Achieving the Sustainable Development Goals Through Sustainable Food Systems Riccardo Valentini, John L. Sievenpiper, Marta Antonelli, Katarzyna Dembska,2019-10-10 This publication offers a systemic analysis of sustainability in the food system, taking as its framework the Sustainable Development Goals of the 2030 Agenda of the United Nations. Targeted chapters from experts in the field cover main challenges in the food system and propose methods for achieving long term sustainability. Authors focus on how sustainability can be achieved along the whole food chain and in different contexts. Timely issues such as food security, climate change and migration and sustainable agriculture are discussed in depth. The volume is unique in its multidisciplinary and multi-stakeholder approach. Chapter authors come from a variety of backgrounds, and authors include academic professors, members of CSO and other international organizations, and policy makers. This plurality allows for a nuanced analysis of sustainability goals and practices from a variety of perspectives, making the book useful to a wide range of readers working in different areas related to sustainability and food production. The book is targeted towards the academic community and practitioners in the policy, international cooperation, nutrition, geography, and social sciences fields. Professors teaching in nutrition, food technology, food sociology, geography, global economics, food systems, agriculture and agronomy, and political science and international cooperation may find this to be a useful supplemental text in their courses.

Switching Goals Alex Morgan,2019-06-11 From FIFA World Cup Champion, Olympic gold medalist, and bestselling author Alex Morgan comes the tenth book in an empowering and fun-filled middle grade series that inspired the streaming original series, *The Kicks!* Frida is convinced Devin is her good luck charm. So when Frida lands an audition for a commercial, she begs Devin to come with her. But while she waits backstage, Devin has a bit of god luck of her own—an agent spots her and thinks she'd be perfect to model for an athletic wear photo shoot! Devin doesn't know anything about modeling, but she decides to give it a go. Soon, though, her modeling and soccer schedules start to conflict, and Devin feels like she's letting her team down in all the chaos. She knows she has to choose between soccer and modeling, but with everyone talking about her playing in college and the rest of the *Kicks* obsessing over a fortune-telling app, it feels like Devin has to choose her whole future right now too. Is soccer the goal Devin really wants to keep going for? Or will she shift her eye to another prize?

This 4th degree, also known as the 10 X Rule, is that level of action that guarantees companies and individuals realize their goals and dreams. The 10 X Rule unveils the principle of Massive Action, allowing you to blast through business clichés and risk-aversion while taking concrete steps to reach your dreams. It also demonstrates why people get stuck in the first three actions and how to move into making the 10X Rule a discipline. Find out exactly where to start, what to do, and how to follow up each action you take with more action to achieve Massive Action results.
