the game.

Baderech Rabbi Judah Mischel,2021-09-07 Embark on a path of teshuvah... בדרך, a path toward greater self-actualization, joy, and faith is one that brings us closer to the source of light within, our neshamah, our soul. With every step of this journey, we uncover more and more of who we are and what we can be. בדרך, on this path, we discover the great treasures that lie within: our abilities, potential, strengths, and essential holiness. בדרך, with Reb Zusha of Anipoli... The beloved tzaddik Reb Zusha was an embodiment of unassuming righteousness, sincerity, and down-to-earth holiness, who revealed a derech of teshuvah — a systematic path of “return.” Rooted in positivity, Reb Zusha’s real-world advice empowers us to advance personally and spiritually. Danger, Memory! Arthur Miller,1987 THE STORIES: The first play, I CAN'T REMEMBER ANYTHING, is a gentle, poignant study of two old friends, an elderly man and woman, who live in nearby houses and often take their meals together. She is a wealthy widow whose life seems to have come to a stop

Unfinished Message Toshio Mori,2000 Born in Oakland, California, in 1910, the young Toshio Mori dreamed of being an artist, a Buddhist missionary, and a baseball player. Instead, he grew flowers in the family nursery business, and -- influenced by contemporaries such as Sherwood Anderson and Ernest Hemingway -- produced a body of extraordinary fiction. *Unfinished Message* includes fifteen stories, a novella, correspondence, and an interview with Toshio Mori.

The Taxing Power Erik M. Jensen,2005-01-30 The U.S. Constitution contains several limitations on the national taxing power. These limitations are almost always ignored due to the assumption that Congress is unconstrained in imposing taxes. The Taxing Power proves that assumption faulty by illustrating the importance of such limitations as the uniformity

rule, the direct-tax apportionment rule, and the Export Clause. By looking at the historical origins of these limitations, Jensen argues that they are essential parts of the Constitution and should be taken seriously, as the founders intended. This full-scale treatment of the subject is a timely reminder that the national taxing power is not absolute. In the last decade the Supreme Court has begun to see the Export Clause as an important factor in taxation. This has opened the door for other limitations to be considered, making this work of utmost importance in the study of taxation.

Eldorado Bayard Taylor, 1850 Bayard Taylor (1825-1878) was already a well-established writer when he traveled to California as special correspondent for the New York Tribune in the summer of 1849. On his return to New York, Taylor established himself not only as one of America's great travel writers but as a true man of letters, producing distinguished novels and poems as well as nonfiction for the next quarter century. *Eldorado* (1850) consists of Taylor's rewritten dispatches to his paper. The first volume contains his descriptions of his voyage to California via the Isthmus; the Pacific Coast of Mexico and California; the cities of San Francisco, Sacramento, Stockton, and Monterey; visits to gold fields at Sonora and the Mokelumne River; and the state Constitutional Convention.

Campus Life Carnegie Foundation for the Advancement of Teaching, 1990 A national study of social conditions on college campuses found that college officials were concerned about alcohol and drug abuse, crime, breakdown of civility, racial tensions, sex discrimination, and a diminishing commitment to teaching and learning. In response to those findings, this book proposes that both academic and civic standards be clarified and that the enduring values that undergird a community of learning be precisely defined. Six principles are presented that provide a formula for day-to-day decision making on the campus and define the kind of community every college and university should strive to be: (1) a purposeful community, (2) an open community, (3) a just community, (4) a disciplined community, (5) a caring community, and (6) a celebrative community. Appendices present detailed results of the 1989 national survey by the Carnegie Foundation that formed the basis for this report. The survey identified campus life issues of concern, as perceived by 382 responding institutions in the National Survey of College and University Presidents and 355 responding institutions in the 1989 National Survey of Chief Student Affairs Officers by the American Council on Education and the National Association of Student Personnel Administrators. The survey also analyzed views on improving campus life, actions likely to improve campus life, and changes over 5 years in specific problem areas. Reference notes accompany each chapter. (JDD)

In His Keeping Maya Banks, 2015-01-27 #1 bestselling author Maya Banks continues her suspenseful and steamy *Slow Burn* series with this second book—a twisting tale featuring a strong yet vulnerable heroine in danger and the sexy alpha hero who must save her. Abandoned as a baby to a young wealthy couple and raised in a world of privilege, Ariel has no hint of her past or who she belonged to. Her only link lies in the one thing that sets her apart from everyone else—telekinetic powers. Protected by her adoptive parents and hidden from the public to keep her gift secret, Ari is raised in the lap of luxury, and isolation. That is, until someone begins threatening her life. Beau Devereaux is no stranger to the strange. As the head of Devereaux Security, he's more than familiar with the realities of psychic powers. So when a family friend approaches him about protecting his daughter, he's more than ready to jump on board. What Beau isn't prepared for is the extent of his attraction to his beautiful and powerful client. What began as a simple assignment, just another job, quickly turns personal as Beau discovers he'll do anything at all to protect Ari. Even if it costs him his life.

Radical Then, Radical Now Jonathan Sacks, 2004-01-29 The Jewish People in its very being constitutes a living protest against a world of hatred, violence and war. *Radical Then*, *Radical Now* is a powerful testimony to the amazing resilience of the Jewish people who

have, through their endurance of four thousand years of persecution and exile, earned a unique place in history. Without land or power, they created an identity for themselves through their shared dreams of freedom, justice, dignity and human rights. Yet far more than Jewish history is contained within the pages of this book. Jonathan Sacks reminds us all of the legacy of those dreams and of our responsibility to our fellow man. He challenges us to build a better world.
