Sweeney's simple but effective 5/10/15 networking plan will give you a leg up in the current job market, help you stay employed, or, if you've been laid off, find your next job. The cliché that who you know is more important than what you know has never been truer. Sweeney illustrates his insights with dozens of helpful examples from his own life (along with a few fascinating insider sports stories).With special sections on networking for women and minorities, insights into the usefulness (and handicaps) of social networking sites, how to get (and why you need) a wingman and profiles of other master networkers, Networking Is a Contact Sport is a practical and essential guide for anyone who wants to get ahead in today's economy.

Networking China Yu Hong,2017-01-11 In recent years, China 's leaders have taken decisive action to transform information, communications, and technology (ICT) into the nation's next pillar industry. In *Networking China* , Yu Hong offers an overdue examination of that burgeoning sector's political economy. Hong focuses on how the state, in conjunction with market forces and class interests, is constructing and realigning its digitalized sector. State planners intend to build a more competitive ICT sector by modernizing the network infrastructure, corporatizing media-and-entertainment institutions, and by using ICT as a crosscutting catalyst for innovation, industrial modernization, and export upgrades. The goal: to end China's industrial and technological dependence upon foreign corporations while transforming itself into a global ICT leader. The project, though bright with possibilities, unleashes implications rife with contradiction and surprise. Hong analyzes the central role of information, communications, and culture in Chinese-style capitalism. She also argues that the state and elites have failed to challenge entrenched interests or redistribute power and resources, as promised. Instead, they prioritize information, communications, and culture as technological fixes to make pragmatic tradeoffs between economic growth and social justice.

The Golden Rule of Referral Networking Todd Swicegood,2020-02-03

The Internet in China Zixue Tai,2007-05-07 *The Internet in China* examines the cultural and political ramifications of the Internet for Chinese society. The rapid growth of the Internet has been enthusiastically embraced by the Chinese government, but the government has also rushed to seize control of the virtual environment. Individuals have responded with impassioned campaigns against official control of information. The emergence of a civil society via cyberspace has had profound effects upon China--for example, in 2003, based on an Internet campaign, the Chinese Supreme People's Court overturned the ruling of a local court for the first time since the Communist Party came to power in 1949. The important question this book asks is not whether the Internet will democratize China, but rather in what ways the Internet is democratizing communication in China. How is the Internet empowering individuals by fostering new types of social spaces and redefining existing social relations?

**Networking Divas** Monica Sparks,2013-09-25 Being that the book cover is pink, one may assume that this book is for women only and since the author is a

woman this must be a great resource to help women develop in business and personal matters, correct? My friends your assumptions are only partially correct; from the start I can promise you two things. 1) This book is filled empowering information. It is a resource and tool for any gender and any age! 2) Real men do wear pink! Before you read any further, please allow me to share a brief educational moment with you. I would like to clear the air and show you the relationship between men and their direct connection to the diva status. Divas (female) and Divos (male) do exist! Originating from a rich heritage and musical culture directly related to the Opera. Divas and Divos were the grandest stars with the most beautiful voices. [en.wikipedia.org/wiki/Diva](http://en.wikipedia.org/wiki/Diva) A few years ago, I was asked to give the graduation address at a high school. My good friend, I affectionately call Aunt Star went with me for moral support. On the way she was listening to my speech to make sure that I did not bore the young adults I had to speak to. Just before I was introduced, she turned to me and said, Are you ready Ms. Diva? For a brief moment, I thought, humis THAT what you really think of me? What a cheap shot just before I go on stage. She then smiled and said, Life has taught you many lessons, you know who you are and can now share your experiences to help others, go get them girlfriend! At that moment, I was released and felt proud to share my success AND mistakes to the audience. Soon after that event, I was invited to another organization to speak about empowerment for young girls. It just so happens that the organization was a church. Upon my arrival, the church had a gracious representative that attended to my every need. With-in my tradition and long standing reputation of keeping it real I will admit that the attention felt, well, sort of, kind of good. I keep praying that they ask me to come back one day. Anyway, just before I addressed the audience, the humble representative turned to me and said, Are you ready Ms. Diva? I almost lost my religion, because, I know, just like YOU know, that the adjectives used to describe a diva are simply put, words we care NOT to use in anyones church! Matter-of-fact, the typical actions of a diva will get you sat down or drop kicked by the ushers in any faith. The very moment I almost lost my religion, I also found it at the same time. I felt my calling, the need to help change the stigma for true Divas everywhere. The word diva has historically been used to categorize someone who is demanding, demeaning and downright witchy. My thoughts about the encouraging words from my Aunt Star and the humble personal care the representative was giving me at the church as her honored guest, gave me the true Diva wake-up call. Though their comments, they were simply letting me know, that they knew who I was, supporting me, reminding me to never forget my strength to be a conduit to connect and help others. The real beauty that comes from being a Diva comes only when you share strength with others to empower them. I was not asked to speak to the young ladies because my name is Monica Sparks, but the organization thought my message of empowerment would encourage, help to heal and guide the young ladies in the audience. The supportive words and care I was provided, was a way to thank me for my concern and service. I was appreciated for sharing and giving the gift of my experiences. The light came on for me, so every time I speak and have the opportunity to offer encouragement, I do! I learned that Divas are not necessarily rude and obnoxious people. They are people who know who they are and gladly give back to help others. It is that spark of loving yourself and others that drive Divas to have creative, positive energy that allows them to network with

**Networking for People Who Hate Networking** Devora Zack, 2010-12-30 Shows how the networking-averse can succeed by working with the very traits that make them hate traditional networking Written by a proud introvert who is also an enthusiastic networker Includes field-tested tips and techniques for virtually any situation Are you the kind of person who would rather get a root canal than face a group of strangers? Does the phrase working a room make you want to retreat to yours? Does traditional networking advice seem like it's in a foreign language? Devora Zack, an avowed introvert and a successful consultant

who speaks to thousands of people every year, feels your pain. She found that most networking advice books assume that to succeed you have to become an outgoing, extraverted person. Or at least learn how to fake it. Not at all. There is another way. This book shatters stereotypes about people who dislike networking. They're not shy or misanthropic. Rather, they tend to be reflective - they think before they talk. They focus intensely on a few things rather than broadly on a lot of things. And they need time alone to recharge. Because they've been told networking is all about small talk, big numbers and constant contact, they assume it's not for them. But it is! Zack politely examines and then smashes to tiny fragments the dusty old rules of standard networking advice. She shows how the very traits that ordinarily make people networking-averse can be harnessed to forge an approach that is just as effective as more traditional approaches, if not better.

*Networking in 90 Minutes* Lindsay Bannerman, 2007

**Truth or Delusion?** Ivan R. Misner, 2006-10-15 Many books teach the who / what / where / why / how of professional networking. Truth or Delusion

separates the reality from the fantasy by presenting Truths and Delusions about networking and then shows why they are either real or fakes. For example:  
 Delusion: The best way to ensure referral success is to treat your referral sources by the Golden Rule. Treat them the way you would want to be treated.  
 Truth: The best way is to treat your referral sources the way THEY want to be treated. The referral process is more about emotion than facts. Find out how your referral sources want to be treated and how they would like you to treat their referrals.
