**These Broken Stars** Amie Kaufman,Meagan Spooner,2013-12-10 One of the most intense, thrilling, and achingly beautiful stories I've ever read.--Marie Lu, New York Times best-selling author of the Legend trilogy  
The first in the New York Times bestselling author duo Amie Kaufman and Meagan Spooner's sweeping science fiction trilogy, *These Broken Stars* is a timeless love story about hope and survival in the face of unthinkable odds. It's a night like any other on board the *Icarus*. Then, catastrophe strikes: the massive luxury spaceliner is yanked out of hyperspace and plummets into the nearest planet. Lilac LaRoux and Tarver Merendsen are the only survivors. Lilac is the daughter of the richest man in the universe. Tarver comes from nothing, a young war hero who learned long ago that girls like Lilac are more trouble than they're worth. But with only each other to rely on, Lilac and Tarver must work together, making a tortuous journey across the eerie, deserted terrain to seek help. Then, against all odds, Lilac and Tarver find a strange blessing in the tragedy that has thrown them into each other's arms. Everything changes when they uncover the truth behind the chilling whispers that haunt their every step. Lilac and Tarver may find a way off this planet. But they won't be the same people who landed on it.

*Dark Continent* Mark Mazower,2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe's past, present, and future. [A] splendid book. —The New York Times Book Review  
*Dark Continent* provides an alternative history of the twentieth century, one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take. Mark Mazower strips away myths that have comforted us since World War II, revealing Europe as an entity constantly engaged in a bloody project of self-invention. Here is a history not of inevitable victories and forward marches, but of narrow squeaks and unexpected twists, where townships boast a bronze of Mussolini on horseback one moment, only to melt it down and recast it as a pair of noble partisans the next.

Allen Carr's Easy Way to Stop Smoking Allen Carr,2009 The revolutionary international bestseller that will stop you smoking - for good. 'If you follow my instructions you will be a happy non-smoker for the rest of your life.' That's a strong claim from Allen Carr, but as the world's leading and most successful quit smoking expert, Allen was right to boast! Reading this book is all you need to give up smoking. You can even smoke while you read. There are no scare tactics, you will not gain weight and stopping will not feel like deprivation. If you want to kick the habit then go for it. Allen Carr has helped millions of people become happy non-smokers. His unique method removes your psychological dependence on cigarettes and literally sets you free. Accept no substitute. Five million people can't be wrong.

Brave Men Ernie Pyle,2016-01-01 Ernie Pyle was a Pulitzer Prize-winning American journalist. This is his first hand account of life on the European front-line during World War II. Written with touching sympathy and humanism, *Brave Men* offers a poignant description of the everyday experiences of American foot soldiers; their courage, humanism and unshakeable camaraderie. A must-read war memoir.

Mockingbird Walter Tevis,2014-09-29 This sci-fi masterpiece is “a moral tale that has elements of Aldous Huxley’s *Brave New World*, *Superman*, and *Star Wars*” (Los Angeles Times Book Review). In a world where the human population has suffered devastating losses, a handful of survivors cling to what passes for life in a post-apocalyptic, dying landscape. People wander, drugged and lulled by electronic bliss, through a barren landscape with no children, no art, and where reading is forbidden. From this bleak existence, a tragic love triangle springs forth. Spofforth, the most perfect machine ever created, runs the world, but his only wish is to die. Paul and Mary Lou are a man and a woman whose passion for each other sparks a jealousy in Spofforth—and provides the only hope for the future of human beings on Earth. Walter Tevis, author of *The Hustler*, *The Man Who Fell to Earth*, and *The Color of Money*, delivers an elegiac dystopia of mankind coming to terms with its own imminent extinction. “Because of its affirmation of such persistent human values as curiosity, courage, compassion, along with its undeniable narrative power, *Mockingbird* will become one of those books that coming generations will periodically rediscover with wonder and delight.” —The Washington Post

**The Perfect Plan** Bryan Reardon,2019-06-18 From New York Times bestselling author Bryan Reardon comes a tense, twisting story about two brothers locked together in a dangerous game—and an unforgettable tale of a family’s dark secrets. Liam Brennan teeters on the edge. Early one morning, he snaps, kidnapping a young woman who works for Drew Brennan, Liam’s older brother and the upstart candidate in a heated election. This sudden, vicious attack appears to be the beginning of an unthinkable spiral. But when it comes to the Brennan brothers, nothing is what it seems. To the rest of the world, Liam is the troubled problem child who grew up to be his brother’s enforcer, while Drew has always been the perfect son and a charismatic leader who has his sights set on the governor’s mansion with his charming and beautiful wife, Patsy, by his side. Now, as Liam tries to stay one step ahead of the authorities and his brother, every passing minute provides a deeper glimpse into the brothers’ past, long hidden behind a picture-perfect suburban veneer. With the threat of the truth surfacing, Liam and Drew are driven toward one final, desperate act...

Power Without Responsibility James Curran,Jean Seaton,2003-12-16 Widely regarded as the standard book on the British Media, this authoritative introduction to the history, sociology, theory and politics of media and communications studies has been substantially revised and updated to bring it up to date with developments in the media industry. Its three new chapters describe the battle for the soul of the internet, the impact of the internet on society and the rise of new media in Britain. In addition it examines the recuperation of the BBC, how international and European regulation is changing the British media and why Britain has the least trusted press in Europe.

**Simplified Signs** John D.. Bonvillian,Nicole Kissane Lee,Tracy T. Dooley,Filip Loncke,Valerie Nelson-Metlay,2021 *Simplified Signs* presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totaling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike. As with all Open Book publications, this entire book is available to read for free on the publisher's website. Printed and digital editions, together with supplementary digital material, can also be found at [www.openbookpublishers.com](http://www.openbookpublishers.com).

**The Use of Words in Context** John W. Black,1985-11-30 The Speech Situation is a term worn with age in the teaching of public speaking in America. That it is comprised of occasion, speaker, and topic is a gross

oversimplification. It also includes challenge, anxiety, emotion, fear, responsibility, faults of memory, and instants of pride. Out of the circumstances arise an increase in heart rate, a change in blood pressure, an abnormal pattern of breathing, a noticeable build up in perspiration, and an ongoing evaluation. For students this may be merely a grade or perhaps a series of evaluative remarks, possibly addressed both to the speaker and the other participants, the audience. It may entail a replaying of a record of the speech, indeed a videotape. Most important is the lasting impression that remains with all of the participants. What of the vocabulary of the speaker under the circumstances of the speech situation? This speaker - in the major portions of this work we may say, this young man - has spent time seeking an appropriate topic. He has outlined a composition around a central idea or thesis. He has marshaled evidence, details. He has framed an opening paragraph. He has been admonished not to give an essay, but to strive for audience contact, interpersonal communication. He makes his audible approach through his vocabulary and accompanying phonology. Under the tension, the speaker repeats; he adds meaningless vocalizations in periods that might logically be pauses. There are slips of the tongue. At worst, failing, he withdraws to await another day.

**MPD-psycho** Eiji Ōtsuka,2014 Dead Man's Galaxy Days skips back in time to events that take place before MPD-Psycho Volume 1. Yousuke Kobayashi seems like a smart, driven Tokyo police officer, but he'll soon be transformed into a tragic multiple personality detective. The ongoing mystery of the Gakuso gang and their murderous barcode clones unravels further, and MPD-Psycho's strange supporting cast is seen in a totally new light as a serial killer, the Tokyo Mirror Man, terrorizes the city with his chainsaw!

*A Saint in Seattle* David P. Jackson,2003 Exiled from his native land by the Communist Chinese, Tibetan lama Dezhung Rinpoche arrived in Seattle and continued his role as a teacher of teachers, mentoring some of the most prominent Western scholars of Tibetan Buddhism today.

**Hitler's Empire** Mark Mazower,2013-03-07 The powerful, disturbing history of Nazi Europe by Mark Mazower, one of Britain's leading historians and bestselling author of Dark Continent and Governing the World Hitler's Empire charts the landscape of the Nazi imperial imagination - from those economists who dreamed of turning Europe into a huge market for German business, to Hitler's own plans for new transcontinental motorways passing over the ethnically cleansed Russian steppe, and earnest internal SS discussions of political theory, dictatorship and the rule of law. Above all, this chilling account shows what happened as these ideas met reality. After their early battlefield triumphs, the bankruptcy of the Nazis' political vision for Europe became all too clear: their allies bailed out, their New Order collapsed in military failure, and they left behind a continent corrupted by collaboration, impoverished by looting and exploitation, and grieving the victims of war and genocide. About the author: Mark Mazower is Ira D.Wallach Professor of World Order Studies and Professor of History Professor of History at Columbia University. He is the author of Hitler's Greece: The Experience of Occupation, 1941-44, Dark Continent: Europe's Twentieth Century, The Balkans: A Short History (which won the Wolfson Prize for History), Salonica: City of Ghosts (which won both the Duff Cooper Prize and the Runciman Award) and Governing the World: The History of an Idea. He has also taught at Birkbeck College, University of London, Sussex University and Princeton. He lives in New York.

**Black School, White School** Jeffrey S. Brooks,2012-03-30 How do race and race relations influence leadership practice and the education of students? In this timely and provocative book, the author identifies cultural and unstated norms and beliefs around race and race relations, and explores how these dynamics influence the kind of education students receive. Drawing on findings from extensive observations, interviews, and documents, the author reveals that many decisions that should have been based on pedagogy (or what is best for students) were instead inspired by conscious and unconscious racist assumptions, discrimination, and stereotypes. With applicable implications and lessons for all, this book will help schools and leadership programs to take the next step in addressing longstanding and deeply entrenched inequity and inequality in schools.
