Miniature Needle Painting Embroidery Trish Burr,2015-02 Annotation. Trish has always been fascinated by miniature art and for years has had a yen to try and embroider smaller pieces. There is something so endearing about little paintings with all the detail and form of a larger piece, not to mention the fact that they are much quicker to stitch! Here she has compiled fresh and appealing designs that depict the pretty, romantic illustrations typical of the Victorian and post-Victorian eras. Each project is accompanied by a detailed thread diagram which shows exactly which colour should be used and where. The small size of the designs allows for great flexibility in their final use such as group framing, making up into cushions, book covers, quilt squares, needle cases, box lids, tote bags, pockets on clothing and so on.

**Ginkgo** Peter Crane,2013-03-19 DIVPerhaps the world's most distinctive tree, ginkgo has remained stubbornly unchanged for more than two hundred million years. A living link to the age of dinosaurs, it survived the great ice ages as a relic in China, but it earned its reprieve when people first found it useful about a thousand years ago. Today ginkgo is beloved for the elegance of its leaves, prized for its edible nuts, and revered for its longevity. This engaging book tells the full and fascinating story of a tree that people saved from extinction—a story that offers hope for other botanical biographies that are still being written./divDIV /divDIVInspired by the historic ginkgo that has thrived in London's Kew Gardens since the 1760s, renowned botanist Peter Crane explores the evolutionary history of the species from its mysterious origin through its proliferation, drastic decline, and ultimate resurgence. Crane also highlights the cultural and social significance of the ginkgo: its medicinal and nutritional uses, its power as a source of artistic and religious inspiration, and its importance as one of the world's most popular street trees. Readers of this extraordinarily interesting book will be drawn to the nearest ginkgo, where they can experience firsthand the timeless beauty of the oldest tree on Earth./div

**Forest and Land Management in Imperial China** N. Menzies,1994-09-01 Although China is generally considered to have suffered continuous deforestation over most of its history, forests were protected or even planted and maintained for centuries in some places. This study identifies six such cases. It uses historical evidence to show that individuals and communities act to manage resources sustainably for a number of reasons including economic benefit, religious or symbolic purposes, and that sustainability of the management system depends on the form of control exerted over the resource.

**Lumumba in the Arts** Matthias De Groof,2020-01-17 Lumumba as a symbol of decolonisation and as an icon in the arts It is no coincidence that a historical figure such as Patrice Emery Lumumba, independent Congo's first prime minister, who was killed in 1961, has lived in the realm of the cultural imaginary and occupied an afterlife in the arts. After all, his project remained unfinished and his corpse unburied. The figure of Lumumba has been imagined through painting, photography, cinema, poetry, literature, theatre, music, sculpture, fashion, cartoons and stamps, and also through historiography and in public space. No art form has been able to escape and remain indifferent to Lumumba. Artists observe the memory and the unresolved suffering that inscribed itself both upon Lumumba's body and within the history of Congo. If Lumumba – as an icon – lives on today, it is because the need for decolonisation does as well. Rather than seeking to unravel the truth of actual events surrounding the historical Lumumba, this book engages with his representations. What is more, it considers every historiography as inherently embedded in iconography. Film scholars, art critics, historians, philosophers, and anthropologists discuss the rich iconographic heritage inspired by Lumumba. Furthermore, Lumumba in the Arts offers unique testimonies by a number of artists who have contributed to Lumumba's polymorphic iconography, such as Marlene Dumas, Luc Tuymans, Raoul Peck, and Tshibumba Kanda Matulu, and includes contributions by such highly acclaimed scholars as Johannes Fabian, Bogumil Jewsiewicki, and Elikia M'Bokolo. Contributors: Balufu Bakupa-Kanyinda (artist), Karen Bouwer (University of San Francisco), Véronique Bragard (UCLouvain), Piet Defraeye (University of Alberta), Matthias De Groof (scholar/filmmaker), Isabelle de Rezende (independent scholar), Marlene Dumas (artist), Johannes Fabian (em., University of Amsterdam), Rosario Giordano (Università della Calabria), Idesbald Goddeeris (KU Leuven), Gert Huskens (ULB), Robbert Jacobs (artist), Bogumil Jewsiewicki (em., Université Laval), Tshibumba Kanda Matulu (artist), Elikia M'Bokolo (EHESS), Christopher L.
