Maya Glyphs Linda Schele,1982-11-01 The key to the study of the language and history of the Classic Maya (A.D. 293-900) is the verb. *Maya Glyphs: The Verbs* is a comprehensive study of the verb morphology and syntax of the Maya writing system. Linda Schele's summary of methodology makes available in a single place many important discoveries and approaches to the Maya language. Hers is the first sourcebook to include so broad a range of dates and to identify for the first time so many Maya rulers and events. The admirably lucid text provides an excellent introduction to Maya hieroglyphics for the beginner, and, for the experienced Mayanist, it offers a fascinating explanation of methodology, including paraphrasing, and important information about syntactical structures, special verbal constructions, and literary conventions. Schele's extensive catalog of known verbal phrases is useful for a variety of purposes. Because it is organized according to verbal affix patterns, it provides the only available source for the distribution of such patterns in the writing system. At the same time it registers the date of each event, its agent and patient (if recorded), the dedication date of the monument on which the glyphs occur, and a pictorial illustration, rather than a T-number transcription, of each example. Extensive notes treating problems of dating, interpretation, and dynastic information contain theories about the meaning and function of the events recorded in the Maya inscriptions.

Understanding Maya Inscriptions John F. Harris, Stephen K. Stearns, 1997-01-29 This second edition includes revised and updated versions of three earlier publications: *Understanding Maya Inscriptions: A Hieroglyph Handbook*; *New and Recent Maya Hieroglyph Readings*; and *A Resource Bibliography for the Decipherment of Maya Hieroglyphs and New Maya Hieroglyph Readings*. This volume is designed to function as a self-teaching tool to help the neophyte, and yet be of value to scholars. It introduces the latest methods of analysis, illustrates techniques for computing Maya calendrics, uses the currently accepted orthography, provides syllabary and syntax, suggests new glyph readings, and presents various interpretations.

The Monuments and Inscriptions of Tikal--The Carved Monuments Nicholas Jones, Linton Satterthwaite, Jr., 2011-01-01 This study treats the entire corpus of stone and wood monuments from the Maya site of Tikal and lesser periphery locations. Each description includes details of provenience and condition. Every carved surface is illustrated by a standardized scale drawing, supplemented in almost every case by photographs.

On the Lips of Others Patrick Thomas Hajovsky, 2015-06-01 Moteuczoma, the last king who ruled the Aztec Empire, was rarely seen or heard by his subjects, yet his presence was felt throughout the capital city of Tenochtitlan, where his deeds were recorded in hieroglyphic inscriptions on monuments and his command was expressed in highly refined ritual performances. What did Moteuczoma's fame mean in the Aztec world? How was it created and maintained? In this innovative study, Patrick Hajovsky investigates the king's inscribed and spoken name, showing how it distinguished his aura from those of his constituencies, especially other Aztec nobles, warriors, and merchants, who also vied for their own grandeur and fame. While Tenochtitlan reached its greatest size and complexity under Moteuczoma, the Great Speaker innovated upon fame by tying his very name to the Aztec royal office. As Moteuczoma's fame transcends Aztec visual and oral culture, Hajovsky brings together a vast body of evidence, including Nahuatl language and poetry, indigenous pictorial manuscripts and written narratives, and archaeological and sculptural artifacts. The kaleidoscopic assortment of sources casts Moteuczoma as a divine king who, while inheriting the fame of past rulers, saw his own reputation become entwined with imperial politics, ideological narratives, and eternal gods. Hajovsky also reflects on posthumous narratives about Moteuczoma, which created a very different sense of his fame as a conquered subject. These contrasting aspects of fame offer important new insights into the politics of personhood and portraiture across Aztec and colonial-period sources.

The Monuments and Inscriptions of Caracol, Belize Carl P. Beetz, Linton Satterthwaite, Jr., 1981-01-29 The publication of this book finally places the exquisitely carved but little known monuments of Caracol with those of Quirigua, Copan, and Tikal. New breakthroughs in the decipherment of Maya text have enabled the graceful hieroglyphic inscriptions to be translated. University Museum Monograph, 45

The Decipherment of Ancient Maya Writing Stephen D. Houston,Oswaldo Fernando Chinchilla Mazariegos,David Stuart,2001 The Decipherment of Ancient Maya Writing is an important story of intellectual discovery and a tale of code breaking comparable to the interpreting of Egyptian hieroglyphs and the decoding of cuneiform. This book provides a history of the interpretation of Maya hieroglyphs. Introductory essays offer the historical context and describe the personalities and theories of the many authors who contributed to the understanding of these ancient glyphs.
