Girasole : Une Maison Près de Vérone Marcel Meili, Christoph Schaub, 2010 On the slope of a gentle hill on the northern boundary of the Po basin in

Northern Italy stands a remarkable house. A modernist villa in the middle of a park, with its metallic facade shining above an enormous circular base of reddish stone. The extraordinary structure of the Casa Girasole (The Sunflower) follows the way of the sun across the sky - and the inhabitants' vista over the surrounding landscape - during the day, driven by an electric motor that can turn the entire house by 360 . It was built in the early 1930s by the Italian architects Angelo Invernizzi and Ettore Fagioli and is an important example of Italian Futurismo in architecture. Preserved entirely in its original state, including the original furniture and curtains, it makes traceable the fascination for modern technology, but also the already slightly broken optimism, of that period. The documentary film 'I Girasole: A House Near Verona' by Christoph Schaub and Marcel Meili enables the viewer to take part in a day at the house that turns around its vertical axis once. The movie introduces both the architecture and atmosphere of the building, its various rooms, furnishings and decoration. It gives a memoir of the house's history and of the time and feeling of life in which it was conceived. The film was awarded the 1st prize at the 1995 biennale Film and Architecture in Graz (Austria). The DVD is complemented by a booklet with introductory essays and illustrations.

Robert Palmatary of Duck Creek, Delaware and His Descendants Marjorie Watts Nelson, 1991 The earliest known ancestor, Robert Palmatary (d. 1691), was one of eight persons transported from the Colony of Virginia to the Province of Maryland on or before Jan. 27, 1679. A year later he applied for a land grant in St. Jones County, present day Kent County, Delaware. He and his wife Joanna (d. after 1697) were parents of four children: 1. Robert (1676-1748); 2. Ellinor (1679-bef. 1732); 3. John (b. 1681) and 4. Susannah (b. 1684).

Descendants live in Delaware, Maryland, Missouri and elsewhere.

Molecular and Cellular Biology of Bone M. Zaidi, O.A. Adebajo, C.L.H. Huang, 1998-12-30 These volumes differ from the current conventional texts on bone cell biology. Biology itself is advancing at breakneck speed and many presentations completely fail to present the field in a truly modern context. This text does not attempt to present detailed clinical descriptions. Rather, after discussion of basic concepts, there is a concentration on recently developed findings equally relevant to basic research and a modern understanding of metabolic bone disease. The book will afford productive new insights into the intimate inter-relation of experimental findings and clinical understanding. Modern medicine is founded in the laboratory and demands of its practitioners a broad scientific understanding: these volumes are written to exemplify this approach. This book is likely to become essential reading equally for laboratory and clinical scientists.

VegPyramid Junior L. Baroni,I. Fasan,L. Pinelli,2014-10-10

VegPyramid_Junior, la dieta vegetariana equilibrata e completa, adattata e rielaborata per bambini e adolescenti. Esistono ancora pregiudizi tra medici e pediatri tali da sconsigliare vivamente ai genitori una scelta vegetariana per i propri figli. Il rischio è quindi di essere costretti al «fai da te», con la possibilità tangibile di compiere errori, qualora ci si imbatta in fonti non accreditate. Le Linee Guida della VegPyramid sono ormai un sistema «collaudato» da tutti coloro che lo hanno utilizzato: con le loro indicazioni, rendono semplice la realizzazione di un menu vegetariano equilibrato, completo e gustoso. Benché funzionino benissimo nell'adulto, non sono tuttavia applicabili all'età pediatrica, dal momento che le richieste nutrizionali di questa fase della vita sono differenti non solo da quelle dell'adulto, ma anche a seconda delle varie fasce d'età. VegPyramid_Junior colma questa lacuna accompagnando i genitori nel percorso alimentare dei figli, permettendo loro di creare una sintonia/sinergia con il pediatra di fiducia. Con le informazioni nutrizionali sugli alimenti e i gruppi di nutrienti fondamentali, le indicazioni sulle principali patologie causate da un'alimentazione squilibrata, l'analisi dei bisogni e fabbisogni energetici delle diverse fasce d'età, le indicazioni per i menu delle mense scolastiche e suddivisi a seconda dell'apporto calorico. Uno strumento indispensabile per i genitori e il loro pediatra.
