

# GOLDEN SPOTSMAP OF EUROPE 10

R.R. ASKEW

THE LITERARY AND EDUCATIONAL YEAR BOOK FOR 1859 ,1859

THE GOLDEN AGE OF MARITIME MAPS CATHERINE HOFMANN,HELENE RICHARD,EMMANUELLE VAGNON,2013 Portolan charts, so called from the Italian adjective portolano, meaning 'related to ports or harbours', were born during the 12th century in the maritime community. These charts, drawn on parchment and crisscrossed with lines referring to the compass directions, indicated the succession of ports and anchorages along the shores, and were used by European sailors exploring the world up until the 18th century. Not only used as navigational instruments on boats, they were also produced for wealthy sponsors in the form of illuminated images of the world, to illustrate the economic and political interests of the major European sea powers. This book takes stock of the state of knowledge on these maps, bringing together contributions from a dozen European specialists, who trace the history and diversity of styles and places of production of these charts. This type of mapping is approached from three angles. The first part, 'The Mediterranean', refers to the manufacture and use of the first charts, centred on the Mediterranean, and the persistence of this tradition in the Mediterranean basin until the 18th century. The second part, 'The Open Sea', shows how these regional charts have evolved from a technical and iconographical point of view at the time of the great European voyages, in order to include the oceans and new worlds. The third part, 'The Indian Ocean', shows how these charts, in a maritime area where ancient civilizations coexisted, were dependent on other cartographic traditions (ancient, Arab, Asian) before joining the information reported by Portuguese sailors and European trading companies in the modern era. AUTHORS: CATHERINE HOFMANN, A PALAEOGRAPHIC ARCHIVIST, IS CHIEF CURATOR IN THE DEPARTMENT OF MAPS AND PLANS OF THE NATIONAL LIBRARY OF FRANCE. SHE IS A BOARD MEMBER OF THE JOURNAL IMAGO MUNDI, AND HAS PUBLISHED FIFTEEN ARTICLES ON THE HISTORY OF CARTOGRAPHY IN THE MODERN ERA. HELENE RICHARD, A PALAEOGRAPHIC ARCHIVIST, IS A FORMER DIRECTOR OF THE DEPARTMENT OF MAPS AND PLANS AT THE NATIONAL LIBRARY OF FRANCE. IN ADDITION TO HER RESEARCH ON THE HISTORY OF BOOKS AND LIBRARIES, SHE HAS PUBLISHED WORKS ON THE HISTORY OF MARITIME EXPLORATION IN THE 18TH AND 19TH CENTURIES AND THE ASSOCIATED NAUTICAL SCIENCE. EMMANUELLE VAGNON HOLDS A PHD IN HISTORY, SPECIALISING IN MAPS OF THE MIDDLE AGES. SHE IS SENIOR RESEARCHER AT THE FRENCH NATIONAL CENTRE FOR SCIENTIFIC RESEARCH AND THE UNIVERSITY OF PARIS. ILLUSTRATIONS: 300 COLOUR ILLUSTRATIONS

THE AMERICAN PROMISE, VOLUME A JAMES L. ROARK, MICHAEL P. JOHNSON, PATRICIA CLINE COHEN, SARAH STAGE, SUSAN M. HARTMANN, 2012-01-09 The American Promise is more teachable and memorable than any other U.S. survey text. The balanced narrative braids together political and social history so that students can discern overarching trends as well as individual stories. The voices of hundreds of Americans - from Presidents to pipe fitters, and sharecroppers to suffragettes - animate the past and make concepts memorable. The past comes alive for students through dynamic special features and a stunning and distinctive visual program. Over 775 contemporaneous illustrations - more than any competing text - draw students into the text, and more than 180 full-color maps increase students' geographic literacy. A rich array of special features complements the narrative offering more points of departure for assignments and discussion. Longstanding favorites include Documenting the American Promise, Historical Questions, The Promise of Technology, and Beyond American's Borders, representing a key part of our effort to increase attention paid to the global context of American history.

THE EMIGRANT'S GUIDE TO AUSTRALIA ... WITH A NEW MAP OF THE GOLD-FIELDS, ETC JOHN CAPPER, 1853

Try our DK Eyewitness Travel Guide Europe.

THE MINING INVESTOR ,1911

GOLD FIELDS OF AUSTRALIA JAMES WYLD, 1853

THE EXCHANGE AND MART ,1871

A FIELD GUIDE TO THE BIRDS OF BRITAIN AND EUROPE ROGER TORY PETERSON, GUY MOUNTFORT, PHILIP ARTHUR DOMINIC HOLLOW, 1993 With 364 range maps and 96 color plates portraying 548 species, this is the classic field guide to European birds. Covering 698 species, the descriptive text includes information on geographical races, vagrants, and introduced species. Confusing species such as waders, raptors, and warblers have additional notes on how to distinguish them.

CATALOGUE OF BOOKS PRINTED IN THE XVTH CENTURY NOW IN THE BRITISH MUSEUM: GERMANY: ELTVIL-TRIER BRITISH MUSEUM. DEPARTMENT OF PRINTED BOOKS, 1912

INDEX GEOGRAPHICUS, BEING A LIST ALPHABETICALLY ARRANGED OF THE PRINCIPAL PLACES ON THE GLOBE, WITH THE COUNTRIES AND SUBDIVISIONS OF THE COUNTRIES IN WHICH THEY ARE SITUATED, AND THEIR LATITUDES AND LONGITUDES COMPILED SPECIALLY WITH REFERENCE TO KEITH JOHNSTON'S ROYAL ATLAS, 1864

THE DRAGONFLIES OF EUROPE R.R. ASKEW, 2021-10-25 This is the only book written in English to cover the entire European fauna, comprising 124 species of resident damselfly (Zygoptera) and dragonfly (Anisoptera), illustrated on the 30 plates of 219 colour figures. In most cases, both sexes as well as important variants are depicted, all enlarged. In his foreword to this revised edition, Professor Philip Corbet, Past-President of the Worldwide Dragonfly Association and doyen of British odonatists, states that, as a standard reference work, "it will continue to contribute importantly to the progress of odonatology." The author has made a few corrections to his original text, which covered 114 species of Odonata breeding in Europe, and has added a new preface and an updating supplement. The introduction, which is largely unchanged, includes chapters on history; life history; the adult dragonfly; distribution; morphology of the adult dragonfly; a complete, updated check list; and keys to the suborders and families. The systematic section gives keys to the genera and species, with clear descriptions and details of the biology, flight periods, and distribution of all species found in Europe, with distribution maps showing national boundaries. This is now followed by the supplement, in which Dr Askew has added a further ten resident species, including one new to science, and several adventives. It also provides new information under the following headings: nomenclature; orthography; thermoregulation; American species observed in Europe; accidental introductions into Europe; other species newly recognized in Europe; species new to the British Isles; expansion of recorded ranges within Europe; other new distribution records; and contraction of recorded ranges. The author goes on to list major European and national literature on the Odonata published since 1988. There are numerous line-drawings throughout the text and over 100 new references to the European literature have been added to the supplement bringing the total to over 650. The book concludes with a new index to English and scientific names, incorporating all species, subspecies and synonyms cited in the revised text. There are two plates of colour photographs showing biology and habitats and the author has added a further colour plate to his original 29 plates of adult insects, depicting five of the new European species and one from North America. In its new, slightly-reduced, softback format, this classic work, which has already sold 3000 copies, will be more practical in the field and should prove extremely popular with British and continental odonatists.
